GREATEST OF THEM ALL.

FEW PLAIN FACTS ABOUT NORTH CAROLINA, THE GREATEST STATE IN THE UNION. Durham, N. C., Jan. 19th, 1882.

EDITOR GOLD LEAF:-Just for the motto of your paper, and the sentiment it inspires in the heart of all native North Corolinians "to the spirit and the manner born," I give you a few facts about the products and advantages of the Old North State, not generally kxown.

It is the only State in the Union that produces the agricultural products of every State and Territory in the Union, and two counties, Hyde and Currituck, produce more corn than the whole State of New York.

The largest tree, this side of California, stands on the banks of Nutbush creek, in Granville county, on the land of Tom Turner. It is fifteen feet in diameter ten feet from the ground.

The largest cotton stalk ever raised in this country grew on the farm of Mrs. Cheek, near Warrenton, in 1864. has the It was twenty-one feet high, four inches in diameter above the ground, and was on exhibition in John White's store in Warrenton, for some time, and may be there yet.

The largest garden cymblin ever heard of, was raised by Warren Duty. near Shatter, about six miles from Henderson, and weighed one hundred and one pounds. It was as large as a flour barrel, and was sold at Duty's sale to Green Wrenn for one cent a pound. Thir was in 1845, and Joseph Allen, John Smith, Vincent Vaughan and all the neighbors were there to a public sale of Warren Duty's who was selling out to move to a better country than this. I was but a small boy at the time, but it made a lasting impression upon me, that any farmer should wish for a better or more prolific country than where cymblins would grow to weigh over one hundred pounds.

Next to the largest lump of pure gold ever dug out of the earth, was mined in Cabarrus county, N. C., and s yet retained in its original form by an English house, I believe.

This is the very best timbered State in all the Union, and in the variety and excellence of its many species is unequalled. Wild locust, so valuable in ship building is found in perfection near Asheville, in Buncombe county. and boards of this rare timber are frequently seen twenty feet long, twenty inches wide, without knot or blemish; and since the opening of the railroad quite a business has developed in sending this with other valuable tim-

ber to all parts of the country. Just before the war, two ship loads of timber left Wilmington, N. C., for Jerusalem, with which to rebuild Selomon's Temple; and since the recent revival of that project by the Crown Prince of Austria, aided by the Sultan of Turkey, for the restoration, of the Temple in all its ancient glory, we see it proposed not to send to Hiram for the cedars of Lebanon this time, but to the United States for the long leaf pine of North Carolina. "So mote it

The best whet stones this side of Turkey, are to be found in Orange county, near Chapel Hill, and before the war they were quarried and peddled by wagoners over the country and sold for one dollar a pound.

The highest priced raw silk in the world is that raised in North Carolina and the silk factory in Patterson, New Jersey, is offering special inducements for its production. The worms are healthier and spin a richer and strong. er thread than any where else. Fasnach, in Raleigh; sells his extra eggs n France and China at sixteen dollars an ounce, with freight and insurance added to this price. The fine gold leaf tobacco that grows at your doors, takes the premium where and whenever brought in competition with tobacco from other parts of the world, and upon its rising fame and increasing demand the sun never sets.

In spite of these facts North Carolinians are leaving their native State daily for other parts of the country where they "can do better."

If all the people now living, that are natives of the State, could be brought back to North Carolina, she would be the most populous section of our country. There is something radically wrong, what is it?

Here is where the old and new flow. er comes close together; the birds migrate not; the harvest and the seed time mingle time and time around the year; there is no pestilence in the thousand voiced wind-harps of the leading first-class sewing machine vales, the forest, and the storm. The at BOTTOMPR cloud and the sky go floating over us CES. Send for to the music of health, comfort, and price list or call o security; besetting dangers and an- that ing elsewher noyances are reduced to house-flies and save money. and wood-ticks. Why do they go, Needles, Attach and so few strangers come to take ments and pri their place?

-O. R. Smith, in Gold Leaf.

tree guards, wire cloth, sieves, fenderss suffered occassionally from rheumatic pains in his knees, for which he sucressfully tried St. Jacobs Oil.

INFALLIBLE CHILL CURE.

The attention of Druggists and Dealers generally is called to thi most valuable medicine, which stand before the public and medical fa oity undisputed as a cure for Fever and Ague, Bilious and Remifting Fe erl Dumb Chills, Enlarged Spleen, and all diseases arising from malarial or miasmatic poisons. It is no quack nostrum or patent humbug claiming to cure all diseases, but only such las arise from malarial poisons, which are very prevalent in Eastern Carolina. Containing a very valuable preparation of Iron, it renovates the blood. promotes the appetite and is a most potent Alterative. Certificates of its infallibility from some of our best citizens will be furnished upon apolication, and if it fails to give satists . tion when used according to direction.
