The Daily Journal,

CICERO W. HARRIS.

WILMINGTON, N. C.

SATURDAY MORNING, FEB. 24, 1877.

OREGON FOR HAYES.

As a matter of course the eight villains who have swindled Tilden out of his twelve votes in Florida and Louisiana recorded the needed three for him in Oregon like wise.

A greater piece of scoundrelism was never perpetrated than this counting in a defeated candidate. It is a shock to civilization.

The farce is here properly concluded, and it is only a mockery to go on with the count. Indeed, it was brought to a close when the Florida decision was announced.

HAYES' POLICY.

Congressman Foster, of Ohio, who is supposed to speak by the card for Mr. Hayes, has made a speech in the House outlining the policy of the on-coming Administration. It is a very pretty speech. If people could shut their eyes to facts they might even be pleased with the fine utterances of Mr. Foster. The Ohio member and "life long friend" of the Rogue President-to-be says that Mr. Hayes will, in his dealings with the South, sedulously cultivate an era of good feeling with this section. We are glad to hear it, and wish we could believe that he would do so in all sincerity. But Mr. Hayes and his party have not heretofore shown much of the milk of human kindness to our people, and we have learned not to expect anything at their hands. It is said that "blessed is he that expecteth nothing, for he shall not be disappointed."

But Mr. Foster says that the sentiments of his party are to undergo a change in toto. The Republicans are now to bind up the wounds they have made and pour oil graciously upon them. This is so soothing an anesthetic it puts us almost to sleep!

Ah, Foster, ah, Hayes! it is a witching little game you have started, but it will not succeed. The negroes are deserting you, and if they can't stand your principles we are sure we can't.

PENNSYLVANIA MUNICIPAL ELECTIONS.

There is encouragement in the result of the municipal elections in Pennsylvania on Tuesday. Altogether was carried by the Democrats. Gains were made at other places. In Philadelphia, over 127,000 votes were cast, the largest vote ever cast at a municipal election, and the majority for Stokley, Republican, for Mayor, was only 2,775 over Caven, independent, although Hayes's majority at the election in November was over 15,000. The "Times," Independent Republican, says: "Caven received 5,000 more honest legal votes than Stokley," and declares that the latter is returned elected by "unblushing frauds." The "Press" Republican, says "the result leaves us in possession of the citadel, but it also leaves us in possession of many admonitions," and warns the party that it must mend its ways in local affairs. The "Public Ledger" says the election resulted in quite a handsome gain of a better class of councilmen.

Criticism of Prof. Seelye and Mr. Pierce, the honest Representatives from Massachusetts, who uttered unavailing protests and cast unavailing votes against the infamous Louisiana decision, comes with ill grace from such pretensions respectable journals as the Boston "Advertiser."

THE NEED OF THE DEMOCRATIC PARTY.

Our party's great want is a brainy popular leader; a broad national man, against whom there exists no prejudice of section; a man who was a war Democrat, and who since the clash of arms ceased to be an advocate of peace; a man of culture, but not a mere man of books; a man of business habits, but not a mere man of business; a politician, but not a mere politician.

He need not possess wealth, but he must not be an adventurer, "on the make." He must be a man of character, of nerve, of self-dependence, and not afraid of doing exactly what he sees to be the right thing for him to do at every stage of his career.

Such a leader would make the Democratic opposition a power to be greatly feared. He would infuse a spirit of courage, resolve and confidence into the Democratic party which would inevitably lead it to victory in the contests to come.

OUR DAIRY INTERESTS.

At the meeting of the Western Reserve Dairymen's Association, held recently at Garrettsville, Ohio, Mr. Sherman Tracy, of Philadelphia, delivered the annual address, in which he furnished some interesting statistics concerning the dairy products of the United States. He stated that in 1875 there were in the country about 10,000,000 milch cows, which at \$45 per head represented a capital of \$450,000,000. In the same year there were manufactured 203,669,384 lbs. of cheese, 625,191,219 lbs. of butter and 325,500,599 gallons of milk were sold. Besides this an enormous quantity of milk was consumed in families, of which no account can be taken, but evidently four times the quantity noted as sold, which would make the total quantity consumed and sold 1,302,002,396 gallons. This would make the probable yearly yield of the cow in butter, cheese, etc., as follows: Cheese, 203,669,384 lbs., \$24,440,326; butter, 625,191,219 lbs., at 22 cents per lb., 137,542,068; milk, 1,302,002,396 gallons, at 8 cents per gallon, \$104,160,191, and 9,000,000 calves, at \$1 per head, \$9,000,000. Total, \$275,142,585, as the annual product of our dairy interests.

NEW HAMPSHIRE.

The New Hampshire election takes place next month, and desperate efforts are to be made by the Radicals to elect all the members of Congress from that State. Money and orators are to be sent there in abundance. If the Democrats would make the proper use of the recent decisions of the Electoral Commission the task of defeating the bull-doing party would not be a difficult one.

No wonder the people have confidence when the best physicians are prescribing Dr. Bull's Cough Syrup in all cases of Cough, Cold, etc.

Send stamp for specimen copy and get up a club. E. A. WILSON, Greensboro, N. C.

1877 THE SUN, BALTIMORE, MD. 1877

THE SUN, from the geographical position occupied by Baltimore and its proximity to the National Capital presents unusual advantages to all classes of readers, not only in the city of its publication, but in the surrounding States. It is national in scope, independent in politics, and conservative in opinion. It is emphatically a newspaper, and its reputation has been built up by the acknowledged excellence and variety of its news, both local and general. From its fairness and impartiality in discussing public questions, its circulation extends among men of all political parties, and has become, from the thoroughness of its information on all current subjects engaging popular attention, the favorite paper of the people. Everything worthy of special note or record in the State of Maryland, the District of Columbia and the States adjacent, will be found from day to day in compact and readable form in its columns. During the session of Congress it gives special attention to the subjects under discussion, the introduction of important bills, and the pith of debates. Its special correspondence embraces not only daily letters and telegrams from Washington, but covers all the most prominent points in the Union, from San Francisco to New York, and the Eastern cities beyond. Its foreign news is the very latest received from day to day by cable. In its Commercial and Financial Department the utmost pains are taken to secure perfect accuracy in the quotations, the fluctuations in all classes of public securities being carefully noted. Special attention is given to the Breadstuff and Provision markets, and particularly to the current prices each day, not only in the city of Baltimore, but in other cities of the Union, and for all the principal matters that enter into the business of the country it may be consulted with safety, both by producers and dealers. But aside from its political, financial and commercial features, THE SUN has an established reputation as a Family Paper. As such the information it imparts, in the way of general news, is of interest to all classes of readers, nothing being admitted into its pages that may not be read by any member of the household, in politics its aim is to promote "the greatest good to the greatest number," without regard to party lines, and to encourage at all times and among all men respect for the constitution and the laws. In religion its position is non-sectarian, with "charity towards all," and its local as well as Federal affairs it regards as honest and economical administration, dealing justly by the people and respecting their rights, to be paramount to all other considerations. To those who desire a first-class newspaper, up to the times, and sparing no expense to keep it so, THE SUN recommends itself to all classes of readers, nothing being admitted into its pages that may not be read by any member of the household, in politics its aim is to promote "the greatest good to the greatest number," without regard to party lines, and to encourage at all times and among all men respect for the constitution and the laws.
