A part of the bridge still remained, and crawling out on this to the tie, she swung her lantern over the abyss and catted out at the top of her voice .--It was pitchy dark below, but she was answered faintly by the engineer, who had crawled out up on

In our opinion he was extremely her to cross the high trestle bridge fortunate in getting off as well as over the Des Moines River, about 500 feet in length. Just as she trembling put her foot on this structure, the wind, rain and thunder and lightning were so appalling that she nearly lost her balance. and in the endeavor to save herself her sole companion, the old lantern, Deprived of her light, she could not see a foot ahead save when the dazzling flashes of lightning revealed the grim outlines of the bridge and the seeching waters beneath. Knowing that she had no time to lose, the brave girl threw away the useless lamp, and dropping on her hands and knees, crawled from tie to tie across the high trestle. Having gained the ground again, she ran the short distance remaining to the station, told her story in breathless haste, and fell unconscious at the feet of the gaping rustics, who, in their eagerness to know her adventures
