Morning, August 10

A Plank in the Platform.

There has recently been some discussion of the plank in the State Democratic Platform of repeal of the internal revenue system. The resolution is in the following language:

Resolved, That we are in favor of the entire and immediate abolition of the internal revenue system, with its attendant corruptions."

of the party in North Carolina erect such standards. upon this point is that we demand the repeal of the present system of internal revenue, in order that we may be freed the system as a means of polit-We know of no prominent Dem- familiarize the idea and pos-i- the internal revenue system .party who advocates free whi-- Hickory Carolinian. ky and free tobacco. There may now and then be found a very important one. If it be demagogue who, desparing of wrong to give publicity to such

By reference to the sixth section of a resolution requesting our Senators and Representatives to use their influence to secure the repeal of the present revenue system and the modification of the tariff, passed by the last Legislature which was Democratic by a considera. ble majority we find that the Democratic legislators put the same construction on this plank in the platform of 1882. The sixth section is in these words: "These resolutions are not intended to interfere with the application of the principle gro. that it is just and wise to tax articles that are intended to be consumed as luxuries higher than the necessaries of life, and the materials, implements and machinery consumed or used in producing, manufacturing and transportation."

If we understand by the resolution of 1832 that it was intended to free tobacco and whisky from taxation and rely upon the tariff to supply revenue for the support of the government, we, in common with the great mass of Democratic voters in North Carolina, would be in favor of retracting those sentiments at the earliest possible opportunity.

Unwise and Impolitic.
