EDITORIAL NOTES.

The Methodist Episcopal Church in the United States now has twentyseven colleges and universities, sixty academies, and seminaries - the whole valued at seven million dollars, exclu sive of three theological seminaries.

A man in Bangor is spending his money in the building a fishing rod mounted is to be of solid gold,51 inch es in length. The ferules are also of solid gold.

The estate of the late Congressman Hersey, of Maine, amounts to \$2,000, 000. There are several charitable bequests, but the greater portion of the property goes to the widow, children

In Eugland people who refuse to have their children vaccinated are put in prison and welcomed with torchlight processions when they come out. Every Englishman claims the right for his children to have smallpox as guaranteed by Magna Charta,

Judging from the annual report of the co amissioner of patents, the "hard times" have proved an incentive to mechanical ingenuity The number of patents granted last year was thirteen thousand six hundred, a larger number than has been issued in any one year except in 1869, when four teen thousand were recorded. There were twenty-one thousand applications in all, The receipts were \$50,000 in excess of the expenditures. The patent office is the only institution conducted by the government which is wholly self-sustaining.

Notwithstanding the herculean efdecrease the use of tobacco, official statistics go to show that the consumption of the "weed" in this country makes a steady increase. Aside from the amount consumed on the farms, it | Missouri. appears, by actual computation, that the average number of cigars smoked in the United States each twenty-four hours reaches the colossal aggregate of 5,168,000. The smoker not only pays for his enjoyment, but he contributes heavily to the support of the fiscal year \$6,150,060 41 in gold duties country, women and children included.

A Washington special to the Boston Post says the periodical rumors of changes in the cabinet are again current. This time, according to the slate as made up by those claiming to be the best informed in this direction, Attorney General Williams is to give way to Senator Carpenter and General Bristow will vacate the treasury department and that vacancy is to be filled by Senator West, of Louisiana. What is to become of Williams and Bristow, and where they are to go, are questions which the gossips do not pretend to be so well prepared to give enlightenment upon, but they claim to have positive, though very mysteri-O is, means of knowin that changes are soon to be made in the cabinet, and that those above mentioned are now quite stirred up about the prothe most probable. Nobody's name posed connection between the Missiscould astonish the people more in con- | sippi and the Atlantic by means of this nection with the secretaryship of the great water line, and as the project is treasury than that of West, yet the one that the public have, by no means, reasons assigned for placing him there heard the last of, a brief explanation would seem patent. It is said that of it may not be uninteresting. Mrs. Grant would like to have her brother in the United States Senate from Louisians, and that Carpenter, would be a favorite companion at the

We are not at al surprised therefore that the Alder manie shoe should pinch just here.

That would be a singular state of affairs that would permit a Board of Aldermen to hold possession of the City Government without any responsibility for such defiance. If any members of the present Board of Alder men think they can hold possession of the City Government after their terms Contracts for longer periods and longer of office have expired by due operation of law, let them do so. In the expressive slang of the day, "they pays their money and they takes their choice." The aforesaid pains and penal ties are certainly heavy, and were doubtless intended so to be, too heavy indeed to be borne; that is to say, fine of two thousand dollars and toprisonment for two years to the l'eni

THE DOMINANT SOUTH.

The St. Louis Republican says the Cincinnati Gazette's Washington correspondent, seconded by the Gazette itself, is attempting to startle the North with a new alarm about a scheme of the ex Confederates in the next Congress. According to this correspondent, the scheme is openly avowed : "The South intends to control the organization of the next House and has votes enough to do it. No border State that failed the Confederacy in the war should be recognized in that organization The real South, the forts of the reformers to restrict and old South would hold the balance of power and the representatives of 'puke States' would be made to stand aside "-the " puke States " referred to being Maryland, Kentucky and

A little reflection, as the Augusta Chronicle and Sentinel well says, will demonstrate the absurdity of this story. There will be in the next House 55 Democrats from the Southern States and 101 from the Northern and Border States ; and to say that the Government, which could hardly get 55 can control the 101 is like sayalong now without the tobacco reve- lug that the tail can wag the dog nue. Another outrage upon the colored people of Mississippi, A negro has been seized and deprived of his liberty, and consequently of his right to vote, merely because he had attempted to wreck a railway train by placing obstructions on the track. The railway company should at once be proclaimed banditti. Has it come to this, that a peaceable and orderly colored man cannot place a few trifling obstructions upon a railway track without incurring perseen ion and violence? This is the result of perm tting white Mississippians to form treasonable organizations under the transparent guise of railway companies. So says the New York World,

SPENCER, the carpet-bag Scoator from Alabama, anticipating doubtless, a warm time in the State of his adoption the summer, evidently longs for cooler enmes and higher tationdes.

His proposition now is to raise a Congressional Committee to proceed to Alaska during the receas and investigate the seal fisheries. Not a bad idea that for a carpet-bagger, as the Government will foot the bdi!

SPESC R, we believe, is the hero of little joke that Fornest perpetented during the war. It is said that Fornest, being about to storm some place, sout word that all the pon-combatants would be given time to withdraw, that is to say the old men, the women and the shidnes and opencer's curulty.

SENATOR RANSON.

The compliments to this gentleman come pouring in from the press of the country, A private Washington letter to the Editor of the Charlotte Observer | FRON THE DATE AUCTIONERRS AR | Put up in Rolls of tin foil and already cooked says Gen. Ramsom's late effort cotributed more toward defeating the seating of Pinchback than all the others put together. The New York World says; "Mr. Ransom of North Carolina, made a speech on the general South ern situation which is commended warmly by all hands. It was an eloquent appeal for peace in the South, for harmony in the country, and for the burying of sectional hate and bitterness. It evidently made a deep impression on the Senate, as it certainly did on the galleries."
