REGULAR DEMOCRATIC TICKET.

FOR SHERIFF,

JONAS W. CROWELL.

FOR CLERK SUPERIOR COURT,
JEFFERSON D. BARDIN.

FOR REGISTER OF DEEDS,
SPENCER M. WARREN.

FOR TREASURER,
WILLIAM T. FARMER.

FOR CORONER,
CHARLES E. MOORE.

FOR SENATE,
GEORGE W. BLOUNT.

FOR HOUSE REPRESENTATIVES,
JONATHAN TOMLINSON.

FOR CONGRESS,
F. A. WOODARD.

FOR SOLICITOR,
JNO. E. WOODARD.

WHAT fault can anyone find with the Democratic members of the Supreme Court? They have been fair, impartial, and just in their rulings, and have made a model court. Why not retain them? Will Faircloth make a better Chief Justice than Shepherd? Will Furches make a better judge than Burwell? Consider well before you vote.

WE acknowledge receipt of an invitation to attend the 32nd annual fair of the Cumberland county Agricultural society. The fair is to be held at Fayetteville on November 14-16. Our thanks are due Mr. G. W. Lawrence, Secretary, for the compliment. It is an old institution and will doubtless get up a good exhibit this year.

NEARLY three weeks of campaign work remains to be done. Let those three weeks be passed with sledge hammer blows by the Democratic speakers. Reduce the campaign to State politics, and stand squarely upon the Raleigh platform. That silver plank can save the State by itself if the people are told about it. Sound the trumpet and let the silver ring.

ANY MAN who is attempting to straddle the silver plank in the Raleigh platform should be relieved of his service in the interest of the Democratic party and sent home to meditate upon the silver question. We want no campaigner to be gadding about the State talking about riots in Chicago, and ignoring the currency question altogether. Such men are not only not doing any good but they are doing harm. Call them in.

MUCH-A-DO is being made by certain Democratic papers to get Capt. Kitchin to come back to the party that he served so long and which he has so recently left. We think that is all wrong. Of course we all want the Captain to come back, but we should not tell him so, because just as soon as he finds out that the Democrats want him to come back just as sure will he go the other way. Kitchin must be ignored in order to be degraded.

CAPT. KITCHIN has been campaigning the State now for about four months, but no one, if the papers tell the truth, has been able to get at the point of the Captain's talk. He says that so far as the State affairs are concerned, there is no fault to find with the Democrats. He does not advise any one to vote the Populist-Republican ticket, but says that he is discussing principles and not advising anybody how to vote. He is magnanimous to the people. He wishes them to be untrammelled in their freedom. In other words, he just wishes to convert them and let them join any church they choose.

SOME months ago we had an editorial on the subject "Turn Loose the Cents." Last week we saw the editorial copied in one of our best exchanges, but credited to another paper. We are inclined to think that that other paper used the article without credit in the first instance and so led the former into error. We were led into error that way ourselves last week by giving credit to one paper which should have been given to another. The flicking of matter is getting to be common and it should be broken up.

WHAT is the secret of Jarvis' success as a campaigner? It is because he is standing upon the Raleigh platform and does not fear to discuss the currency question. He discusses the tariff, it is true, but the silver question receives its share of attention. There are other Democratic speakers in the field, who do not even touch upon that question. They are cowardly, and should be dismissed from service by the Democratic executive committee. They should not be allowed to thus toy with Democratic principles.

SENATOR JARVIS has been in the West making Democratic speeches for the last month. He does not fear to discuss any part of the Raleigh platform. He stands squarely upon that document, silver and all. He is not bushwhacking on any part of it. He is discussing the silver question as much as he is discussing the tariff question. He is making the Republicans and Populists run to cover all along the line. Let the other speakers stand upon the silver plank and sound the silver horn also, and they will accomplish more.

WHAT HATH THE PARTY DONE?

Many are asking themselves some important questions just now. Some men, who have affiliated with the People's Party, are now seriously considering the question of party fidelity. They are honest men, and they want an honest reason for standing by the party of their choice.

There is a very important question uppermost in the minds of all. It is this: What has the Democratic party done? That is a pertinent question, and one that is eminently just. Every man has a perfect right to ask it, and all have the same right to an answer.

We propose to mention one thing that the party has done since it came into power. Eighteen years ago the great Zeb Vance was elected Governor of North Carolina. The Democrats carried the legislature the same year. Since that time the Old North State has remained Democratic.

What has the party done in these eighteen years? Men who have had their eyes open during these years can answer that question by giving a variety of things done. There is no need of telling how our courts have been purged of unjust judges and property and life rendered secure by wholesome Democratic legislation. There is no need of referring to the four hundred per cent. reduction in taxation that has been brought about by Democratic measures. That has already been referred to in these columns. There is no need of telling how Republican extravagance has given place to Democratic economy. That is an old song that even the children have learned to sing.

It is not necessary to tell how Republican tricks and frauds have been exposed by Democratic detectives. All of those things have been known and read by the many. It is not needful to dwell upon them, because they are admitted as facts.

There is one thing, however, that we wish to call attention to now, one thing that the party has done that deserves to rank as one of the great things of Democratic policy. That is the country government system.

Soon after the war the negro population was the most numerous in nearly all of the eastern countries. They had been recently slaves and of course were ignorant of government. They had the right to vote however, and exercised that right. They elected magistrates of their own color and ignorance. They elected commissioners the same way. The affairs of the counties passed into the hands of incompetent persons. They wasted the finance of the counties. They mismanaged the affairs, and piled up debts upon the county governments until the people of those counties in their agony cried out, "save us from the ignorant majority, save our people from themselves."

The Democratic party heard that cry. They adopted it as their slogan and great was the victory won.

The government of the counties was taken from the hands of incompetent managers and placed in those of intelligence and honesty. No man can say that the county government system has been a mistake. No man can say that Democrats have managed the county government badly. It has had a clean record.

Then what has the party done? There is no objection to the answer. Let it be answered from the hill tops and let the welkin ring with its melody.

OUR STATE TICKET.

What concerns North Carolinians more closely than anything else this year is the election right here in this State. We are, or should be, more interested in the election of good men to sit upon our Supreme court bench and Superior court benches than anything else. There is hardly a matter to come up for our consideration more important than that.

Good men are now upon these benches. Good men are now candidates for these positions. It is eminently desirable that good men should be elected to those places. The courts of North Carolina are noted for their uprightness. They were not always thus. In the days that are gone there were corrupt men upon the bench. Drunkards were known to be holding the balances. Libertines were on the bench to render decision upon questions of chastity. Bribe takers were there to decide questions of honesty or dishonesty. Immoral men were there to decide questions of morals.

Happily, however, those days have passed. The old State has been rescued from the clutches of those who degraded her courts and disgraced her records. Honest men, sober men, and moral men have been placed in those high places of honor to dispense justice to our people. For twenty years the Democrats have supplied the men for those posts of duty. Every man now upon the bench in North Carolina is a Democrat. They have filled those places with honor and dignity. No man can point out a flaw in the judicial character of Shepherd, or Clarke, or Burwell, or McKae. They are eminently qualified for the positions for which they are now candidates.

Every man that has been nominated by the Democrats either for the Supreme court or Superior court will fill the office with honor. They are men of acute legal learning and judicial minds. They are men of high character and incorruptible qualities. They are men who have made model judges and will continue to hold the balances of justice with steady hands.

Do North Carolinians desire to do the things that are done in other States? Do they desire to have their courts characterized by fairness and impartiality and want to return to the days of drunken and debauched tribunals? Beware then of trifling with this matter.

The matter presents itself thus: We have a pure judiciary. We have tried it and found it good. Is it safe to cast off the pure for one that is not pure? Is it safe to turn down one that we know is upright and put in one that, to say the least, is suspicious? We think not. North Carolinians love justice. They love and honor the upright judge. They will cling to a bench that is pure. For that reason we believe the ticket headed by the incorruptible Shepherd will triumph.

BOLD TRAIN ROBBERY.

Last Friday night the North bound mail was held up by seven masked men near Quantico Va., and robbed of a large amount of money, variously estimated from fifty thousand to two hundred thousand dollars. It seems that the train was going at full speed when two men suddenly scrambled over the tender into the cab and, with leveled pistols, ordered the engineer and fireman to stop the train which they did. Other men then blew open the express car and robbed the express packages of all the valuables.

The conductor was very brave and wanted to go out and offer battle to the ruffians, but he had no arms and the passengers would not allow him to go. He asked for a pistol and succeeded in finding one small one. With that he stationed himself at the door and ordered all the male passengers to draw their knives. Some complied, but others were dodging behind their seats. The robbers did not attack the passenger coach.

As soon as the robbers had secured their booty, they boarded the engine, cut it loose from the train, and flew up the road. They perhaps left the engine soon after starting, and then opened the throttle and let the engine go it wild up the road. An agent at one of the stations by which the wild engine passed telegraphed to Quantico to look out for a wild engine. The switch was changed and the engine dashed into the freight yard and ran itself to the ground. It was frightfully battered up.

The robbers escaped to the Maryland side of the Potomac with their booty. Gov. O'Ferrell has offered a large reward for their apprehension. It was one of the boldest robberies ever committed in the Southern States, and has produced much excitement in railroad circles. It has aroused the railroads to discuss the question of safety from such attacks, and it may result in having a complete police force on all trains.

Jew is the Proper Title.

We are not Hebrews. Hebrew was the language spoken by our ancestors when they lived in Palestine. They were then a race whose mother language was Hebrew, and as Hebrew speaking people it was certainly proper to refer to them as Hebrews. Hebrew refers to a language which we do not speak, Israel to a nation which we no longer form, and Jew to a religion to which we belong. Therefore, we are not Hebrews, we are an English or German speaking people, or whatever happens to be the language of the country in which we live. We are not 'Israelites, but Americans, Germans etc., proud of citizenship in our country and law-abiding and law-reverencing. We are Jews as a religious community, proud of the history of the Jewish people, but with no desire to ever again form a separate nation or speak a language different from that of the people in whose midst we live, and of whom we form a component part.

Disease Threatens to Cut Short a Noble Career
But Hood's Sarsaparilla Restores Good Health.

Little May Bentley is an accomplished ecologist and natural born speaker of only 12 years of age. She is the only child temperance lecturer before the public. Her genius, however, did not exempt her from an attack of a disease of the blood. Her own words best tell the story: "C. I. Hood & Co., Lowell, Mass.:

"I heartily join with the many thousands that are recommending Hood's Sarsaparilla. I had been troubled from infancy with gathering in the head. I was compelled to leave school upon the doctor's advice. In thought it was the only thing to save my life, but I

Continued to Grow Worse.

I was persuaded finally by a friend to try Hood's Sarsaparilla. The use of one bottle acted effectively upon the blood and I began to improve.

After the use of three bottles the gathering ceased and I am cured of my former trouble. I owe my life and will always remain a true friend to Hood's Sarsaparilla." LITTLE MAY BENTLEY, Shelbyville, Indiana. Get HOOD'S.
