We understand Col. Skinner said while here yesterday that this was true; and further: that his position was endorsed by all members of the Convention who had heretofore been Democrats. The Republicans are determined to give North Carolina to Harrison and win the State for themselves. Will they do it?

Wilson county people formerly held delegated county conventions. Yielding to a desire of the people for a change, and to do away with all idea of unfairness, for four years primary elections have been held. They have given satisfaction. The free will of the people was best expressed in a primary and so it has gone on. Now the Weaverites hold a delegated convention. Their leaders were loudest in crying out against this unfair method. They denounced it to stifle the free will and choice of the people. Do they resort to such lanta, Ga methods now-methods they have bitterly denounced-because they want to stifle and strangle the will of rough shod? Is that it? Perhaps Dr. Freeman can tell us.
