THE INDIAN TROUBLES. The Bunker Hill Mining District Excited

Over the Possible Bloodshed. PARIS, February 3.-A special to The Herald from Tucson, Ariz., says: The stage which arrived here last night from Mammoth brought additional advices regarding the Indian troubles in the Bunker Hill mining district. The evening bentween Hualpi Clark and a small band of Apaches, under the leadership of the renegade "Kid," resulted in the death of a squaw and possibly one of the warriors.

Mr. Clark, who left McKinney's ranch late last Wednesday night with a number of cowboys for the scene of the battle, which occurred that evening about dark, was seen near Mammoth early Saturday morning by the passengers on the stage. He told them that when he and the cowboys visited the place where the fight took place they found one dead squaw; that she was not over 30 years old and exceptionally good looking. On her person was a belt, knife, scabbard and a leather wonch full of many curiosities, among them feathers of Mexican birds, mak-

ng it apparent that she was the renegade Kid's squaw, and that they had just returned from Sorona. Mr. Clark took all of these articles

from the squaw, including a lock of her hair, which will make what he considers a valuable addition to his large collection of Indian scalps, tomahawks, etc.

A company of cavalry ofrom Fort Grant will be in Bunker Hill district in a day or two. A large number of cattlemen and miners are now in pursuit of the ludians, and a battle is likely to occur before many days.

NEW YORK, February 6 .- The Ham burg line stramship Taormina, Captain Koch, arrived yesterday from Hamtwenty-two days. She encountered two severe hurricanes in the gulf stream, in one of which her main mast was snapped off close to the deck. The Taorinina brought 133 steerage passen-gers. In the carly part of the voyage the weather was fair. When near Sable island, in latitude 40.50 and longitude 59.40, she encountered a hurricane from the southeast. The hurricane ecutiavel neary forty-eight hours. At 7 o'clock, on the morning of the 31st ult., a big sea broke on the deck, and the man at the wheel lost control of the vessel. The bolts in the main boom were loosened and the boom, threshing about, struck life boat No. 8 on the starboard side and knocked it overboard. Afterward the boom, swinging with the roll of the ship, carried away the Lee rigging of the main-mast and the mast, losing its braces snappep off and went overboard.
