New York, July 2-Night.-The following is Judge Davis' charge to the jury in the Walworth case: "If the jury were satisfied, from the evidence, that young Walworth came to New York with the intent to murder his father, then the crime was murder in the first degree ; but if the crime was committed in a sudden manner, in an instant, then it would be murder in the second degree."

WASHINGTON, D. C., July 2. For Thursday in the Gulf and South Atlantic States, rising barometer, southerly winds and generally clear weather. For the Ohio Valley and Middle Atlantic States southwest winds, partly cloudy and clear weather. In New England and New York southperature and possibly light rains.

As a general thing the Republican and Democratic members from the South did not get along very harmo-niously in Congress, but they at last found a platform upon which carpet-baggers, colored men and Democrats could all stand together. They disagreed upon political questions, but General Butler signalized the closing hours of the session with a financial both parties have recommended Chief measure which brought nearly all of them into one camp and under one banner. We allude to what is familisince the adjournment of the Forty-second Congress they have displayed a still more striking unanimity upon another issue. Of the forty-six Sena-

tors and Representatives who have re-fused to take their back pay or have returned it into the Treasury, there is not a single one from a Southern State. Radicals from New England and Democrats from the West have given up or declined to receive their swag, but we find no man on this side of the Polomac who has yielded to the pricks of mae who has yielded to the pricks of an uneasy conscience enough to give been to Goldsboro', and here is what up the spoils which were acquired in such a questionable manner. "Muzzling the Press," When Senator Carpenter launches his denunciation at the free press of the country, and pharisaically comus, where its supporters are engaged in making war through the courts it so well patronized. Our young upon this last refuge of popular lib-erty. For commenting at the time of ough House, is with Dr. Wright. the election upon the conduct of Jacob Hawkins, a member of the Board of Canvassers, as he deserved, that indi-vidual brought an action for libel against the New Orleans Picayune, laying his damages at \$100,000. The case was brought before Judge Lynch, who owes his seat on the bench direct ly to the fraudulent returns made by the Hawkins Board. Thus a Judge assumed to try the case who was in-terested in its issue quite as much as Hawkins; and as the laws of Louisiana allow the defendant to prove, if possible, the truth of the libel in justification, his presence on the bench was sufficiently significant of the predetermined result. In protecting the plaintiff Judge Lynch would only be protecting himself. Hawkins and his Board were denonneed for being guilty of the grossest fraud in returning individuals as elected who never had been elected, and a Judge holding his seat by the very process denoureed, sits in judgment upon the nability to agree, threatening them

the allegations contained in the offen-sive matter charged as libellous. To do this it was necessary to prove the false swearing of Hawkins as a mem-Judge Lynch peremptorily refused to let the counsel atttempt it. He would not even suffer the cross-examination of the plaintiff's witlesses, and his rulings from first to last were and ac only partial and infamous. Finally, the Judge abruptly told the Picayune's counsel that he was occupying too much time in discussing the admissibility of evidence, and gave notice that that branch of the defence should term:nate. And after suppressing everydefendant as evidence, the jury were severely charged and retired. first impulse was to give Hawkins seventy-five thousand dollars' damages, but they disagreed, came back the Bench, and at length, after four hours' further deliberation, came to a of them desired to make an explanation; whereupon Judge Lynch vociferated: "We do not want any remarks' and another juror exclaimed: "Well Judge, they forced us and we had to give in." And Judge Lynch sat and received a verdict rendered under pressure, an occurrence unheard of in the history of Louisiana In London, yesterday, several per-jury trials. conclusion. As they were polled one you will go with the majority." The verdict was for \$18,000 damages to Hawkins. Here, then, is justice under the Kellogg usurpation in Louisiana. It is certainly without a parallel in this country. It was Hawkins who elected Kellogg, precisely as he elected Lynch. Durell only recognized the Hawkins fraud, and the Marshal called upon the President to enforce the decree. That the President is just as responsible for this flagrant outrage on common justice and decency as he is for Kellogg, through Durell and Packard, needs no assertion. The whole combination
