CRAZY HORSE AND BLACK TWIN TO GO TO WASHINGTON.

CLOSING OF GOV. BARD'S ACCOUNTS FAVORABLE.

MAIL ROUTE BROKERS.

WASHINGTON, April 14.—Night—Commissary Smith has received a telegram from Indian Agent Saville, of the Red Cloud Agency, saying that messengers have been dispatched for Crazy Horse and Black Twin, to induce them to come to Washington with the Sioux delegation, which expects to reach Cheyenne, en route about May 1st.

It is said that Gen. Shieras, who died to-day, will be succeeded, as Commissary General, by Col. Amos Beckwith, one of the Assistant Commissary Generals.

Lesander C. Dyer, of Tennessee, has been appointed Consul at Odessa, Russia.

Enquiry at the Postoffice Department shows that in the adjustment of Governor Bard's accounts, as Postmaster at Atlanta, involving the disbursement of some \$30,000, and closing his account, there is a balance of \$23 cents in his favor.

The Postoffice Department has information that parties who have secured contracts for a large number of mail routes in Western States are systematically offering to sublet them, thereby assuming in effect the position of mail route brokers. One party in Kansas has sent out postal cards inviting bids for sub-letting specific routes, and stating in a printed post-script that he has sixty-five routes to dispose of, and will send catalogues on application.

EXTRACT FROM THE TESTIMONY OF REV. HENRY WARD BEECHER ON CROSS EXAMINATION.

New York, April 14.—Night—Mr. Beecher, on cross-examination, said: "I found Mrs. Tilton in bed in the left-hand room, front. I informed her of the charges her husband made against me. She was dressed in white. I do not know whether she had retired for the night. She was ill, and I suppose had retired for the night, being confined to her bed. I said I had just come from an interview with her husband, and he had made serious charges against me. When I said he charged me with alienating her affections from him she showed responsiveness; she shed tears, which fell down her cheeks, and by the movement of her hands, and by the movement of her head, I also said he charged me with causing distress and discomfort in his family, and asked if this was so; she made no response. I said he told me you had transferred your wife affection to me; she made no response, and her tears continued falling down her cheeks. When I told her of the improper advance, and asked her if she had told him so, she bowed her head. I expostulated with her, and said you know this is not true. I said her on these charges, and asked her how she could have done such a thing. She said: 'I could not help it; I was tired out with his persistence; he importuned and pursued me.' She then spoke of an interview in July she had with him when he said if she confessed her alien lovers to him and he confessed his, they would get along better and all would be again harmony. She asked me what she could do. I said she ought to write a retraction of those charges. She said it might be used against her husband, and I said it would not; that I would only use it for my justification if this charge should be used against me in a Court, or if there was any trouble about it, thereafter making no promise not to use it in injuring her husband. I, at her request, wrote her, ink and paper, and she wrote. After some conversation, not pertaining to this matter, I left. When I went in she was as one dead."

ELECTRICISMS.

One-foot of snow throughout New York on Tuesday. Trains a little behind. Snow with the severest north-wester of the season prevailed all day throughout New England. It ceased snowing at two o'clock yesterday morning.

At Highland, Pennsylvania, the picket-guard fired four times Monday night at men trying to break through the lines. It is said that two men were shot and severely wounded.

The Democrats have elected a majority of the aldermen and directors of education, and chosen freetholders, at Jersey City.

The dead body of Daniel Akew with three bullet holes in his head was found near the residence of the James brothers, at Kearney, Mo. It is supposed that these outlaws have committed another murder. The sheriff is in pursuit with a posse.

Gen. A. E. Shieras, Commissary General of Subsistence, is dead, aged 74 years.

The Democrats have carried the city of Albany, N. J., by a majority of four hundred. The reports from the cities in that county indicate a large majority in the board of commissioners.

Commander Leroy Fitch, of the navy is dead.

The Republicans were generally successful in elections at New Brunswick and Rahway, N. J., yesterday.

Later—At Rahway the whole Democratic ticket was elected.

LOUISIANA.

MEETING OF THE LEGISLATURE.

KELLOGG'S MESSAGE.

New Orleans, April 14.—Night—The Legislature met at noon to-day. It was one of the most orderly meetings known for many years. Conservative members were sworn in and a resolution was adopted in the House referring the claims of those included in the award to the Committee on Elections, which will report to-morrow. Both parties seem to accept the award without opposition, making the compromise a success.

Kellogg's message to the Legislature was an elaborate one, and the following are some of the principal points: The occasion of this extraordinary session marks a new and important chapter in the history of our State. This history of Louisiana, since its incorporation into the Union as summarized in the message of successive Governors from Gov. Claiborne to the recent times, has been unhappily pro-duced by the antagonisms and sectional jealousies and disorders, though second to no State in natural advantages of climate, soil and products, it has fallen far behind other less favored States in development of its resources and in the cultivation of that homogeneity of feeling and interest, without which no community can be permanently prosperous. The causes of this lack of progress and unity in the past have been varied as the title that have resulted. Some are beneath the pale of legislation. They can only be remedied by the action of time in removing the present prejudices and easing the memory of the past traditions; others are the result of the peculiar character of the population of the State and the prevailing diversities of race, religion and language; others again, and these by no means the least considerable, have sprung from the improvident and oppressive Legislatures of late years, including that of 1865 and 1867, which have managed to subordinate the material interests of the State to the enforcement of partisan purposes and the pecuniary aggrandizement of individuals. It would serve no good purpose to review in detail the events of our recent history.

The unfortunate past, with whatever mistakes and wrongs may have been committed on either side, is before you. The consequences of these mistakes and wrongs, more eloquent than any language I can use, are also before you. It is your privilege to correct, remedy, or at least alleviate them; and, more important still, to offer guarantees that such events shall not again occur. After a political course, the benefits and bitterness of which have been unparelleled, a policy, which I trust, will afford an immediate and satisfactory solution of the difficulties that have beset us for years and entailed misfortune and distress upon the people. It is a most hopeful sign in my opinion when, as now, citizens of all political parties seem inclined to take the management of this affair into their own hands, and seeking party aims, unite to advance the general good.

Regarding the State revenues and their collection and disbursement the Governor expresses the opinion that the present system is too cumbersome and expensive, and unjust, and should be radically changed. The Governor then details the changes desired and gives a resume of the State finances, which shows a reduction in the State debt of \$3,063,926 since 1873.

The Governor vetoed the new city charter bill of New Orleans, stating that he did so out of request of a Committee of the Merchants' Exchange, the Cotton Exchange, and the Chamber of Commerce, who were preparing city measures themselves. He also vetoed an act legalizing a large amount of indebtedness constituted by the State charitable institutions. Also an act authorizing the payment of Points Coupes to issue bonds, on the ground that such an act would encourage extravagance and increase the parish debt. Also an act depriving the Democratic sheriff of his fees, on the ground that the reductions made in the payment for feeding prisoners were excessive, and would work public injury.

People who Have

Out their wise teeth, use the **BOZDONT**, and all who do are willing to declare to all who don't use it, that it is the most perfect and delightful thing for the teeth they ever dipped a brush into.

We have seen it stated in various papers throughout the country that Agents for the sale of Sheridan's Cavalry Condition Powders were authorized to refund the money to any person who should use them and not be satisfied with the result. We doubted this at first, but the proprietors authorize us to say that it is true.

Many who are suffering from the effects of the warm weather and a debilitated, are advised by physicians to take moderate amounts of whisky two or three times during the day—in a little while these who accept this advice frequently increase the number of "drinks," and in time become confirmed libertines. A beverage which will not create thirst for intoxicating liquors, and which is intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenck's Sea-Weed Tonic. Containing the juices of many medicinal herbs, this preparation does not create an appetite for the intoxicating cup. The containing and life-sustaining properties of many valuable natural products combined in it, and well known to medical men, have a most surprising influence. A single bottle of the Tonic will demonstrate its valuable qualities. For debility arising from sickness, over exertion, or from any cause whatever, a single bottle of Sea-Weed Tonic taken for a month will strengthen the stomach, and create an appetite for wholesome food. To all who are about leaving their homes, we desire to say that the excellent effects of Dr. Schenck's reasonable remedies, Sea-Weed Tonic, and Mandrake Pills, are particularly evident when taken by those who are injuriously affected by a change of water and diet. No person should leave home without taking a supply of these safeguards along. For sale by all Druggists.
