been able to learn, quietly and with ery. no disturbance. Here in Wilson the voting was done without any show of enthusiasm and excitement. From the first the impression prevailed that the Anti-Prohibitionists would have a majority both in county and State and as the Prohibitionists looked foward to defeat they voted in conviction to duty, but without even so much as a hope of success.

The Anti's were more enthusiastic of the two parties, though they recemed to look at the situation calmly exulting in their anticipated victory. Groups could be seen on the corners and in the Court yard discussing the situation and ever and anon some Anti who felt more like huzaing than the rest, would give vent to his enthusiasm, and hurrah for the Anti-Prohibitionists.

Thus the election passed off and we are heartily glad that is safely over. We cannot at the time we go to press give anyapproximate idea of the result except to say that it is conceded that Prohibition is lost. The majority is yet to be ascertained, and as we never

## THE VOTE IN WILSON

We do not care to conceal our disappointment over the result in this township. We had not thought that Prohibition would get less than 200 and some of the more sanguine Prohibitionists had predicted that Prohibition would poll 300 or 400 votes.-The official vote is: For Prohibition Against Prohibition,

Of these votes 288 were cast by white men and 340 by colored men.-It is thought the white vote was pretty evenly divided as the colored people voted almost solidly against Prohibition.
