LOUISIANA.

DECISION OF THE AWARDING COMMITTEE.

New York, March 16-Noon-As most of the papers submitted to the Lonisiana Committee had been thoroughly examined on Friday and Saturday and the claims of the contestants nearly all decided, the business of the members yesterday morning consisted chiefly in preparing their report. The session was strictly

private.

At the close of the session Mr.

Wheeler informed the representatives of the press that the Committee had cosed their investigation and made the awards. In the cases of nineteen representative whose claims were submitted to their arbitration, from all evidences which had come into its possession, as well as during the previous investigation, as from an examinstion of the election record, he said the members of the Committee had mously agreed in their awards, but for reasons which the public would appreciate it had been decided not to make the result of their deliberations known at present. He said forwarded at once to the Governor with the duplicate returns of the election and that a special session of the House of Representatives would be convened for the purpose of taking action in the matter. He could not soon this would be effected but he hoped that the decision at which they had arrived would be approved. It had been agreed upon after the most careful examination into the facts of each particular case and was based upon the important judgment of the members of the Arbitrating Committee. He said that he regretted very much that he could not furnish any particulars to the press as the circumstances of case rendered it necessary that the award should not be made public until the Lower House of the Louisiana Legislature should be prepared to take final action in the matter. It rested entirely with that body to confirm the compromise which

had been agreed upon.

It is understood that Mr. Wheeler will present a report to the House of Representatives when the special session is convened for that purpose, although nothing of definite character could be ascertained from the members of the Arbitration Committee. It seems to be generally understood by the council in the case that the Con-ser atives will gain a number of seats

through the compromise.

It has transpired that the result of the Arbitration will give the Conservatives the Lower House, but will retain a small Republican majority on joint ballot, which, should Pinchback be rejected, will make a heavier contest over the Senatorship.

EUROPE.

DEATH OF A WATERLOO VETess,upue ERAN,

CABREBA ABANDONS CARLOS.

THE POPE'S ADDRESS London, March 16.—Noon—Field Marshal Sir William Mayard Gomm,

Colonel of the Colored Stream Guards and Constable of the Tower, died yesterday, ag d 91 years. He was Quartermaster-General at Waterloo and Commander in Chief of India in 1850. Panes March 16.—Noon—The Universe reports that Gen. Cabrera has abandoned the cause of Don Carlos and has mide a convention with Alfonso, and the Carlists now denounce him as a traitor.

Rose, March 16-Noon-At the consistory yesterday morning Ledochowski, McCloskey, Deschamps, Glannelli and Bartoline were created Cardinals, Philadelphia, Boston and Milwaukee were raised to Metropolitan sees and Bishops will be appointed for Wheeling, Portland, Hartford and Kingston in an allocation by the Pope, The Pope said: Recognizing in the

past our care in these sad times to increase your noble order of distinguished men to assist in the protection of the Universal Church, and having determined to discharge this duty we wished to perform it according to soleme and ancient rites, as the dignity of the Church demands, but the times are opposed to our intentions.

The oppression which we suffer is such that we have not even the free-dom of bewailing the afflictions of the Church. No wonder that those differing from the Church by hereditary errors hate the Church and strive to attain this end. Unfortunately, in Italy, where the Sapreme Cathedral of Truth was placed by Divine dispensation, children of the faith have become one

mies of the Church and plot for its destruction, grieving our heart. Hence have come the deplorable injuries to the liberties, the possessions and the ministers of the Church, which we witness, powerless to resist. Hence have come the greatest evils to the souls of men and to human society in the corruption of youth which will propogate the existing evils to future generations. The educational institutions have been withdrawn from the watchfulness of the church, and in youth, which should be the seed time of virtue, vices are rooted in schools subject to the civil powers. There is e u ation without faith, without re-ligion, according to baleful worldly wisdom. The education of the priesthood even is hampered by arbitrary rule so that it is difficult to regulate the course of their studies. The army conscription laws take effect in the ranks of the clergy; inferior clerico are encouraged continuaciously to resist their bishops. The publication of our discourses is punished by the civil powers. Penal laws are enacted against publishing acts of the Apostolic See. The voice of the Supreme Master, the teacher of truth, is silenced, and the rights of the silenced, and the rights of the faithful people are violated. Let those who subject the Church to slavery bear in mind that they invoke upon themselves the Divine wrath, a arder muster, and a heavier tyranny. Lately, in a foreign country, writings were divalged distorting the Vatician deerces; the object was to effect the violation of the liberty of your Senate in the selection of our successor, by threats of civil interference. These acts point exclusively at our ecclesiastical competence, but the merciful God ruling the church providentially ordained the firm admirable bishops of the German Empire who refuted in their noble declaration the erroneous doctrines. We give the fullest praise before the Catholic world to the said Bishops. We approve their declaraworthy of the virtue, dignity and religion of the Bishops. We confirm them in the r apostolic authority, praying the Divine elemency to designate the designs of our enemies and to end these evil days. Remembering that no wisdom or prudence can prevail against the Lord, let us offer sacrifice in humility and fervent prayer. Our God is just and merciful—severe against those who persist in their evil ways and merciful to those who are converted to him; therefore let us turn our hearts in contrition to him, praying for consolation and deliverance. He is powerful to defend us from our enemies, preparing us for a hereafter of eternal joys. Gregory the Great says that 'in these tribulations a greater struggle, greater co-operation, and greater valor in battle are required of the leaders." We are resolved, venerable brothers, to add to the senate of the Holy Roman Church for the glory of God and the vitality of the Church, six more distin-

guished men whose names are known to you, who have shown themselves worthy of high honor by the discharge of the Episcopal functions with zeal, fortitude, prudence and learning, or by bearing cruel persecution with courage and constancy. We intend to create five other Cardinals. II, in the dispensation of God, this Holy See should become vacant before their names are divulged, they will be de-clared in a codical attached to our wills, we decree by apostolic anthority that they may have the right of an active or passive participation in the act of choosing our successor. The five Cardinals desired in petto are as follows: Monsigners Pasca Viteles-

TOWN DESTROYED BY AN EARTHQUAKE:

New York, March 16-Noon, -A Gaudalajana, Mexico, letterof the 12th, contains an account of an earthquake of more than usual force which on the 11th of February shook a large por tion of northern Mexico. The little town of San Cristobal was almost en tirely destroyed and seventy dead bodies were taken from the ruins. The centre of this disturbance appears to have been the volcano of Ceboruco The earthquake occurred at night and the terror of the people was increased by the darkness.

At Havana the Insurgents burned the Santa Rosa plantation with five hundred hogsheads of sugar and the adjoining sugar fields, also the Dolores and Refonus plantations. These estates are in the jurisdiction of Rom-
