A New Serial Entitled:

TWO SOLDIERS.

By Capt. King, U. S. A. The man who knows his own friends is peculiarly fortunate.

An Interesting Sketch of CAPT. KING.

By Geo. H. Yonewine, with illustrations, will be published next week with the opening chapter of this excellent story.

NEXT WEEK.

The man who knows his own friends is peculiarly fortunate.

"Is union there is strength." The Democratic party is invincible in North Carolina if united.

The cause of public education, the ADVANCE rises to remark, is one that all good citizens should take a deep interest in.

The people of North Carolina love Vance as they do no other man in the State, and his return to the Senate is a foregone conclusion if the will of the people is carried out.

The ADVANCE believes the nomination of Hon. F. M. Simmons as the Democratic candidate for Congress in this district this year means his election. We believe the nomination of any other man means defeat.

"Vanity of vanities, all is vanity saith the preacher." And so, Cheatnam, of the Black District sold himself, not for mere, but for notoriety. Just to get a bill, called the "Cheatnam Educational Bill." Now doesn't that sound big? When he gets back he'll feel so big his constituents won't know him.—Hendersonville Guide.

The people of this town land have never been so vitally awake to economic questions as they are today. The responsibility resting upon those who are the holders of public opinion is great, and every man should realize this fact before he says, does, or writes a rash thing.

On the last page of this week's ADVANCE we give the card of Capt. W. H. Kitchin withdrawing from the contest for the congressional nomination in this district. Capt. Kitchin, in his own vicious style, point out some of the dangers that threaten the Democratic party. Read the article and reflect upon the reasons to be drawn from it.

The public school law in North Carolina should be doubted. The children of the State must be educated. We believe the Farmers' Alliance has done incalculable good in awakening a desire for education among the people. We hope yet grand and glorious results will spring from this awakening upon so vital a subject. Ignorance is the greatest enemy good government and prosperity.

The prospects for good crops were never better than they are this year. Our people feel hope once again reviving. The people of this section have spent less money this year than for many years and they will therefore be infinitely better off, if the promises of the present crop are realized. Our people need money and we hope the crop this year will supply that need.

The people of this section were never in better spirits than they are now. The prospects for a bountiful crop are enough to make the nicardly grower almost fear that the "land will be drained." The cotton, tobacco, corn, sugar cane, ground peas, almost everything planted—and our farmers never diversified their crops before as they have this year—all look well, and our people feel correspondingly happy. Let us be thankful to God.

There is one thing about the Sub-Treasury Bill peculiarly perplexing to us. It is this: Who will fix the price of the products presented to warehouses by the farmers? For instance, take corn. It is now selling in Kansas for 20 cents per bushel. In Wilson it is selling for 75 cents to \$1 per bushel. Which price would be allowed the Wilson county farmer? Or would a happy man be struck and the farmer here be allowed 50 cents. Will some of our esteemed Alliance friends enlighten us? We confess we are sorely puzzled, and our ignorance is becoming embarrassing.

WHY NOT A SOUTHERN MAN?

The Savannah News responds to the suggestion of the Herald that it is about time that the Southern Democrats, having the intellect of the party, should ask for a place on the electoral ticket. "The men of the south," it says, "consider the success of the Democratic party above personal gain. They sacrifice their ambition to the supremacy of the Democracy." There is a chivalrous tremor in this, but the principle is not sound. The genius of the Democratic party lies in the South. Look at the Senate and the House. What Northern senator takes the place of Hendricks and Thurman? Randall is dead; what Democratic Northern member succeeds him? In the Senate as in the House, Democratic leadership comes from the South. There the Democrats should look for a President worthy of the party's history.

Of course they should. This being true we want to know where a better leader, a profounder statesman, or more popular man than Zebulon B. Vance can be found? Therefore let the ticket for 1892 read:

FOR PRESIDENT: ZEBULON BAIRD VANCE, of North Carolina.

FOR VICE-PRESIDENT: DAVID BENNETT HILL, of New York.

PLATFORM—We are Democrats.

IS A DEMOCRAT.

Occasionally you hear some twaddle. "One party is as good as another." Of course no man who thought what he was saying would make use of any such an expression but there are thoughtless people who listen to such talk without stopping to think what it means.

It means that the Republican party, which draws its very existence from sectional hate and the robbery of the great mass of the citizens of the nation for the benefit of the Yankee nabobs is as true a friend of the people as the Democratic party which is doing its utmost to break down the fearful wall of sectional hate that separates the people of two sections of this country and to reduce the burdens of taxation under which we are groaning.

The fellow who thinks "one party is as good as another," deserves to be taken care of by the State—in the Insane Asylum.

Let us hear no more of this Radical clap-trap, but let us show our faith in our party by word as well as vote.

A RADICAL ERROR.

"We were never prouder of anything in all our lives than to see the Farmers' Alliance taking steps to down the political pretensions that have hitherto been ruling this district. Our neighbor, the Rockwell, seems to think the only salvation for any man, be he black, white or any other color, is in the Democratic party; but we are inclined to think different, and have an idea that the Farmers' Alliance will show him they think the same way."

The above from the columns of a Republican newspaper shows what the Republicans of North Carolina think the effect of the work of the Farmers' Alliance in this State will be. It shows that the feeling that has been and is being engendered among the white people of the State, is weakening the party faith of the members of the Alliance, and thereby strengthening the Republican party. Of course they expect to gain by this state of affairs.

The ADVANCE believes the Republicans have made a mistake. The Farmers' Alliance in North Carolina is composed of many of the best and truest sons of the State—men whose patriotic love for their native State is unsurpassed. These men are patriots and consequently Democrats. They have been led, in some instances, by those who would use them for their own selfish ends, to do and say some things that were not wise—but they are true men, and when they stop and think, can be trusted to save our State from the damning blight of Radical rule. The Republican who expects to see the farmers of North Carolina turn the State over to the set of thieves who plundered and robbed it when they had the power, is sadly mistaken. They are made of different material, and we here and now give the Radical party fair notice that they will have to depend upon the help of the negroes in the future as they have in the past. The white people of the State will continue to work for the success of the Democratic party.

SOUTH CAROLINA POLITICS.

A Newspaper Man Calls Tillman "An Infernal Liar."

The politics of South Carolina are boiling, and they are the red-hot, blue-blazing people on the earth. It is said that Captain Tillman, the Alliance candidate is not running on his good looks, but offers himself as the panacea for the people's ills, promising them that they shall (if he is elected), get their flour for \$2.50 a barrel with the fat flung in.

At the political meeting at Marion, Thursday, the farmers' candidate was told by a reporter that he was an "infernal liar." Capt. Tillman, at every meeting, abuses the Charleston News and Courier. Thursday, after attacking the paper for some time, he asked the audience to compare the News and Courier's reports with the actual proceedings as they observed them, and notice the misrepresentation by the newspaper. Shirley C. Hingston, a cousin of Gen. E. Lee, and a correspondent of the News and Courier, sprang to his feet exclaiming: "Captain Tillman, if you mean to say, sir, that I have ever misrepresented you, you are an infernal liar, and the truth is not in you."

The two men stood glaring at each other, and the audience began to sway with excitement. A chorus of voices shouted, "Put him off the stand! Put him off the stand!" and there was a rush for the platform. Gen. Bonham, and other friends of Hingston, who were on the platform advanced and placed themselves at his side, while a score or more anti-Tillman men crowded on to the stage with open knives, pistols and other weapons.

Three or four policemen with drawn clubs grasped the railing of the platform and started toward Hingston, who stood with one hand on his hip pocket and defied them to touch him. He was surrounded by friends, and the policemen were forced back to the ground, and a conflict was averted.

Billman left the meeting soon after without replying to Hingston's charge.

BUFFALO Lithia Springs, OF VIRGINIA. SPRING NO. 1. Malarious Fevers, Affections Peculiar to Women, Anemic Dyspepsia, Etc.

Dr. Wm. T. Howard, of Baltimore, Professor of Diseases of Women and Children, in the University of Maryland: "For twenty-five years of my professional life I resided in the town of Warren, N. C., some forty miles distant from the Buffalo Springs, and sent many patients to them, thus having ample opportunity of observing the effects of the water, and I feel fully warranted in saying that nothing but the want of mountain air, the paucity of the accommodations hitherto, and the small pains taken to bring it before the public, could possibly have prevented its taking rank with that of the far-famed White Sulphur Spring in Greenbrier county, W. Virginia."

"Indeed, in a certain class of cases, it is much superior to the latter. I allude to the abiding tendency attendant upon the tardy convalescence from grave acute diseases, and more especially to the cachexia and sequelae incident to Malarious Fevers, in all their grades and varieties, to certain forms of Anemic Dyspepsia and all the affections peculiar to women that are remediable at all by mineral waters. In short, were I called upon to state from what mineral waters I have seen the greatest and most unmistakable amount of good accrue in the largest number of cases in a general way, I would unhesitatingly say the Buffalo Springs, in Mecklenburg county, Virginia."

NERVE TONIC PROPERTIES OF SPRING NO. 1. Nervous Dyspepsia, Diseases of Women, Albuminuria of Pregnancy, Disorders of Teething Infants Etc.

Dr. John H. Tucker, Henderson, N. C., Member of the Medical Society of North Carolina, Member of the American Medical Association: "The action of the Buffalo Lithia Water, Spring No. 1, is that of a decided Nerve Tonic. Nervous Dyspepsia with its train of distressing symptoms is promptly and permanently relieved by it. In many cases peculiar to women—Menstrual Irregularities, Suppression and the many functional derangements resulting from chloro-anemic conditions I prescribe this water with almost the same confidence that I do quinine in chills and fever. In Albuminuria of pregnant women it has proved a great blessing."

"I have observed marked beneficial results from its use in the disorders of Teething Infants. I have sent many patients of this class to the Springs, and without exception, they have returned to me cured or greatly benefited."

NOW OPEN FOR GUESTS. Apply for rates of board to M. L. OGLESBY, Buffalo Lithia Springs, Virginia.
