# OHIO DEMOCRACY.

SENATOR THURMAN'S POSI-TION.

ed only as local opinion. An unjust charge on this account, is that the Democratic party, as a national organ-ization, is animated by spirit inflata-tion and inflatationists in both political parties, and it is true that there are serious errors inserted in the platform. I did my best to avoid threatened evil, but because others disagreed with me, I see no reason why I should bolster up the Republican party. Errors committed in Oh o can be corrected, and they need not be excused for greater ones. The Republican party of Ohio is also divided on the currency question. The financial plank of their platform can be construed to mean, either hard or soft money. Replying to the charge that he evinced lack of moral courage for not dishonoring the inflation plank of the Columbus platform at a ratifica-tion meeting, he said the place and time were not opportune. It is great injustice to condemn one for opinions never uttered. I have said or done nothing to warrant charges brought against me. My record in the Senate is before the country, and on that record I yet stand. I am to make my first speech of compain at Mansfield July 31, and shall then announce my disagreement with the fluancial provis-ions of the platform, and throughout the campaign I shall say nothing to discredit the convictions of a life time.

# HEADQUARTERS.

WASHINGTON ITEMS.

Washington, July 19.—Captain Eads was recently in Washington on business connected with the jetties which he is conducting at the nouth of the Mississippi river. He says he has now four hundred men employed and has projected the work towards the deep water to the extent of over three thousand feet. The water is about eight feet in depth over most of the agansett collided at Vineyard, Haven. distance so far reached. The improvement 18 ninety-two hundred feet a day. The force will soon be increased. Captaiu Eads calls what is now being built provisional work which is to be strengthened and materially changed as the work progresses. It now seems as a barrier from mud and water. He expects in one year to reach water deep enough for the largest vessel. He left for New York last night.

WASHINGTON, July 19. — Secretary Bristow and the Attorney-General Pierrepont returns to-morrow. Robeson is here.

Star has good suthority for saying that Judge Fisher will remain District

Judge. William Burnett, supervising Inspector-General of Steam vessels, and supervising-inspectors A. Lowe, of New York, and W. R. Rodgus, of New Orleans, will, on the 14th of September, commence a series of experiments with safety valves at the Washington

Navy yard. Professor Barnard of Columbia, College, New York, has been appointed chairman of the experimental steam-

boiler commission.

The Presidents and commanders or tke various Catholic Benevolent Societies, of the District of Columbia, have called a Convention for Friday evening to make arrangements for celebrating the Centennial of Daniel O'Connell.

The Postmaster-General has reques ted the Attorney-General to designate a council to attend to the application pending in the United States criminal court in New York for a mandamus, and to compel the postmaster at New York to receive a book package by mail transmission to Philadelphia at the old rates. The Postmaster-General says he knows but little of the merits of the case, further than that the postmaster was acting in the line of his duty in accordance with the law. Judge Spence, assistant Attorney-General for the Post office Department, states that there may be some plausible ground for the position taken by the plaintiff in this case, but that a decision in favor of the mandamus would greatly confuse the service, as there were several important amend. ments in the law which originated in the Senate. Among them the new law concerning the postage on newspapers &c., sent from the office of publication, all of which would be thrown back upon the old law if the mandamus should be granted.

# YELLOW FEVER.

DEATHS AT KEY WEST-NONE

AT NORFOLK. New York, July 19.—A Key West letter, of July 9, says: "Among the most prominent persons who have died here of yellow fever are Mr. Allen Teleigh, operator, Mrs. Townsend, wife of Deputy Collector of Customs, Mr. VanBuren, Melhourst Clergyman, Mr. Stagan, eigar manufacturer, Mr. Achinuck, chief engineer revenue cutter Seward, Mr. Palhemus, second engineer revenue cutter Seward, Mr. Jourdan, At the light house, with many others. At Norfolk, the Board of Health make the following statement: "A rumor that yellow fever existed in this city, originated in Washington, and was published in the Washington Journal of the 17th instant, as a dispatch. It is utterly without founda-

tion; nor is it believed that a naval medical officer at this station made any such statement as that mentioned in the Journal of said date. There is no case of yellow fever here, nor has there been in this city or at Quarantine Station this season."

This statement is made by order of the Board of Health, [Signed] JNO. B. WHITEHEAD,
