LOCAL.

Feed your cows on cotton seed hulls. Young Bros.

Why, how do you do? I thought you had a position in Washington. Quite a number of visiting lawyers were in the city last week, on official business.

Wilson has again settled down to its wonted easy going ways, the shake up of the holidays having about subsided.

Mrs. S. I. Griffin has sold out her millinery store to Mesdames Quarles & Manning. These ladies will continue the business in the store recently occupied by A. J. Lines. We bespeak for them a good trade.

Mr. W. C. Mayo is now engaged with his brother, J. L. Mayo, selling the genuine Singer Sewing Machine, which is the best machine that is now on the market. Will is a hustler, and will make the machines him for 1894.

Mr. J. L. Mayo has been promoted in the service of the Singer Manufacturing Co. He is now General Agent for this district, with headquarters in Wilson. He says that the machines must and will be sold in 1894 more than ever. Any energetic man desiring something to do in the line of selling machines at a very liberal salary can get employment by applying to him at this place. Office near corner of Nash and Tarboro streets.

Wanted, chickens, eggs and turkeys. Young Bros.

Wanted!

Information that will lead to the discovery of the whereabouts of William Henry Smith, a colored boy about 16 years old. He went to Wilson on Wednesday last week and has not since been heard from. Address, JOSEPH YARBOROUGH, Old Sparta, N. C.

For Sweet Charity's Sake.

The St. Agnes Guild will give a tea at the residence of Mrs. Brodie on Nash street, this evening, from 8 to 11 o'clock. Miss Brodie will be assisted in receiving by Miss Gregory, and other friends. The public are cordially invited and every effort will be made to entertain pleasantly all who are so good as to call. Music and refreshments as usual. The only charge 25 cents admission.

Who Will Use the Water Pipes.

We noticed last Wednesday that a plumber was repairing one of the street pumps on Broad street. Why not fill up all these wells and use the water from our water mains. Experts all agree that it is better to use as much water as possible. It prevents sediment from forming in the pipes and also keeps the water fresh and sweet.

After going to a great expense to put in water works why not use them.

Blessed are Those Who Expect Nothing.

Verily, they shall not be disappointed. One of our young friends received a sad shock last week. He had for some time been looked upon as the heir to a moderate fortune, and had come to look upon the inheritance as his own property, when lo! he is abruptly informed that his respected Aunt had changed her will and cut him off. Such is the constancy of women. Our young friend has our heart-felt sympathy.

Lookout for Imperfect Installation.

The wires over which the electric current for the arc lights passes was burned Sunday on Nash street near the bank. A partial ground caused a short circuit and the wire was quickly burned out and fell to the ground. Escapes occurred in a number of other places, where the wires came in contact with the wet limbs. All such places should be looked after and the installation made perfect.

Get the Railroad Shops.

We have it from headquarters that the railroad company would like to move their freight yards and shops from South Rocky Mount to Wilson. There are a number of reasons why they should desire this change. There are also numerous reasons why we should make every effort to induce the company to bring their plant to our town. Can't something be done? Wilson will never prosper until its citizens take on broader views. Let's make a move.

Humorous Entertainment.

The Ladies' Aid Society of the M. E. Church has struck the proper thing in securing the Druckenmiller family, who will give this town a humorous entertainment on Friday night, January 12th, at Mamona hall. The performance consists of vocal and instrumental music and comic character sketches. This noted family comes highly endorsed by the press, pulpit and public. There is no doubt that the capacity of the hall will be taken up. The price of admission is within the reach of all. Tickets can be had at Nadal's pharmacy.

A Very Live Tree.

The boys had quite a nice time the other night, notwithstanding the rain. They found a tree near Haakney's which was highly charged with electricity, caused by contact with a electric light wire. The fun was occasioned by the start of surprise that the victims gave when they placed their hands on the tree. The shock was strong enough to make your arm ache.

In the rush of the holidays we failed to make mention of the visit of our old friend, Col. H. G. Williams. The Colonel was looking as young and hearty as he did ten years ago. We are not surprised that he should resent being taken for "Baldy's" father.

Mr. J. R. Uzzell has opened a law office in Wilson. Mr. Uzzell formerly practiced in Kinston, where he did a large business and enjoyed the confidence of the entire community. Mr. Uzzell can be found during business hours at his office in the Wells building on Tarboro street, where he will be pleased to see his friends and the public generally.

Our clever young friend, Jas. W. Price, who has been under the employ of Jos. P. Stewart during the past year, has resigned his position and returned to his farm. We think there is a strong attraction near the farm for you, James, and wish you all success.

We learn that Mr. T. B. Garriss, who has so efficiently served us during the past few months as chief of police, will resign his office soon, and will accept a position with the Battleboro Lumber Co. Our citizens as well as our city forefathers, regret to lose him and wish him much success in his new undertakings.

Shooting Affair Saturday Night.

On Saturday night, about nine o'clock, the people in the vicinity of Corbett's Hotel were startled by the sound of fire arms. An investigation led to the discovery that Mr. Richardson Bissett had been wounded in the head by a ball from a pistol in the hands of Mr. Ben Nutall, superintendent of the Wilson Cotton Mills.

It seems that Mr. Nutall had been engaged in an altercation with a man named Steele, and afterward, meeting Bissett in the dark, mistook him for Steele and fired upon him. Fortunately the wound, though painful, is not considered dangerous.

A trial was held Monday morning before the Mayor, but owing to Mr. Green's position, as president of the Mills, the case was transferred to Judge Lancaster's court and a later day set for the trial.

At the Training Quarters.

JACKSONVILLE, Fla., Jan. 7.—This has been an off day in sporting circles. Most of the admirers of the pugilists went on excursions to Mayport and St. Augustine to see Corbett and Mitchell in their training quarters. They returned to-night, reporting that the pugilists were getting into prime condition.

A dispatch from St. Augustine says that Gov. Mitchell has notified Sheriff Perry, of that place, that information has been received at the executive department that an attempt will be made to bring Corbett and Mitchell together in St. John's county. The Governor in the most emphatic terms orders the sheriff to prevent the contest, should an attempt be made to bring it about in his jurisdiction. The sheriff, it is said, has answered the Governor that he will enforce the law.

It is said that Solicitor Christie and Sheriff Broward, of Duval county, will meet the Governor this week and that at the meeting measures will be taken to prevent the fight taking place in Jacksonville or in Florida. In spite of this action on the part of the Governor, however, the club still expresses confidence that the fight will occur on time and in Florida, too. What grounds the club people have for their confidence are not known, but the general impression is that arrangements are being perfected with the railroads to bring the men together in a secret place.

Opinion of Peter the Great.

CANTON, Ohio, Jan. 4.—Peter Jackson says his money will go on Corbett if the bout with Mitchell comes off. Jackson says the modern style of fighting is to hit and run away or dodge and then hit, and was too much for Sullivan in his fight with Corbett because Corbett was too quick for Sully. Corbett has doubtless improved in swiftness, science, and strength. Still I am anxious to meet him. I can't say that I can whip him; but I can say the country will know there has been a fight.
