**JOSEPHUS AND C. C. DANIELS**  
 Editors and Proprietors.

The Advance endeavors to be an honest, faithful and impartial chronicler of the news of the State and Nation. It is Democratic in its sympathies and will not shrink from the exposure of any man or party who is found to be unworthy of the confidence of the people. It believes in the State Imperative and the retention of the Democratic party in power and will spare no effort to accomplish that result. It will seek to promote the industrial development of the State and section and will take pleasure in doing whatever lies in its power to do for the benefit of the people. It is not a party paper and will not be placed in the hands of any man or party who is unworthy of the confidence of the people. It will be published at Wilson, N. C., every week except on Sundays and holidays.

Entered in the Post Office at Wilson, N. C., as second class matter.

The Advance hopes Fowle and Dockery will have a joint discussion in Wilson. We would like very much to hear them together.

There are but two political parties—every other so called party is a side show to either the Democrat or Republican parties. To which party does the alleged prohibition party belong? Which party will lose most votes by it? Any reasonable man will answer the Democratic party.

As one evidence of what the Third party movement means the following from the Kinston Free Press is worth reading: "At Goldsboro, Mr. Walker, the candidate for Governor, was met by Major Grant, a Republican leader, and introduced to his audience by W. S. O'B. Robinson, Republican candidate for Congress in Goldsboro district."

In consequence of the occurrence of several other public events during the month of August, all of which would conflict more or less with the Convention of Young Men's Democratic Clubs if held on the date for which it has been announced, it has been decided to postpone the convention till the last of the month. The date will be announced in due time.—Raleigh News Observer.

The County government question is one which the Democrats propose to stand by. Mr. Dockery need not attempt to fool the people with some new fangled system, born of his desire to be Governor of the commonwealth. No-sir-rab, Mr. Dockery, you will never recollect signing your name as the Governor of North Carolina and the signature speak that which is true.—EX.

The Advance returns thanks to Congressman Simmons for quite a number of valuable public documents and speeches on the tariff—the question that is absorbing the minds of National Politics. The speech of Mr. Simmons on the tariff was an especially good one and has been highly complimented on all sides. There are few members of Congress that labor so earnestly in the interest of their constituents as does Mr. Simmons.

It does the soul of every Democrat good to see how brightly the fires are burning already throughout North Carolina. The counties are putting out there tickets, and every where we see concord and determination to allow no personal rivalries to stand in the way of party success. Everywhere there is a disposition to make nominations for county officers, and give no aid to independent members of the Legislature. This winter, with a party disorganized.

The Democratic Congressional convention of this district meets in this place on tomorrow. The people of the district have practically re-nominated Mr. Simmons and remains only for the convention to ratify their choice. He has made a representative that the people of the district can feel proud of. He has attended to every duty and labored with a zeal greater than which no has exhibited to reduce the present high and burdensome tariff that the Republican party has placed on the shoulder of our people. Mr. Simmons will be re-nominated and he will be re-elected if Democrats will do their duty.

No man can be a sincere member of the Farmers Alliance and a consistent Republican. One of the first demands of the Alliance is that the present high and burdensome tariff shall be reduced. The Republican party says this demand shall not be complied with if they can help it. The Democratic party shows its love for the farming interest by passing the Mills bill in the House. The Farmers Alliance and the Democratic party demand the same thing exactly, they both demand a reduction of the tariff. If any member of the Alliance expects to vote for Harrison or Dockery he owes it to his self-respect to withdraw from the Alliance. The principles will not mix.

The Advance would urge upon every Democrat the importance of overcoming his disappointment at not securing his individual choice as the Democratic candidate for the various county offices. Somebody had to be disappointed and you owe it to yourself to use no word and indulge in no feeling that is calculated to injure the cause of the Democratic party. There are a number of secret enemies—George Stanton's lieutenants—Wilson county whose every effort is to disorganize and disrupt the party. They are on the alert and will spare no effort to defeat the party that gives the people the best possible government—keep an eye on these men whose efforts are directed at disorganization and Radicalism. We have no strength to lose and we cannot afford to lose seed that we will have to uproot.

The Concord Times did exceptionally good work for the cause of Local Option when that question was before the people of that town. The Times was one of the factors that helped to carry it in Concord, and that paper is therefore privileged to speak to the Prohibitionists of the State. While the Times is for temperance and labors for local prohibition with a zeal born of honest conviction, its editor is a white man with a white man's principles and he denounces the "Third party" as a Radical side show. It shows the cloven foot of Radicalism through the thin gauze that Dr. Benbow has endeavored to throw around the new party. The Times proves the Rev. Mr. Walker—the ministerial candidate for Governor—to be a wilful falsifier of facts. It shows him up as a demagogue and trickster—as a "jumping jack" who jumps at the Radical side show. Dr. Benbow pulls the string. The Third party candidate is nothing more or less than a well paid set of political workers for negro rule in North Carolina. Of course there are a few in the councils of the party who are there for honest motives, but they are monstrous scarce and they have nothing to do with the management of the party.

**TO OUR MERCHANTS.**

The busy season for the merchants of Wilson will soon be upon us and we desire to impress upon every business man in the town the necessity of advertising in the Advance. In the first place any merchant who will advertise his goods and back up his advertising by doing what he says he will, will find that the advertisement pays directly. In the second place it does seem to us that it is nothing but right and proper that men who make money out of the business that is brought to the town by reason of the best advertising in the paper, should be willing to advertise in the paper—thereby showing their appreciation of the labor done for the upbuilding of the town. We believe we speak a sober truth when we say that the Advance has been no small factor in building up Wilson as a cotton market. We have done our best to advertise the high prices that are paid by our merchants for the staple, thereby inducing cotton to come to this market. Some of the men who have reaped the largest reward from our efforts in this direction have patronized us least. We hope that the coming fall may find a decided change on this line among some of our business men.

**A COWARDLY COURSE.**

The Advance believes that every man should belong to some political party and that he should do his duty by that party. It believes he should take its precepts and principles for his own guidance and with them stand or fall. It believes that every man should give his allegiance to its trusts and doctrines. Thus believing it can see nothing in the course of Judge Russell to commend him to the honor and esteem of any person as regards his declination to run on the Republican ticket. He gives as his reason for not accepting the nomination, that he believes the Democrats will carry the State by 40,000. And so, because he can see no chance to win, no sign of success—he stays at home and permits his party to do the best it can. Is this the true, manly course to pursue in the matter? Why not throw himself vigorously into the fight and make the canvass, thereby inspiring hope to his party and to those members of it who look to him for encouragement. That would be the action of a true party man—of a man who had the courage of his convictions and dared maintain them. Of course there is not the slightest hope for the Republican party in North Carolina this year. Its leaders are very well aware of this; but all of them, except Russell, put a bold face on and will wade into the thickest of the fight, and thereby show their devotion to their party. We can commend this, even in a foe. And we wish to say just here that Democrats must not think they are going to have an easy time this year. Remember this; the harder you work the larger will be the majority.

**WHO ARE THEY.**

Let Us Look at the Character of The Leaders.

The question has been asked the Chronicle "Who the leaders of the Third Party in North Carolina are?" How have they been voting in the past? This is a timely inquiry. It is information that the people ought to have, and which we gladly furnish. Dr. W. C. Benbow and Prof. W. F. Steele are the leaders of the Third Party, being Chairman and Secretary of the Executive Committee and the chief authors, promoters and agitators of the Third Party movement. Both of them are Radicals. Both of them hate Democracy. Both of them are seeking to injure the Democratic party by this Third Party movement. Everybody who knows Dr. Benbow knows that he has always, until he joined the Third Party, been a Radical in the deepest dye. When he saw that he could best serve Radicalism by joining the Third Party, he joined it. He became Chairman of the Executive Committee of the Third Party.

Prof. W. F. Steele, the Secretary of the Third Party Executive Committee came to Greensboro from Massachusetts to teach in a normal school in that place. If he felt that it was his duty to teach a negro school, he had and has a perfect right to do so. Certainly the Chronicle would not criticize him for doing what he conceived to be his duty. If he believe in social equality, as has been evidenced by his social intercourse with negroes, that is his own matter. If his wife introduced negroes to ladies in Greensboro, and for that reason they have visited her no more we have nothing to say about that. She is a free woman and can do as she pleases.

If he voted the Republican ticket all his life until he joined the Third Party, as he admits, we have nothing to say about that. He had a perfect right to choose his own and his wife's associates and to vote as he pleases. But the Chronicle does say this: That the thoughtful white men of North Carolina will not join any party which has such a man as Secretary of its Executive Committee and an editor of its organ. This man Steele drafted the platform of the North Carolina Third Party. He edits the organ of party. He with other Radical Dr. Benbow, is running the party and running it in the interest of the Radical party.

They pose as better than other men, and their hypocrisy is so nearly perfect that in some good Democrats are deceived and led into the trap set for them. These good men they use as decoy ducks with which to entrap others. The leaders of the Third Party are Radicals and if that party does anything the Radical party will be the gainer.

**JOSEPH B. PHILLIPS.**

The Splendid Man The Democrats Have as Their Candidate For The House of Representatives.

The Democratic party of Nash county is probably better fighting trim than it has been in several campaigns.—The people met at Nashville last May and nominated a ticket that commands the hearty approval and endorsement of every true man in that good county which is filled with good men.

The farmers of North Carolina appear to be more anxious than they have been in many years that men who follow the plow handles shall have a larger share in the legislative enactments that so vitally concern their every interest. The Democrats of Nash county recognizing this feeling that has taken such deep root among the people, nominated—as their candidate for the House of Representatives, one of the most intelligent and successful farmers in the county, and one of the truest and most sincere men that lives. When they nominated Joseph B. Phillips for the House of Representatives they put forward as their standard bearer one whose principles would have made him decline the honor conferred upon him, but one whose

every heart beat is in sympathy with the best interest of the farmers as well as every other class of our citizens, and who was therefore forced to accept and who will labor for the triumphant election of the entire Democratic ticket.

Mr. Joe Phillips is a son of Dr. J. J. Phillips and a brother of Judge Fred Phillips. He was born on his father's farm in Edgecombe county Jan. 8, 1848. He spent most of his boyhood days at school, in 1864 joined Co. K, 10th Regiment N. C. Heavy Artillery and served faithfully until the lamentable Civil War closed. When he returned from war he took charge of the home place, his father being too old to attend the duties of the farm. In 1868 Mr. Phillips moved to Nash County to the farm he now lives on and has been a successful farmer and useful conscientious citizen ever since.

In 1873 he was happily married to Miss. Pattie L. Battle.

His life has been a quiet, useful one. He is thoroughly identified with the people, in a peculiar sense one of them. As a member of the House of Representatives he would exert an influence for good, and good only. He would be recognized as a man of character and courage. That the people of Nash County will elect him we do not doubt. The Advance congratulates him in advance upon sweeping majority that we feel sure he will receive in November.

An Explanation.

What is this "nervous trouble" with which so many seem now to afflict? If you will remember a few years ago the word Malaria was comparatively unknown. Today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which it cannot dispose of the bile through the ordinary channels is compelled to pass it off through the system causing nervous troubles, Malaria Billious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

We desire to call the attention of cotton planters throughout the South, as well as in less time and with more ease than any other Press manufacturer.

1. It works by Lever Power without friction, to perfection.
2. It will pack a bale of cotton in less time and with more ease than any other Press manufacturer.
3. It will pack two ordinary bales in one and-half minutes.
4. In as much as there is absolutely no friction from the ropes, pulleys, chains, &c., it will cost nothing to keep the press in repair and requires no oil for lubrication.

For simplicity in its constructions and operation, as well as for durability, it cannot be excelled. This is a Press and owing to the facts above stated it does not require the addition of steam power.

For reasons already mentioned it is not liable to get out of order. This Press was patented in 1885, and this is the fourth season it not has been in use. I desire to extend my sincere thanks to the public for their very liberal patronage and with several important improvements and superior facilities for manufacturing them I hope to merit and receive their continued patronage. I will also state that the rollers of this Press heretofore made of cast iron are now made of the very best wrought iron and with reasonable use I warrant every particular.
