NEWPORT, March 6—Night—Gover-nor Howard presented a report of Chief Constable Northrop to the Senate yesterday afternoon, relative to the official interference of U. S. Marshal Coggeshall, at the recent seigure of liquors which were under the protection of the State. His speech has, it is said, caused a profound sensation throughout the State. The following

is the substance of the speech:
In the collision between officers of the State and the United States, I was called on by a member of the constab DEFEAT OF THE LEWIS RIDER ulary force and informed of an existing difficulty and was asked to inter-fere in the matter. It seemed to me, on an examination of the facts, that although there was no doubt in my own mind that I might direct a portion of the military establishment of the State to sustain the State officers bly send to the Senate on Monday.

The nominations are about equally divided between the regular and volunteer officers, though there is another statement that but two regular officers are included in the list. The names are inaccessible. There are two hundred applicants for the places.

The Lewis rider to the river and below the State to sustain the State officers of the law, yet prudence required that the question might better be decided by a court than by an intervention of the military; besides I was reluctant to bring the military in antagonism with the police of the city of Providence. Therefore I directed the constant to bring the military in antagonism with the police of the city of Providence. Therefore I directed the constant to bring the military in antagonism with the police of the city of Providence. The Lewis rider to the river and seize the liquor there held by the U. harbor bill was defeated in the Senate S. Marshal and Chief of the Police. by the absence of Gordon, of Georgia, and Hitchcock, of Nebraska. General Gordon, who entered the Senate almost immediately after the vote, made earnest and persistent efforts for a motion to reconsider.

S. Marshal and Unief of the Police. As a result this has been placarded as a victory on the part of the U.S. Marshal and his Deputy. It seems proper that I should therefore say that the pusi-lanimity, if any, is mine rather than that of the State constabulary and the been a tie, when the Vice-President would have voted aye, carrying the measure. Both Allen and Gordon appealed to Morgan Hamilton, of Texas, for a reconsideration, but he was immovable.

riotism. It may be improper for this honorable body to consider such menaces so long as they are menaces, but now that the issue is directly forced, I think it ought to receive your attention. Your presence here, Senators, is a mocking farce if such proceedings as these are sustained by the Federal government. Your honorable judiciary and creating the sustained by the rederal government. ary and executive may as well resign their offices and leave the control and direction of the State affairs to the subordinates of the United States government. No graver question has been forced upon the State since its first settlement. It is a vital question, for in it is involved the sovereignty of the State and the harmonions rela argument on this question. The mat-

of the State with the United States. The little State of Bhode Island is entitled on such points to an equal respect as the larger States, or the general government itself. I make no ter is in the hands of the General Assembly, and I am confident it will be adjusted in such a manner as to viudi-cate the honer of the State and maintain the integrity of the laws. I have not the slightest doubt that the au-thorities at Washington, when this matter is properly communicated to them, will promptly and emphatically condemn and repudiate the proceed ings of the Marshal in the premises.

VIRGINIA.

COUNTER IRRITANT FOR CIVIL RIGHTS.

RICHMOND, March 6—Night—Mr. Gilmore, of Richmond City, to-day introduced a bill in the House of Delegates to punish disturbances in hotels and theatres, and other places of amusement. It provides that persons who create disturbrnees in hotels by boisterous demands for accommodations after the proprietor or his agent has declined to entertain for want of room, or other reasonable specified causes, shall be punished by fine or imprisonment. In the case of theatres managers are to have the right to issue reserved tickets stamped not transferable, and when the party is not the original purchaser and demands admittance the door-keeper can refuse him but the proceeds of the ticket must be refunded, and if he refuses to take the money and thereby ticket must be refunded, and if he re-fuses to take the money and thereby causes a disturbance, he shall be ar-rested and fined in both cases; half of the fine goes to the hotel-keeper or manager, as the case may be. There are similar provisions regarding steam-boats and railroads. The bill is re-garded as an entitle? to the Civil Rights bill.
