The Irish have held a republican convention. Indianapolis, Ind., was the place and Hon. A. L. Morrison, of Chicage the President. The Tobins, Creagins, McNamaras, O'Brien's, Kearney's, Kerrigan's and Keogh, Raleigh, N. C., were present. D. W. The President of Yale College, it turns out, has been running the Presidency of the United States. Mr. Hays tells us, that at the commencement of his administration, he applied to the president of that venerable institution of learning for advice. That from him, his Southern Policy received its inspiration and was adopted in the interest of harmony and peace. And whatever credit is given him for his effort to restore fraternal feelings, he is willing to share with the distinguised head of that institution.

The Goldsboro Messenger says :-We were requested to secure Mr. Dortch's opinion concerning the state meeting, and therefore knows nothing of its management.

The Messenger says Goldsboro seems to be the hub of the Republicans of the 2d Congressional district, and from the stir that is evidently going on among the faithful we infer that "son ething is up." Quite a number of leading Republicans from different parts of the district have been in consultation here this week touching their congression is matters. It is said that the opposition to Mr. Hubbs is growrog, and the "Brogden boom" appears to be gaining it dimension.

We learn from the Jacksonville, Fla., San and Press that the General has been tendered the presi dency of the American branch of the De Lesseps Canal Company at a sal ary of \$25,000 a year. He refuses to accept on the ground that the enterprise would not prove a financial success during the lives of those inter ested in the scheme and that he would not lend his name to an undertaking in which his friends might be induced to risk their capital.

Col. George Williamson, lately min ister to Central America, has declined the republican nomination for Congress in the Shreveport (La.) district, and declared his intention to support Hancock. And this is the best case that can be made for him, or his decaying party. Every intelligent Republican realizes the situation, and admits there is no expectation of success before the people .-To resort to fraud again, as has been suggested by desperate partisans, is to try an experiment that would tecoil on its authors. Col. Kenan also made one of his happiest efforts and was frequently interrupted by applause. He discussed exhaustively the subject of education and the increasing demand for a better and higher system. The great disturbing elements of our State politics he said had been settled.
