THE LONDON PRESS ON GLAD-STONE'S LETTER AND AMERI-CAN POLITICS.

LONDON, May 5-Noou-The Standard severely criticizes the letter from Mr. Gladstone, which was read at the Centennial celebration of the battle of Lexington. It remarks that the habit of toadying to Americans is discreditable in English men and journalism. The resu ts of the republican experiment in the United States are corruption of public life extinction of publications. tion of public life, extinction of pub-lic spirit, opposition of minority, dis-gust of the honorable men with policical life and the transfer of the government into the hands of corrupt, unscrupulous and ignorant m n. The Times fully endorses Gladstone's letter, and says it would be mellanchory if the first great attempt to complete inde-pendence should result in social an archy, although there is nothing at present to justily sadd fears. Grave evils exist in some American institutions which must be remided if progress is to be kept up. REPORT ON THE CANAL FRAUDS.

ALBANY, May 5-Night-The report of the Joint Committee of the Legislature, in relation to the canal frauds and investigation, reports that the system of letting and prosecuting contracts for canal work is full of grave defects, giving opportunities for numerous and varied deceptions and frauds; opportunities that designing men have no hesitation of embracing. In the brief time allotted, it would not probably be possible to make even a catalogue in detail of frauds, which the testimony indicates in addition to those which it seems to conclusively
