Much depends on the person who has the immediate super intendence of the construction. No one should be selected for the executive capacity and large experience. Such a man is Col. S. L. Fremont by whose tact, perse verance and energy the eastern division of the Carolina Central Cailway was completed as far as to Charlotte.

We write this with a free hand, having no axes to grind and being concerned only about the success of the enterprise in which so much of State pride and local interest is involved. If Col. Fremont shall be appointed the best thing will have been done.

Greensboro, N. C. 1877 BALTIMORE, MD. 1877 THE SUN, from the geographical position occupied by Baltimore and its proximity to the National Capital presents unusual advantages to all classes of readers, not
only in the city of its publication, but in
the surrounding States. It is national in
scope, independent in politics, and conservative in opinion. It is emphatically a
newspaper, and its reputation has been
built up by the acknowledged excellence
and variety of its news, both local and
general. From its fatness and impartiality in discussing public questions, its circulation extends among men of all political
parties, and has become, from the thoroughness of its information on all currents Wright, Bayurd, Booth and M. parties, and has become, from the thoroughness of its information on all currents subjects engaging popular attention, the favorite paper of the people. Everything worthy of special note or record in the State of Maryland, the District of Columbia and the States adjacent, will be found from day to day in a compact and readable form in its columns. During the session of Congress it gives special attention to the subjects under discussion, the introduction of important bills, and the pith of debates. Its special correspondence embraces not only daily letters and telegrams from Washington, but covers all the most prominent points in the Union, from San Francisco to New York, and the Eastern cities beyond. Its foreign news is the very Hid coltaireasppa livin grbnus SOLTH CARDINAL JOB WORK

Francisco to New York, and the Eastern cities beyond. Its foreign news is the very latest received from day to day by cable. In its Commercial and Financial Departments the utmost pains are taken to secure perfect accuracy in the quotations, the fluctuations is all classes of public securities being carefully noted. Special attention is given to the Breadstuff and Provision markets, and particularly to the current prices each day, not only in the city of Baltimore out in other cities of the Union and abroad. For all the principal matters that enter into the business of the country it may be consuited with safety, both by producers and dealers. But aside from its political, financial and commercial features, THE SUN has an established reputation as a Family Paper. As such the information it imparts, in the way of general news, is rainiy raper. As such the instruction it imparts, in the way of general news, is of interest to all classes of readers, nothing being admitted into its pages that may not be read by any member of the household, In politics its aim is to promote "the greatest good to the greatest num-ber," without regard to party lines, and to encourage at all times and among all men respect for the constitution and the laws. In religion its position is non-sectarian, with "charity towards all;" and in local as in Federa, affairs it regards an hones and economical administration, dealing justly by the people and respecting their rights, to be paramount to all other considerations.
