which reminds are of a letter shown me the other day by Hiscox & Co., of New York, signed by Mr. E. C. Williams, of Chapman, Snyler & Co., Pa., a prominent business man of that place. He writes:

"I have suffered with asthma for over forty years, and had a terrible attack in December and January 1882. I hardly know what prompted me to take Parker's Tonic. I did so, and the first day I took four does. The effect astonished me. That night I slept as if nothing was the matter with me, and have ever since. I have had colds since, but no asthma. My breathing is now as perfect as if I had n ver known that disease. If you know of any one who has asthma tell him in my name that Parker's Tonic will cure it—even after forty years. There was a man who escaped the fate of those whom he poet laments.

This preparation, which has heretofore been known as Parker's Ginger Tonic, will hereafter be advarised and sold under the name of Parker' Tonic. Inasmuch as ginger is really an un mpo-tant ingredient, and unprincipled dealers are constantly deceiving their customers by substituting inferior preparations under the name of ginger, we drop the misteadling word.

There is no change, however, in the prepara-

word.

There is no change, however, in the preparation itself, and all bottles remaining in the hands of dealers, wrapped under the name of Parker's Ginger Tonic contain the genuine methetne if the fac simile signature of Hiscox & Co., is at the bottom of the outside wrapper.
