WHAT DOES IT MEAN?

The great victory that has been achieved by the Democratic party means something. Let the people of the whole nation learn the lessons taught.

It means, First, that the people of the North and West have begun to think for themselves and as a natural consequence they are no longer to be scared into voting the Republican ticket by a wave of the tattered and ragged old bloody shirt.

The war is over and the people of a large section of the country have only this year discovered that fact. Their vote shows that they are determined never again to be lead blindly by corrupt Radical tariff jobbers-who are now the present leaders of the Republican party. The first lesson therefore to be learned from the victory is that section. alism has received a heavy

The second lesson is that the people believe that the government should be administered for the benefit of the whole people and not made an engine of oppression of the many for the benefit of the few rich nabobs who buy the right to rob and oppress them. They reco ognize in the infamous Mc-Kinley tariff bill the means whereby they were to be robbed and defrauded for years to come and they strongly emphasized their disapproval of such highway robbery, even though clothed with the form of law.

ed from the result of the election is that the people of this nation still have some respect sor that antiquated old document known as the Constitution. The people still believe that the safety of the Republic rests upon a just appreciation and observance of that musty old document-which the Republicans have sought to destroy, and they emphasized An Enjoyable Occasion that feeling by their ballot.
