He was a human Don't flatter yourself that you can do more than those who have spent a life time in handling tobacco. Send for our illustrated pamphlet and read the testimonials of those who have tried them. To Those Interested :- I have been asked to give my opinion upon the practical mode of the process of curing tobacco with the Snow Stick or more commonly known as the wire process. I preface my remarks by

simplest, and most complete, arrangement yet devised to save all the tobacco

leaves grown, commonly called "primings," and make them marketable at

with this great staple all my life, and have watched closely every new device that had for its object the improvement and lifting the burden off the should ders of the producer, who had it to bear. I know that it don't take a Solomon to say it, but the man who invents hese labor-saving tobacco curing outfits should be classed as a benefactor of

saying I have been in tobacco, have handled and been intimately associated

1st. By the use of the wire stick you can save the bottom leaves which

would otherwise be lost by firing. 2d. It don't require experts to gather and string these leaves-chans ten vears old can do it as well as men.

3d. By taking off the lower leaves as they mature you hasten the ripening of the plant-this alone is a decided advantage.

4th. The primings, or bottom leaves, thus saved, when cured, make first and second class cutters, which under the old way, while waiting for the body and top of the plant to get fully ripe or "grained" for the knife, is lost entirely-all of which when secured can be cured in your barn with less fuel But from observation in this section I have found in my travels that feel is but of second consideration at present, but when you get regularly into tobacco you will find this item of wood of considerable import, and you would do well to commence in time to take care of it.

When I read the strong endorsement of the Snow Stick process by such tobacco men as Maj. R. L. Ragland, Hyco, Va., and F. M. Rogers, Jr., Florence, S. C., together with many others, I could not hesitate to give my full endorsement. ED. M. PACE. Manager Wilson Tobacco Warehouse,
