Priscilla Cadwallader's Prophecy. Priscilla Cadwallader, a Quakeress, delivered a remarkable prophecy in what was then known as "Williams' New Barn," at Leesburg, O., on Aug. 22, 1830. Part of it has already "come to pass." If the remainder be true to the letter, we may expect America to be a "negro republic" or despotism in the near future. Here is the "prophecy" verbatim:

"And the signs of the times are ominous on the subject, and the period is another line of scripture, and all great deep in billowy surges roll together and the conflicting elements contend in wide uproar, so shall the nations roll one against the other. And the various religious sects, in support of their different views, will clash together for victory, and great will be the devastation. And this awful commotion, commencing in foreign lands, will extend to our shores and pervade North America. Then will we see the horsemen zushing forth to battle and hear the sword clashing against sword in deadly conflict and anybody overboard. NASHVILLE, Tenn., May 21.-Who is Captain Ryman? I have been his guest for a day and a night. His beautiful home is on the heights. It

The mayor says it and averages a round trip in a week and so there is one to go and one to come every day. There is nothing strange or peculiar about that. The captain's office is near the wharf and I concluded to visit the outgoing steamer and see her outfit. Every thing aboard was lively. I noticed a sign over the cabin door and got ready to thow away my cigar, for l supposed the sign said so, but it didn't. It said "Trust in the Lord and Do Good."
