dobnson's Anotyne Liniment is, without doubt, the safess, surest, and best remedy that he ever been invented for internal and external use. It is applicable to a great variety o complaints, and is equally beneficial for man or heast.

We have seen it stated in various papers throughout the country that Agents for the sale of Sheridan's Cavalry Condition Powders were authorized to refund the money to any powen who should use them and not be satisfied with the result. We doubted this at first but the proprietors authorize us to say that i, is true.

A Tonte of Rare Merit.

There are many tonics, but few indeed which produce any other offset than artificial stimulation of the appetite. This, so far from being a benefit, is a positive detriment, if the digestive organs are weak, because it induces the patient to eat more than the semi-paralyzed stomach can act upon, and thus aggravates indigestion. There is, however, a tonic which possesses the rare merit of imparting both vigor and regularity to the operations of nutrition. Ho tetter's Stomach Bitters proyoke a wholesome appetite, because they enable the stomach to dispose of what it receives with such healthrul rapidity that at the proper time for meals it is not torpid from indigested matter, but craves its timely sustenance. It is the very fact that it facilitates digestion that renders the national stomachie such at powerful coadjutor of nature in instituting those recaperative processes which result in the recovory of the g.neral health. Uninterrupted, vigorous action or the physical machinery inwi'ably results from the use of this supreme invigorant and alterative.

Many who are suffering from the effects of the warm weather and are debilitated, are adised by physicians to take moderate amounts of whicky two or three times during the day .-In a little while those who a opt this advice requently increase the number of " drinks," and in time become confirmed inebriates A beverage which will not create thirst for intoalesting liquors, and which'is intended especially for the benefit of deblitated persons, whether at home or sbroad, is Dr. Schenck's Sea Weed Toric. Containing the Juices o many medicinal herbs, this preparation does not create an appetite for the intextee 'q cup The nourishing and the life-supporting properties of many valuable natural productions conties of many valuable natural productions contained in it and well known to medical men have a most strengthening influence. A single buttle of the Tonlo will demonstrate its valuable qualities. For debility arising from sickness, over exertion or from any cause whatever a wineglassful of Sea Weed Tonic taken a'ter meals will strengthen the stomach and create an appetite for wholesome food. To ell who are about leaving their homes, we desire to say that the excellent effects of Dr. Schouck's seasonable remedies, Sea Weed Tonic, and Mandrake Pills, are particularly evident when taken by those who are injuriously affected by a change of water and diet. No person should leave home without taking a supply of these safeguards along. For sale by all Druggists.

### GUANO. CENUINE

Last year I sold Genoine Peruvian Guano a the same price charged by Messrs. Hobson Hurtado & Co., the General Agents of the Peruvian Government in this country, adding a very smail comment in this country, adding a very smail comment as a compensation for my services; and I am happy to say that all those who bought, acknowledge that it gave entire satisfaction. This year, owing to the more liberal discount allowed the purchasers of large quantities, in an enabled to sell not only at the same price without commission, in lots of 1 to 5 tons, but even cheaper when in larger quantities, as I buy enough to obtain the largest discount, which I propose to divide with my customers in proportion to their orders; whereas, the General Agents are obliged to maintain a fixed scale of prices and discounts. Therefore, parties in want of smail quantities will find it economical to club to gether and buy in lots of ten tons or more, on which there is a saving both in price and cartage. I hear of some buyers of fifty tons and anywards, who still go to the General Agents instead of calcing on me, losing money thereby. To those I say, if you doubt the genuineness of the Guano soft by me, I will give to y u, or to your representative here, my orders on the Government Stores, which will be conclusive evidence that the Guano is the same as that sold by the General Agents, and tall particulars, mailed free on application to R.
