The follow dispatch has just arrived in cipher from the Herald correspondent in Madrid :

MADRID, Nov. 26-Noon-The situation is grave. On the 19th, General Sickles, by order of President Grant, delivered a formal ultimatum to President Castellar demanding prompt and vigorous reparation for the insult to the American flag, the restoration of the Virginius, the release of the surviving prisoners, indemnity to the families of the murdered and the punishment of the murderers; and also, a guarantee against future outrages in Cubs. The demand was couched in a kind and sympathetic tone, but no alternative was given. Gen. Sickles was also instructed to say that if Castelar did not comply with the demands in one week he should ask for his passport and leave Madrid with the Legation. The time expires to-day and no answer has been received. Everything at the Legation is packed up for imme

How to Live Economically. The problem of Low to economize in

living is one that engages the serious attention of a great many people. "Many a little makes a mickle" was one of Benjamin Franklin's "Poor Richard" truisms that summarizes the whole system of popular extravagance. If you wish to save money, economize in little as well as large items of expenditure. For all the household purpo-ses for which polishing powder-, Bath brick and soap are usually used, excepting the one thing of washing clothes, Sapolio is by many times the heapest article that can be employed. To say nothing about its great superiority to all other substances, it is, on the score of money alone, by far the cheapest. Remember this fact and save many dollars every year. 4w
