Passage of the City Bill.
CANTWELL ON THE WAR PATH.

He Threatens Blood.
His Anger Gets the Better
of His Discretion.

Confession of His Own Iniquity.
THE CASE OF MR. HOLMES.

THE CITY PLACED UNDER THE
GUNS OF A REVENUE CUTTER
BECAUSE A GENTLEMAN CALLS A NEGRO
BY HIS PROPER NAME.

MEMORIAL TO THE JOURNAL.

BALTIMORE, N. C., Jan. 28.

The City Bill passed its final reading in the Senate this morning, by a party vote.

Mr. Kerr opened the debate. Cantwell railed long, referring to the time when, as City Court Judge, he fined Mr. Jno. L. Holmes, a member of the bar, for calling the negro witness Howe by his first name, Anthony. Cantwell said he would have exhausted the power of City, State and Federal government to enforce his orders; that he had actually made arrangements with the commander of the Revenue Cutter then in port to enforce these orders.

Cantwell said the passage of the city bill would justify Federal interference; that its passage would make the rivers of Carolina run with blood!

Mr. French concluded the debate in a splendid speech. Cantwell's overthrow was complete. Mr. French's speech was a crusher.

What do Wilmingtonians think of their city having been under the guns of a Federal Revenue Cutter at Cantwell's request, because a gentleman called a negro by his proper name?

S.

HEADQUARTERS.

NO RECOGNITION YET FOR
KELLOGG.

CONTINUED DEDICATION IN
THE HOUSE.

CONKLIN'S SPEECH ON LOU-
ISIANA.

WASHINGTON, Jan. 28—Noon—The following is the vote of the Committee on Privileges and Elections on the proposition to recognize the Kellogg government: Yes, Morton, Logan, Anthony and Mitchell; nays, Alcorn, Hamilton, Salisbury, Albert, Carpenter and Wadeigh.

Mr. Alcorn stated, in the Committee, that if the Senate recognized the Kellogg government, he should vote to admit Pinckney.

The deadlock in the House continues, neither side showing any signs of yielding. The probability is, however, that an adjournment will soon take place and that the Republicans will fall back upon a renewed attempt to change the rules next Monday by adopting a new rule, applicable only to the session, prohibiting the Speaker from introducing dilatory motions. With that rule established the passage of the civil rights bill would be safe sailing.

WASHINGTON, Jan. 28—Night—Miss Virginia Bean signed a contract to-day with the Secretary of the Navy, for a bronze statue of Farragut, in accordance with the decision of the Congressional Committee to select the artist.

Houses—Filibustering continues. The Speaker declared that on Monday under a call of the States, the resolution to amend the rules could be referred to the Committee on Rules, upon which motion the Speaker would allow no dilatory motion. The Committee on Rules can report at any time, and an amendment of the rules will bring the Civil Rights bill before the House and allow the majority to pass it.

Senate—The bill extending the time for claim and payment of premium on public lands failed.

The bill protecting the postal rights of the inmates of insane asylums was rejected favorably.

Mr. Conkling made a four thousand-word speech on Louisiana, which was much admired by his friends and party. He sustains the President, and "approves" Kellogg's call for troops, but says there are many acts of his party which he cannot approve.

The general tenor of his speech favored letting things alone.

He voted for himself, W. P. Finkbecker, to-morrow, when he comes back to the Senate.

At Milwaukee yesterday, in the vote for Senator, Carpenter received 59 votes, Briggs 62, and 20 votes were scattering.

These were the total ballots for Senator at Tallahassee yesterday.

The Democrats have got the Republicans 36 and the Independents 4.

Lady of the Lake, loaded for Washington, was burned to the water's edge yesterday at Norfolk. The cargo was lost.

ALABAMA.

THE TESTIMONY OF A CARPET-BAG REPUBLICAN OFFICE HOLDER.

HE GIVES THE LIE TO POLITICAL CANARDS OF OUTRAGES THERE.

New York, Jan. 28—Noon—Albion Committee examining J. P. Southworth, of Mobile, appointed U. S. District Attorney for the Southern District of Alabama, by President Grant, in 1869. Mr. Southworth testified that he went to Alabama from Illinois, that he was, and had been a Republican, but spoke during the last campaign, in Selma, for the Republican State ticket; though he knew the general condition of the State as well as any one—professional duties took him to all parts of it—there was no county in which a Republican could not live and advocate party principles, even offensively, without molestation; the effect of sending troops to the State was injurious, and there was no time when they were needed, or when the country would not have been better without them; he was a carpet-bagger, a Republican, and had been a Federal officer, and was not ostracized.

EUROPE.

SPAIN PAYS THE GUSTAVUS INDEMNITY.

LOSS OF THE BARQUE AURORA.

JAN. 28

GROWING THE CARLISTS.

PARIS, January 28—Noon—Marshal Carnot declines to stand as a candidate for the department of Book.

LONDON, January 28—Noon—The Home Rule members take no interest in the election of a liberal leader.

The barque Aurora has been lost.

Eight survivors were four days without food.

VIENNA, January 28—Noon—Spain has paid the German money indemnity for the Gustavus affair.

MADRID, Jan. 27—Night—The rebels in Navarre are crowding the Carlists. Alfonso is present.

MASSACHUSETTS.

HER LEGISLATURE UNQUALIFIED CONDEMNS GRANT'S ACTION IN LOUISIANA.

SPRINGFIELD, Jan. 28—Night—A tumultuous session. Louisiana affairs were considered. Four deprecatory resolutions were adopted, the fourth one of which condemns the government for upholding Kellogg and especially Sheridan for sending soldiers to break up the Legislature; passed by a vote of 75 to 67. Other deprecatory resolutions passed by a larger majority.

MASSACHUSETTS.

POISONED to Death.

A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of useless substance, which, therefore, remains to poison the blood, and he conveyed to every part of the system. What must be the condition of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to work off this poison through other channels and organs—the kidneys, lungs, skin, etc.; but these organs become overtaxed in performing this labor, in addition to their natural functions, and cannot long withstand the pressure, but become variously diseased.

The brain, which is the great electrical centre of all vitality, is unduly stimulated by the unhealthy blood which passes it from the heart, and it fails to perform its office healthily. Hence the symptoms of the poisoning, which are dullness, headache, incapacity to keep the mind on any subject, impairment of memory, dizzy, sleepy, or nervous feelings, gloomy forebodings and irritability of temper. The blood itself being diseased, as it forms the sweat upon the surface of the skin, is so irritating and poisonous that it produces discolored brown spots, pimples, blotches and other eruptions, sores, boils, carbuncles and scrofulous tumors.

The stomach, bowels, and other organs of the body, cannot escape becoming affected, sooner or later, and constipation, piles, dropsy, dyspepsia, diarrhea, female weakness, and many other forms of chronic disease, are among the necessary results. As a remedy for all these manifestations of disease, Dr. Pierce's Golden Medical Discovery with these daily doses of his pleasant Purgative Pellets are positively unequalled. By them the liver and stomach are changed to an active and healthy state, the appetite regulated and restored, the blood and secretions thoroughly purified and enriched, and the whole system renovated and built up anew. Sold by all first-class drug-gists and dealers in medicine.

Thousands of sufferers will rejoice that at last "Tom Collins" himself has been sold. He was a horse and brought \$500.

A scientific agriculturist reports that he has found as high as thirty per cent of cream in the last pint of milk drawn from a cow, when the first pint from the same cow yielded only nine and a half per cent.

The happiness of the next world is closely apprehended as the life interests of men were a martyrdom to live; and unto such consider hereafter, if must be more than death to die, which makes me amazed at these audacities that there be nothing and return unto the chaos again.

SPECIAL.

If you have not yet tried the Warwick coffee, do not cease. It is strong, and looks better than any other coffee.

MARVELS BEYOND PRECEDENTS.

In the effect of OZODONT upon the whole economy of the mouth, keeping the gums and teeth in perfect order, giving to the breath a balsom fragrance.

Many valuable horses die from the effects of dental decay, leading to a crevass of the kind, through a sore of the joints, and laminitis into a long-necked jink hock, and still printf moles and water, then pour the whole down the horse's throat. In ten minutes the horse will begin to eat.
