SOUTH CAROLINA.

ESCAPE OF THE RADICAL THIEF PARKER, FROM COLUMBIA JAIL.

CHARLESTON, S. C. August 5.—Ex-Treasurer Parker, against whom a verdict of seventy-five thousand dollars was recently rendered in a suit growing out of his official frauds and embezzlements, and who was in prison awaiting criminal prosecution for similar offences, escaped from Columbia jail at a late hour last night, and is making his way to the north.

THE FLOOD.

OKLAHOMA, August 5.—A dispatch from Tulsa says that the Washita river is steadily falling, and that the railroads began transferring passengers and mails can get through tomorrow at Seymour. The Ohio and Mississippi bridges are gone and several wash-outs on that road besides. The city appeared to be the center of the storm, spreading about one hundred miles in each direction. The total damage to railroads, crops and private property in this Congressional district, is estimated at ten millions dollars.

The water is invading cellars on Broadway, Sycamore, Maine, Walnut and Union streets, and up as far as Second.

WASHINGTON, August 5.—The Mississippi river is eight inches above danger line at Helena, and has risen one inch at Memphis, two inches at Vicksburg and nine inches at Cairo, and has fallen seven inches at St. Louis.

THE EAST.

ANOTHER ASSAULT ON FOREIGNERS IN PEKIN.

SAN FRANCISCO, August 6.—The arrival of the steamer City of Peking, at Hong Kong July 10th and Yokohama on the 18th, it was reported that there had been renewed assaults made upon foreigners in Peking, the assault was made on an attaché of German legation while on a scientific expedition with some companions forty miles from the capital, who were severely beaten and robbed of valuable astronomical instruments. Negotiations between Japan and Korea assumed a less friendly character than before, many Japanese officials have been recalled from that country, and rumors of impending war is prevalent, but thus far there has been no decision by the Japanese government.

ELECTRICIANS.

Arch Bunkles spice mills at New York burned, loss \$40,000. Yacht "Glenora" recently seized on suspicion of being a Cuban filibuster, sailed for Annapolis. A special dispatch from Cheyenne states that the Indian fraud Commissioners find a difficulty there in getting any one to testify relative to Indian service. Those having facts are interested in trade. The committee started to Fort Laramie on the second. The second sale of new cotton was received yesterday at Montgomery. The first sale sold at 20 cents per pound, weighing 440.

EUROPE.

THE O'CONNELL CENTENARY.

HOW THE GLORIOUS COUNTESS'S MEMORY IS REVERSED IN DUBLIN.

LONDON, August 5.—Marie Smart won Brighton cup, Louise Victoria second and Kaiser the third. A Berlin special says, the Turks are collecting a large force to crush Herzegovina with one blow. Ten thousand strangers arrived in Dublin yesterday, to attend the O'Connell centenary. The officers of the Union Bank say no arrangements have been made with that institution for the redemption of Duncan-Sherman & Co's. letters of credit in the hands of travelers, negotiations, therefore, have not been completed, and the longer they are postponed, the less probability of a successful result. Letters remain here from American friends, who say that over one thousand holders of suspended firm letters of credit have been heard from in Germany alone. Many of them are utterly destitute of funds and have been compelled to apply to local authorities or to the American consuls for relief. One lady, a teacher of Massachusetts had but thirty francs in money when she heard of the failure. The American and English people where she had been staying, subscribed sufficient funds to pay her expenses to Hamburg, from which place she took the passage home. A document stating these facts, and denouncing the house is preparing for publication.

DUBLIN, July 6.—The celebration of the one hundredth birthday of O'Connell commences to-day and continues three days. This morning solemn religious ceremonial services were held in the Cathedral. Cardinal Manning officiated this afternoon. The oratorio of Elijah will be sung in Exhibition Palace in the evening concert. Irish music in the same place where the Centenary ode will be recited. The houses are decorated with banners, garlands, notions, and a great display of green following. The members of Parliament present are Messrs. Deane, McCarty, Arthur, John Moore, Keays, O'Leary, Myler, William O'Reilly and Patrick James Smyth.

Distinguished guests who have arrived to participate in the celebration are the Bishops of Beale and Nantes, Prince Edward, Radseavill, of Posen. The illness in the family of Lord O'Hagan may prevent him from delivering the Centenary oration to-morrow on St. Patrick's street, in which case it will be published and distributed.

Dr. Croke, the new Archbishop of Cashel, preached at the religious ceremonial in Cathedral this morning on O'Connell, the Liberator. Four Archbishops, forty bishops, and five hundred priests participated in the ceremonies, which were very impressive.

The Cathedral was densely crowded. The music arranged for the occasion was magnificent.

Knabe Pianos.

THEIR Pianos circulate not only in America, Canada and South America, but also in Europe; their name having been carried there by the great pianists who have visited this country. Wherever they have been exhibited they have invariably carried away the gold medals over all competitors. The first European and resident pianists have thoroughly tried and tested their various styles of instruments, and have voluntarily accorded them their unequalled approbation, and have given to the firm the most valuable certificates of their opinion.

NEWSPAPER DIRECTORY

Our Living and Our Dead

Prospectus of 2nd Volume.

NEWSPAPER, N. C., August 10, 1875.

"Our Living and Our Dead" will hereafter be published as a Semi-Monthly Magazine, containing 48 pages of reading matter, at \$3 per year in advance.

For the information of those who are not familiar with this enterprise, I state that the object of the Magazine will be to publish the record that North Carolina and her gallant soldiers made in the late war between the States, to gather the material for the use of the future historian, and to perpetuate the memory of those brave men, officers and privates, living or dead, who shed imperishable glory upon their native State.

In addition to the WAR RECORD of North Carolina, the Magazine will contain sketches of every section, county, city and town of the State, written by competent and well-informed persons, thus making it a most important periodical, in which all classes of our citizens should take interest and pride.

The Magazine will take the place of the newspaper, having same title, published by me during the past twelve months. The first number will be published Wednesday, September 9th, 1875. In the meantime, I respectfully ask old subscribers who desire to receive their subscription, and all others who wish the Magazine, to remit promptly, as the change and improvement require considerable outlay, and ready money is needed.

Address, till further notice, JOHN LIVING AND OUR DEAD, NEWSPAPER, N. C., or Raleigh, North Carolina. Exchange will please copy.

APPLETON'S

AMERICAN CYCLOPEDIA.

New Revised Edition.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with several thousand Engravings and Maps.

THE work originally published under the title of THE NEW AMERICAN CYCLOPEDIA was completed in 1864, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every department of science, literature, and general knowledge, have rendered it necessary to revise and re-issue the work in its present form.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorations of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars.

Large accessions to our geographical knowledge have been made by the indefatigable explorations of Africa.
