

The Daily Journal.

WILMINGTON, N. C.: FRIDAY, FEB. 19, 1875.

BY TELEGRAPH. HEADQUARTERS.

THE HOUSE EXPENDS ITS ENERGIES ON THE TARIFF BILL.

THE FORCE BILL ORDERED PRINTED.

AN EXTRA SESSION OF THE SENATE SPOKEN OF.

SENATORS RANSOM AND MERRIMON ON THE LOUISIANA QUESTION.

NO ACTION ON MORTON'S PINCHBACK RESOLUTION.

WASHINGTON, Feb. 18--Noon--SENATORS--Senator Merrimon, of North Carolina, closed a six hours speech at 9 o'clock this morning.

Edwards, at 9:30 o'clock this morning, offered the following amendment: "Strike out the resolution seating Pinchback and insert that the Committee on Privileges and Elections be and it is hereby instructed to report forthwith a bill declaring that no constitutional government exists in Louisiana and providing for the election of Governor, Lieutenant-Governor and members of the General Assembly for Louisiana and all other States which are by the constitution of that State elected by the people of that State."

Senator Ransom, of North Carolina, then took the floor and spoke at some length on his desire to restore peace between the North and the South.

The House adjourned at 11:30 last night without action on the telegraph bill.

WASHINGTON, Feb. 18--Night--SENATE--The Senate adjourned after the question before the Senate was not a question for Congress but a question for the Senate alone. If there is to be an extra session this resolution could be considered then, and it seemed to be admitted on all hands that an extra session of the Senate would be convened on the 4th of March. He believed it was the first duty of the Senate to provide means to carry on the government, and would therefore vote for taking up the appropriation bill.

Merrill, of Maine, said he was disposed to regard this resolution entirely as an order of business, and with a view to getting the Indian Appropriation bill before the Senate, he moved to lay the resolution on the table. Upon this question the yeas and nays were ordered and the resolution was tabled, yeas 39, nays 22.

Ferry, of Connecticut, who would have voted in the affirmative, was paired with Boutwell, who would have voted in the negative.

West moved that the Senate adjourn, which was rejected, yeas 6, nays 32.

Windom, of Minnesota, moved that the Senate proceed to the consideration of the Indian Appropriation bill.

The Indian Appropriation bill was taken up and the Senate adjourned.

House--The House spent three hours on the tariff bill. All amendments offered by the opponents of the measure were voted down, but an amendment was adopted on motion of Dawes, increasing the tax on domestic cigars from five dollars to six dollars a thousand and on cigars gotten from \$3.50 to \$3.75. Having got through the first two sections of the bill, the whiskey and the tobacco sections, the Committee rose and the House took up as a special order the bill reported by Starnard, of Missouri, from the Committee on Commerce, for the improvement of the mouth of the Mississippi river on the Eastern side.

The bill without division.

The House then resumed the tariff bill. The third section abolishing the tax on molasses was struck out. The fourth section, increasing the duties on molasses and sugars 25 per cent, was amended by including Melado.

The Committee then rose, and Coburn, of Indiana, reported the canon force bill, which was ordered to be printed and recommitted.

The Committee on the Pacific Railroad will vote on the Texas Pacific on Friday. They are about evenly divided.

It is stated that the majority of the Senate Judiciary Committee consider the Pacific Mail subsidy as a contract which Congress cannot abrogate.

BALTIMORE.

THE RAILROAD WAR.

New York, Feb. 18--Noon--Col. Scott is determined to stand firm.

New tickets were issued to-day at Charles Street Depot, two and a half miles distant from the President Depot in Baltimore, compelling the Baltimore & Ohio Road to use carriages for that distance to transfer passengers.

ELECTRICISMS.

The gas works at Des Moines, Iowa, exploded yesterday and were destroyed. One missing.

Both branches of the Alabama Legislature yesterday passed, almost unanimously, strong resolutions instructing Senators and requesting Representatives to support the Texas Pacific, and Atlantic & Pacific railroad bills.

GEORGIA.

THE RACES AT ATGUSTA.

Augusta, Feb. 18--Night--The third race of a three mile dash for all ages, for a purse of \$300, was won by Crown Prince, time 1:43. The second race of five mile heats, best two in three, for all ages, purse \$300, was won by Mattie Gold, time 1:54, 1:48, and 1:59.

RALEIGH.

ACTION ON THE USURY BILL POSTPONED UNTIL TO-DAY.

MR LE GRAND INTRODUCES A SUPPLEMENT TO THE BILL WHICH IT IS THOUGHT WILL PASS.

IT COVERS THE GROUND OF THE MEBANE AMENDMENT.

DISCUSSION ON THE GLENN CIVIL RIGHTS RESOLUTIONS.

[SPECIAL TO JOURNAL.]

RALEIGH, Feb. 18. Action on the Usury bill on its third reading in the House has been postponed until to-morrow.

In the Senate to-day Mr. LeGrand introduced a bill supplementary to the Usury bill and embodying the Mebane amendment, that the bill do not go into effect until the first day of January, 1876. It is thought it will pass both Houses.

The House occupied three hours to-day in discussing Mr. Glenn's Civil Rights resolutions. Messrs. Candler, Norment and Trivett avowed their opposition to the Civil Rights Bill, but were opposed to the resolutions, claiming that the Legislature had no right to say a man should leave any party. Mr. Glenn excoriated them, saying that the Republican party had adopted this measure as their policy and every member of that party must endorse it or they should come out at once from the party. The House will continue the discussion of the subject to-night.

EUROPE.

THE MURILLO ARRIVED IN SPAIN.

BRUSSELS, Feb. 18--Noon--Emperor William is indisposed. Von Moltke's sickness is trifling.

MADRID, Feb. 18--Noon--Murrillo's St. Anthony of Padua, stolen from the Cathedral in Seville, and recovered in New York, has arrived at Cadiz.

Three iron clads and twenty five hundred troops will be sent to Cuba at an early day.

Restoring Charred Money.

The process of the restoration of currency and other valuables constitutes one of the most interesting features of the service in the treasury department at Washington. A correspondent describes the work as it is carried on in one of the sunny rooms of the treasury building, where four ladies are kept constantly employed.

It will be remembered that an express car was recently burned near Washington. The government had \$5,750,000 in it, and the private property, consisting of diamonds, watches, &c., amounted to half as much more. The jewelry and watches only were returned to the express company. The money in the government's vaults was so charred that at a breath it crumbled, and yet four-fifths of it will be deciphered. Each little shrivelled piece is detached with a thin knife and laid on blotting paper. There the ladies examine it with magnifying glasses, and after deciphering as much as possible they paste it on a strip of thin paper; and so, bit by bit, a whole note is pieced out. After her great fire, Chicago sent two hundred cases of money, all in cinders, aggregating, at owners' valuation, \$154,397 98, and out of that sum \$126,541 33 was redeemed and returned to the owners. Boston profited by Chicago's experience, and packed her burnt money so carefully that of the eighty-three cases, contained \$85,812 00, \$88,300 00 were returned by her, besides other valuable papers.

The most skillful of these ladies once deciphered \$185,000 out of \$200,000 that had been in the hold of a burned ship for three years, and the Adams Express company, which was responsible for the amount, gave her five hundred dollars. Another time she and her associates worked faithfully and long over some burned a crazy casker threw into the fire. The bank asked only for \$160,000, but the ladies picked out \$145,000, whereupon the directors, with reckless extravagance, presented them with four dollars apiece!

The Beecher Trial.

Mr. Beecher's sons are working very hard in his behalf, and every day are with some of the younger counsel seeking out testimony and perfecting plans outside of the courtroom. Henry Beecher, Jr., is a smart young insurance agent in Court street, Brooklyn, and during this trial he intrusts his business to his brother Herbert, and joins with his brother William in helping the lawyers, Mr. J. L. Hill, General Tracy, and a Mr. P. Keady are busy all of every day, outside of the court, with different branches of the case, and it is asserted by one who is in Mr. Beecher's employ that six lawyers whose names have not been made public are at work for him--making thirty in all. General Tracy is committing his opening speech to memory, and is waiting patiently to be called into the courtroom to deliver it. The defense have a long list of witnesses, and the working lawyers outside the courtroom are leaving specifically what each one can testify to. They pass the result of their work into Mr. Sherman's hands, who has the clocks trained to arrange the matters to a nicety, and the results will be that the facts for the defense will be given strongly together, and made to good advantage.

STATE NEWS.

The Duplin Record says: The dwelling of Mrs. Sarah Hodges, of Faison's township, was consumed by fire on the night of the 10th inst., with all the out-houses. It was occupied by a Mr. Barfield, a tenant. Said to be insured partially.

The Kinston Gazette says:--Mr. Job Smith, of Pink Hill township, killed two pigs last week which were one year 8 1/2 months old, and weighed 900 pounds--one 540 pounds, the other 360. They were half native and half Chester.

The Washington Echo says:--On Friday last, Dr. John McDonald, assisted by Drs. Taylor and Blount, removed the from breast of colored woman in this place a cancerous tumor, from which she had been suffering for six years, weighing over ten pounds. The patient stood the operation well and is rapidly improving.

The Raleigh News says: We learn that a little daughter of Mr. Wiley W. Clifton, living near Beleville, in this county, was burned to death on Monday last. She, with other children, were playing around an open fireplace when her clothing took fire, and made every effort to tear her clothing from her person, she was so badly burned that she died in a few hours thereafter from the injuries sustained. Drs. Fleming and Young were called in, but could do nothing for the little sufferer. She was buried on yesterday.

The Washington Echo says: Aaron Bonner, a colored man, was condemned at the last term of the Superior Court to be hanged on Friday, the 5th day of February, for a rape upon the person of Martha Kipp, a white woman. He was sentenced by Judge Hilliard, but before the day of execution arrived, the Supreme Court decided that Hilliard was not Judge, and that Moore was. Thereupon the Governor, on application of Hilliard, sent to the Sheriff of our county a respite for thirty days. The gallows was in readiness in rear of the jail, and the rope adjusted, and Aaron did not know that he was not to be hung until the Sheriff went in to take him out to execution.

The Washington Echo says: There is a custom, which has long been practiced in some sections of our county, of serseading a newly married couple with tin pans, horns, squeedunks and horse-fiddles, interspersed at various intervals with the discharge of guns, pop crackers, &c. A person who has not been fortunate enough to enjoy one of these musical entertainments, can form no idea of the harmony and melody of the music. Mr. Redding Grubbs, a member of one of these serseading parties, while engaged in directing the serseading music the above mentioned instruments would afford, received six back-shot in different parts of his body, and had to be brought to town yesterday to have them extracted. Dr. McDonald removed the balls and at last accounts the patient was in excellent condition.

The Oxford Leader says: The residence of the Rev. Wm. Hooper, about 2 1/2 miles from Oxford, near Salem Church, was discovered to be on fire last Thursday night. Mr. Hooper had some two years ago added on a piece to the old building, and at considerable expense had made such repairs as to make it an almost new building. The fire, it is thought, originated from a stove in the old part of the house. When discovered, that portion of the building was filled with smoke. The building and contents were soon reduced to ashes and with the exception of some furniture, which was in the lower story, nothing was saved. It is estimated that the loss is between \$2,500 and \$3,000, on which there was no insurance. A negro woman named Peggy Robinson has been brought to town charged with setting the place on fire.

MARRIED.

On the 16th inst. at St. Paul's Evangelical Lutheran Church of this city, by the Rev. G. D. Bernheim, Mr. JOHN L. DUDLEY and Miss LARA L. W. AR. Also at the same time and place, and by the same, Mr. J. J. BOWEN and Miss MARY C. STRAUSS, both daughters of Mr. J. W. Strauss, of this city.

SPECIAL.

TRAVELLERS should wear Elmwood collars. They are easily carried, wear well, look nicely, and do not require washing.

Harmless as Summer Dew.

Yet in the highest degree Disinfectant and preservative, SOZODON keeps the teeth always healthy and spotless, and the gums ruddy and free from canker.

Great Larm and discomfort is caused by the use of purgative pills which grip and rack the system. "Painful Purgative Pills" are free from all injurious matter, and are mild and health-giving in their operation.

At this season of year the cramps and pains in the stomach and bowels, dysentery, diarrhoea, &c. are quite common, and should be checked at once. Johnson's Laxative is the best article that can be used in all such cases, and it should be kept in every family. Used internally.

Consumptives, Take Notice.

Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Sebeck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Sebeck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health after being pronounced incurable by physicians of acknowledged ability. Sebeck's Pulmonic Syrup also has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Sebeck provides for the purpose. These additional remedies are Sebeck's Sea-Weed Tonic and Mantraine Pills. By the timely use of these medicines according to directions, Dr. Sebeck certifies that most any case of Consumption may be cured.

Dr. Sebeck is professionally at his principal offices, corner Sixth and Arch streets, Philadelphia, every Monday, where all letters for advice must be addressed.

VEGETINE

strikes at the root of disease by purifying the blood, removing all impurities, and restoring the vitality of the system, invigorating the nervous system.

is now prescribed in cases of Herpes and other diseases of the blood, by many of the best physicians, and is curing all diseases of the blood.

Does not deceive invalids into false hopes by promising and creating a fictitious appetite, but actually restores the system, leading the patient gradually to perfect health.

Was looked upon as an experiment for some time by some of the best physicians, but those most incredulous in regard to its merits saw its most ardent friends and supporters.

Instead of being a pallid medicine has worked its way up to the present astonishing success, and is curing all diseases of the blood, at whatever nature.

is acknowledged and recommended by physicians and apothecaries to be the best purifier and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

PROOF. WHAT IS NEEDED.

BOERON, Feb. 18, 1871. Dear Sir--About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article after using several bottles, was restored to health and discharged my duties as usual. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health. Respectfully yours, THOMAS GILMORE, 239 1/2 Walnut Street.

FEEL MYSELF A NEW MAN.

NATICK, MASS., June 1st, 1872. Dear Sir--Through the advice and patient persuasion of Rev. E. N. Best, of this place, I have been taking VEGETINE for Dyspepsia, and I have now only two bottles and already feel myself a new man. Respectfully, Dr. J. W. CANNON.

Report from a Practical Chemist and Apothecary.

Boston, Jan. 1, 1874. Dear Sir--This is to certify that I have analyzed 101 1/2 ounces (108 1/2 lbs.) of your VEGETINE since April 1st, 1873, and can say that it gives the best quality of any remedy for the complaint for which it is recommended, that it is entirely free from any poisonous matter, and is a most valuable remedy for the complaint for which it is recommended. I am, Sir, very respectfully, Yours, AL CILMAN, 466 Broadway, To H. R. STEVENS, Feb.

VEGETINE IS SOLD BY ALL DRUGGISTS.
