EDITGRIAL NOTES.

Mrs. Sadie E. Martin, candidate for Superinten lent of Schools in Bremer county, lows, has taken the stump, and is making a regular convass of the county. They say she makes an effective speech.

In view of Amea' agreement, the the New York and Pennsylvania elecheart."

A GENTLEMAN on familiar terms with the President, in the course of conversation a few days ago, said "Mark my words. General Grant wil some means or other, before the end of next spring, be before the country as a Presidential candidate on a hard money and non-sectarian school platform, and the Republican Convention will be compelled to take him up.

THE New Orleans Times says; "From a private dispatch, which is believed to be reliable, we learn that the President will immediately notify the Spanish Government that, in case the war in Cuba is not brought to a termination by the first of January, 1876. the belligerency of the Caban republie will be formerly recognized."

after his defeat. He thinks the Republican party will be responsible for the financial situation during the pext two years, and says: If the Republicans can accomplish a restoration of prosperity they are benefactors, and every statesman in the country, of whatever party, will give them credit for it. If they fail to carry out their contract the people may be depended on to find them out, and to settle with them according to their deserts.

MR. SCHRORDER'S air ship, almost ready at Baltimore for its trial trip, has arranged a time table thus:-to Washington, thirty-five miles, in eighteen minutes; to New York, two hundred miles, in one hour and forty mindred miles, in forty hours. Let us hope the telegraphic addendum may not be; "To 'tarnal smash in five seconds."

THE Supreme Court of the United States, on the next decision day, will probably render its opinion on the constitutionality of the enforcement act of 1870, which Congress passed to protect the colored voters in the South, and under the 6th section of which numerous arrests and imprisonments have been made. The case before the court is known as the Grant (Louisiana) parish cases, where some eighty persons were arrested for "conspiring, comcertain citizens of the United States of the exercise of the eclective franconvicted on several counts of the indietment, but on motion for arrest of judgment and on an appeal to the United States one on this.

THE AMENDED CONSTITUTION. We are sure that the Petersburg Inand would not willingly do acything to prejudice them before our people.
Still the carelessness in stating that one of the amendments provides: "No person who shall deay the being of God, or the truth of the Christian religion, or the divine authority of the Old and New Testament, or shall hold religious principles incompatible with the freedom or safety of the State, may do, although copied as it says, from one of the Virginia exchanges. RESILITARIES should be made by Postories Money Order or Express. If this can not be done, protection against losses by mail may be secured by forwarding a draft payable to the order of the proprietors at the JOUENAL, or by sending the money a registered letter.

No such amendment as the above was adopted or seriously considered by the Convention. A delegate proposed it, but it was never reported upon, we believe, by the Committee to which it was referred.

The people of North Carolins would not tolerate such bigotry in their fundamental law, and their delegates have not asked them to do so. And we refer to this matter only because the Index and Appeal has a large and infinential circulation in this State, and its publication is calculated to do harm. We ask our cotemporary to correct the error into which it has been led,

Out upon such 'cleverness' say we. We have more tolerance for your negro-loving Thorne and Tourges, than your "clever" Barringer and Buxton, who talked to please gullible Democrats, and voted on all occasions to keep their white brothers under the power of ignorant and brutal negroes.

Yes Democratic papers published in white counties, whose editors have never felt the oppression and burdens of negro governments, may compliment the twaddle of such men against the mington, offer special inducements to silver intermarriage of the races, and the abuse of power by the negroes, and in new trackes most at the mington, offer special inducements of silver than the second during the year abuse of power by the negroes, and the twaddle of such men against the praise them for voting against allowing felons to exercise the elective franchise. What benefit do the people of New Hanover and Craven and Halifax and Edgecombe derive fr m Gen. Barringer's reference to "the abuse of power by the negroes" in one speech, or his "warning to the colored people that all Government, civil, church, school, business and the industries, must be founded in the virtue and intelligence of those who direct and control", inanother speech if he deliberately votes to the negroes" in one speech, or his continue the abusive power of the negroes, and uses his influence to place and running back on its eastern line 97 feet, 8 all government under the direction and control of the vicious and ignoutes, to Liverpool, thirty-three hun- rant? How much have the people of these counties suffered and are still suffering from the power conferred upon negroes by General Barringer's consent and assistance.

The ostrich when pursued by the hunter, finding himself, in close quarters, sticks his head under the sands of the desert, imagining his huge body hid from view. So with your "clever" Republican; he talks gravely to the negroes of the "abuse of power," that 'virtue and intelligence must control.' and votes to disfranchise felons, and thus flatters himself that his real purposes are hid from view ; growing elo bining and confederating" to deprive quent over negro freedom, he hopes that his efforts to establish negro power will not be discovered.
