POLITICAL POINTS.

Mr. Blaine is one of the heavy stockholders in the coal and ore mines in Elk Garden, W. Va. Within the last two years the company has had the majority of its laborers, and their mines are to-day mostly filled with Italians. In the week ending Oct. 15, Blaine's coal mine shows his consuming regard for the American laborer.

Letter to the N. Y. "World" says that when Mrs. Wm. B. Mumford, with her babies, were groveling at the feet of Gen. Butler, begging him to spare the life of her husband the gallant North Carolinian who tore down a flag which had been raised by a drunken gang of sailors two days before the city surrendered, she pleaded with him to "have mercy on Christ's sake!" "No use to cry for Christ! I am Boss in New Orleans," said Butler.

The Negro Aid the Politician. The other night, Captain Mavillon hearing a noise, stole out to the hen-house and found old Jasper laying a well-laid trap for a politician, creating great excitement among the chickens. The moon was shining brightly and the captain at once recognized the intruder.

St. John counts on having a million of the popular vote. The Republicans never found out how great a scoundrel Carl Schurz was until he came out for Cleveland.

The Speaker of the House for the Forty-ninth Congress has been elected by the re-nomination of Mr. Carlisle.

Judge Faircloth says he has no hopes of York's election. We put Judge Faircloth down as the most honest Republican in North Carolina.

The Statesville "American" has been removed to Raleigh to be run as a Republican campaign organ until after the election. It will then be returned to Statesville.

Dr. York proposes to devote the melancholy days of October to holding anti-Republican mass meetings. Gen. Seales is neither invited nor expected to attend.

Mr. Blaine's position in regard to the internal revenue is that it ought to be continued perpetually; that it should never be abolished. See his letter of Nov. 29, 1883. Dr. York supports Mr. Blaine.

A negro of Beaufort county by the name of Gurganus, who it is claimed is a man of influence and character, is out in an open letter giving his reasons for not supporting the Republican ticket this year.

Senator Ransom spoke at Pine Level, Johnson county, Saturday to a large crowd. He has entered fully into the campaign, and is doing valiant service. He must be induced to speak in Wilson, Nash and Greene.

The time of holding the County Convention in Pender has been changed from Oct. 1st, to Sept. 29th. The Convention will meet promptly at 11 o'clock. Chas. M. Steadman will speak.

After Oct. 2nd, the joint canvass between Seales and York will close. The Republicans are aware that Seales is winning by the canvass and are therefore determined to stop it. Well, Seales will be elected in any event.

A prominent Ohio Republican politician who was in Washington last week said that he may be biased in his opinion by his desire, but he really believes the Republicans will carry Ohio in October by a majority of 25,000.

There is another Presidential candidate in the field. The American Political Alliance, whatever that is, has nominated Capt. W. L. Ellsworth, of Pennsylvania, for President, and he has accepted. This makes about six.

Referring to the Republican party the Democrats are singing: "O, well, sing and shout. The Devil's about. We'll shut the door, And keep him out."

Mr. Carl Schurz informs a correspondent of the New York "Times" that he gets no pay for the political speeches he is making during the present campaign. His effort to bring about the defeat of Blaine is made for a sense of duty.

The Senatorial Convention of Jones, Carter and Onslow was held at Swansboro, Sept. 19th. P. M. Pearsall Esq., was Chairman. On motion Dr. Cyrus Thompson, of Onslow, was nominated by acclamation. He accepted the nomination.

A Democratic Congressman from Michigan writes to the Democratic national committee: "You can put Michigan down on the Democratic side, as strange as it may seem. Our union is complete, cordial and harmonious, and is sure to win."

A Boston dispatch intimates that the Blaine managers are about to attempt to offset the recent damaging disclosures of Fisher and Mulligan by starting another scandal about Gov. Cleveland. They expect to make another appeal to the moral and religious press.

We honor Conklin says the "Star." Blaine in vain tried to placate him. He declined to enter the campaign. "Help me Roscoe or I sink." And Roscoe would not. But he will soon write a letter and define his position, and it is said it will not be on the side of the writer of the Mulligan letters.

The Blaine and Logan club of Salem broke up in a row Thursday night of last week. The revenue ringsters got into a fight and landed each other pretty lively. A colored preacher tied himself up in a double-bow knot and rolled down the stairs to get out of harm's way. The next morning two of the combatants met on the streets of Wilmington and tried to shoot each other, but were arrested. A Salem correspondent writes all this to the Charlotte "Observer."

Washington "Gazette": The citizens of the Tranter Creek section have been losing heavily, concluding that Bruin was at the bottom of the mischief they set to work to capture him. On last Monday morning about thirty men formed a party and started on a bear hunt. They went to the New Lands, about five miles from town on the J. & W. railroad, and sounded the charge. The result was that four large bears were killed during the day. This was enough glory for one day.

BILL ARP'S TALK.

SAGE ADVICE TO A HUSBAND. BUMINATES ON CORN.

HIS LOVE FOR LITTLE CHAPS.

and years, and now I would like for the boys and girls who are going to school to get the sum and find out how many million barnes holding a million bushels each it would take to hold the philosopher's corn. The old man took this way to check the king's extravagance and keep him from squandering the estate his father left him.

Our little chaps are gathering the popcorn now, and the red ears and the yellow ones and speckled ones look mighty nice, all mixed together, and the children will have a good time these long winter nights that are coming. They are talking about walnuts and scaly-bellied chestnuts and black haws and May-pops and 'possums. These little things make up a bright picture in the life of a child, and they treasure sweet memories that do us good in our old age. I don't care much for such things now, but I do care to see the children happy, just as I used to be happy in the long ago. I can't climb a tree and shake down the nuts I can't pull up by a muscadine vine over the fence, I can't run a pony race to the mill like I used to; but I can still meander around with children and grandchildren, and make a corn-stalk fiddle and a gourd banjo and a sawstump saw. If our children would always be children I would willingly be old, just to follow them around; but one by one they grow up and leave us, and soon—very soon—Mr. Arp and I will be childless, and all we can do will be to sit together and sing "John Anderson, My Joe."

"About two months," said he. "And what was the matter?" "Well, let's see," said I. "Did you count on North Carolina?" "Well, I were born, that," said he. "And your eyes are a little yaller," said I, and your complexion is very yellow, and you may be box-sunked, and you may be the main question is, what do you do for a living? What is your trade; are you a vagabond, or not?"

"Well, kernel, I dont do much of nothing right now, sepin to knock round, for business is mighty dull."

"Well, now," said I, "do you go and make up with your wife and buy you a little home with that money you've left you, and go to work, and the very first thing you do give that red headed feller a lickin' if he comes about and then your wife will have more respect for you."

"I'll whip him awhile and said: "Kernel, I believe you are right, I'll whip him shore," and he left me.

Well, there is a power of trouble amongst the poor and the rich, and the rich folks marry for money, and there is misery all round. There is no happiness in wedded life except when they marry for love and have a mutual respect for one another. They marry for the money, for the law, for the work for a living and they are happier in the country than in the town, for the red headed chaps have got to work too and haven't got time to be cruising around with their excursions with other people's wives.

Now is the time when I love to take the little chaps around the farm and pull a few big ears of corn, and I'll give you a few big hominy, and it looks like the good ground is bigger and fatter here ever before. I find some ears 13 inches long with 18 and 20 rows and they will average a thousand bushels, and I'll give you a few big hominy. It is curious how nature figures up her products, for I have never yet seen an ear with an odd row. They are 14 and 16 and 18 and 20 but never odd, and it is a mysterious wonder how the heaven's powers can do this. I find some ears 13 inches long with 18 and 20 rows and they will average a thousand bushels, and I'll give you a few big hominy. It is curious how nature figures up her products, for I have never yet seen an ear with an odd row. They are 14 and 16 and 18 and 20 but never odd, and it is a mysterious wonder how the heaven's powers can do this.

"I'll give you a few big hominy, and it looks like the good ground is bigger and fatter here ever before.
