A NEW SWINDLE

which the people of the South are presenting, is the efforts of some to sell them imitations for the real Simmons Liver Regulator, because they make more money by the imitation; and they care little that they swindle the people in selling them an inferior article. It's the money they are after, and the people can look out for themselves. Now this is just what the people are doing, and merchants are having a hard time trying to get people to take the stuff they offer them in place of Simmons Liver Regulator—which is the "King of Liver Medicines," because it never fails to give relief in all liver troubles. Be sure that you get Simmons Liver Regulator. You know it by the same old stamp of the Red Z on the package. It has never failed you, and never failed anyone else. It has been prescribed to take something else have always come back again to The Old Friend. Better not take anything else but that made by J. H. ZEILIN & Co., Philadelphia.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds, Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held when it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 bottles for sale by E. M. Nadeau.

Hogan—There are two black eyes for you, Hogan.

Hogan—You ought to see the other fellow.

Hogan—How does he look?

Hogan—Oh, damn. I can't see him.—N. Y. Herald.

"S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve and his leg is sound and well. John Spunker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him entirely. Sold by Hargrave.

"Are you doing anything for that cold?" asked Kayser.

And Shyne handed him a card inscribed as follows: "I'm taking the advice of every blamed fool that comes along with a remedy. What's yours?"—Tribune.

D. W. Fuller, of Cambridge, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best relief for their ailments. He would not be without it. It is procurable at A. P. Young's Drug Store, Catkill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy that he has used in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at Hargrave's drug store. Regular size 50c and \$1.

"We would urge every one to read the advertisement of Simmons Regulator. We have never before said one word in favor of any patent medicine advertisement in our columns, but having given Simmons Liver Regulator a fair trial, we do not hesitate to say that for despatch and general debility it cannot be excelled."—Fred M. IN NORTH CAROLINA IT IS SIMPLY A RUSE MUST OBEY THE LAW

Her Natural Advantages Strike the New Englanders.

MASSACHUSETTS' LAW MAKERS HERE.

A Virginia Hospital Committee Praises the Movement of the State A Year.

A New Englander Inspects Granite Quarries.

RALEIGH, N. C., March 15.—The committee on mercantile affairs of the Massachusetts legislature arrived in the city today. The committee consisted of Senator F. W. Dering, chairman; Senator Isaac P. Hutchinson, Representative Charles G. Bancroft, George M. Eddy, E. M. Moriarty, Frank Chandler, W. J. Donovan, R. T. Trimah, and Deputy Sergeant-at-Arms William Widing.

Representative R. T. Trimah is a colored man. He was taken possession of by prominent colored people and besides visiting factories he visited churches, schools and other institutions for colored people.

Much legislation is proposed before the Massachusetts legislature which manufacturers charge is inimical to the interests of the South. It is also claimed that conditions and laws are so favorable to the South to Massachusetts that unless the laws of the New England states foster manufacturers more, all the mills will move to the South where natural advantages and laws are more favorable.

The committee has been sent south to examine into the conditions and laws. The examination so far has developed the fact that while the many advantages of the South are well known to the committee, it was found that the mill owners of the South are working hard and trying to compete with the mills of the North. Cotton is cheaper than in New England, the climate is milder, living is better and cheaper and there are other and less important advantages.

The committee visited in Charlotte yesterday eight cotton mills, two cotton-seed oil mills, one trower factory and other smaller enterprises. The members of the committee express themselves as being well impressed with what they saw south.

There is gratification for North Carolinians in the following newspaper extracts, which explain themselves: "The committee of the Southwest Virginia State hospital, composed of Dr. R. A. Preston, president of the board of trustees, and directors have returned from their visit to the hospitals of the South, with a view of adopting them in our institution. In the hospitals visited, Tascumb, Ala., Millbrook, Ga., Columbia, S. C., and Morganton, N. C., the committee found the hospitals of the South to be of the highest character, and the committee were of the opinion that North Carolina's hospitals at Morganton surpassed any in the South in the character of the buildings, the splendid equipment and faultless management of its excellent superintendent.

The other members of the Wytheville, Va., hospital.

Dr. R. A. Preston and four members of the board of directors of the Southwestern Lunatic Asylum, at Morganton, have returned from a tour of observation throughout the Southern States, where they sought suggestions of practical value in the work, management and organization of the hospitals. The committee considered the Morganton, N. C., asylum the model institution for the insane in the South.

CHARLOTTE, N. C., March 16.—Mr. C. H. More is vice president of the New England Granite Manufacturers' association. He was at the Central hotel looking up the granite interest. He intends to buy and develop a quarry if he can get the right sort of property at the right price. Mr. More said: "I don't think there can be any money in quarrying granite as it seems to be done in the South. If I buy any property I will put in good machinery for quarrying purposes, and will also put a plant to make a finished product. The most money is in working stone, not in quarrying it, but to work it to advantage requires a considerable plant of improved machinery and I have not seen one anywhere in the South." Mr. More went last night to Atlanta. He will then visit Athens, Ga., and after that he will take his wife to Florida.

NORTH CAROLINA LEGISLATURE ADJOURNED.

RALEIGH, N. C., March 15.—The session of the North Carolina legislature adjourned last night at 11 o'clock. Very little business was transacted since Tuesday night's high handed proceedings, as many members left for their homes yesterday and a quorum could not be obtained. The session has been a stormy one and will be remembered for many reasons. It is already known all over the state as the "Douglas Legislature" and there is a general rejoicing here that it has adjourned.

NEW ORLEANS, March 16.—The work of loading the Harrison life steamer Engineer at the head of St. Ann street, the scene of Tuesday's riot, and the steamer Canaries, at the head of St. Andrew street, two miles further up the river, was begun at 1 o'clock yesterday afternoon under the protection of the militia and police. No trouble has occurred and none is expected. Negroes are doing the work.

WILSON, N. C., March 15.—The Wisconsin dealers here Saturday signed an agreement refusing to recognize the advance in spirits ordered by the trust and will continue to quote at \$1.25.

The Running Up of Valco in the Cotton Market.

SO SAYS COMMISSIONER HECTOR LAPE.

It is Not a Ruse to Induce Farmers to Plant More of the White Staple Than Intended—He Warns Them of the Conspiracy.

ATLANTA, March 15.—Hon. Hector D. Lape, commissioner of agriculture of Alabama and president of the American Cotton Growers Protective association, addresses today a communication to the cotton growers of the South in which he warns them against what he calls the strategic movement being made by certain parties to induce them into the suicidal act of planting again a large crop of cotton.

He says that unbusiness has been felt in Liverpool for some time concerning a probably dishonest average and had this menace not existed cotton would have been even lower than it has been, and now as the end of the season is at hand and the staple is substantially out of the hands of the farmer, these gentlemen who have represented the "bear" element so many months while cotton was moving in large volumes, now resort to this ruse of running values up simply as a device to induce farmers to plant more cotton than intended.

He warns the farmer that the rise in cotton of the last few days is fictitious and that it is the product of a conspiracy to systematically rob the producer of his legitimate gains.

Continuing he says: "Let the people beware. It is a bait to catch those who will bite. There is no legitimate reason shown for this sudden rise in cotton values. The production has exceeded the demand and the market in Russia has placed a virtually prohibitive duty on American cotton, so we can no longer sell our 500,000 bales."

He says that those who are actually engaged in the work of producing, exporting and selling cotton should not be lulled by the fact that the year round "and what is to be the fate of this man who his cotton goes down one or one and a half cents this fall?" Not a cent. He says that the only way to recognize the condition that confronts us is to invite consideration of the fact that we had a most phenomenal season for picking our crop this last season and its classification was high, and we know it. He says that the yield was low, which averaged less than five cents.

"I invoke," he concludes, "the most earnest attention of cotton growers to this serious situation and address you in this letter in the event that you may not be deluded by this wolf in sheep's clothing, or in other words, this 'bear' in 'bull's' clothing."

The Walsenburg Lynchers Will Be Brought to Justice.

GOVERNOR McINTYRE ACTS PROMPTLY.

Acting Consul Dr. Cuneo, of the Italian Government, Says That His Country Will Act With Great Consideration and Not Hastily.

WALSBURG, Col., March 15.—Dr. Cuneo, acting consul for the Italian government, has been here since Thursday morning and forwarding to the Italian ambassador at Washington, reports and testimony in connection with the tragedy enacted here the past week in which three of his countrymen were brutally murdered and two are missing. The principal witnesses have been sent to Washington, but the acting consul will remain here a few days longer. He states that there will be no reprisals displayed in the affair and that his government will go slowly. He has no communication with his own countrymen and refuses to see them when they call, saying that he only recognizes and will communicate with the proper authorities. He condemns the exaggerated reports sent out concerning the people of Walsenburg. Nothing has yet been found of Antonio Cobatto or Pietro Giacobino, the two killed at Bear Creek. Lorenzo Donato, Francesco Rethko and Stanislaus Yrte were buried yesterday afternoon. Joe Weby was buried Saturday afternoon.

Governor McIntyre last evening received the following telegram: "Let the people beware. It is a bait to catch those who will bite. There is no legitimate reason shown for this sudden rise in cotton values. The production has exceeded the demand and the market in Russia has placed a virtually prohibitive duty on American cotton, so we can no longer sell our 500,000 bales."

RETURNED TO THE OWNER.

The Seized Schooner Carolina, at Charleston, Is Given Liberty.

CHARLESTON, S. C., March 16.—United States Marshal Bradley yesterday decided the admiralty case arising out of the seizure by the State constables of the schooner Carolina, which arrived here on October 20th, with a cargo of contraband whiskey. The suit was brought by the owner to recover possession, and the court directed that he be given possession.

The court finds that section 38 of the dispensary law, under which the schooner was seized, is unconstitutional and void, in so far as it applies to this case.

GEN. HARRISON IMPROVING.

So Far Recovered as to Be Able to Sit Up, But Not to Walk.

INDIANAPOLIS, Ind., March 15.—Ex-President Harrison has so far recovered as to sit up. His improvement has been steady ever since his daughter and his grandchildren arrived at his home. Yesterday was the birthday of baby McKee, and during his confinement the general made extensive preparations for the event. A host of children from the neighborhood were present. Gen. Harrison is not yet allowed to work by his physicians, and the big will at Richmond is proceeding without him.

DAMAGING TO NEW ORLEANS.

The Labor Troubles Have Had Effect Upon the Commerce of the Crescent City.

NEW ORLEANS, La., March 16.—One of the evil effects of the labor disturbance is having on the labor market. This city was shown yesterday when it was rumored that when the steamship Niagara finishes unloading, she will not remain at this port to take on her cargo of cotton, but will go to Galveston for it. Upon investigation the report was affirmed, and the labor troubles were cited as the cause.

BRITISH BOOTMAKERS STRIKE.

LONDON, Eng., March 15.—The strike of bootmakers has extended, until there are 200,000 idle. It affects all factories in England, except in Stafford, Norwich and Bristol. Some London trades unions are granting ten shillings a week to the strikers. The employers declare they have enormous stocks yet unsold, but they are preparing to employ American machinery.

TEXAS CATTLEMEN IN SESSION.

SPANISH REPLIES TO GRESHAM.

The Spanish Government Will Investigate the Alliance Affair Thoroughly.

WASHINGTON, March 15.—Spain has replied to Secretary Gresham's demand. A dispatch was received last night that so far as it goes, is entirely satisfactory to the United States. It is a response to the last part of Secretary Gresham's dispatch in which he insists that immediate and positive orders be given the Spanish naval commanders not to interfere with the legitimate American commerce passing through the windward channel, and prohibiting all unwarrantably impeding life and property lawfully under the flag of the United States.

That part of the dispatch which refers to the firing upon the Albatross is reserved for future reply, after an investigation by Spain into the circumstances that surrounded it.

There is no doubt in the minds of the dispatching secretary of state that this will receive "prompt discussion" as an unauthorized act, and that a "due expression of regret on the part of Spain" will be forthcoming.

Secretary Gresham communicated the substance of Spain's response to the president as soon as it was translated, but he was unwilling to give it out for publication.

It is understood, however, that the dispatch conveyed the information that orders had been issued to the commanders of the Spanish man-of-war in Cuban waters not to interfere with legitimate American commerce, and to use every effort to avoid international complications by an exercise of undue zeal.

FIRE'S DESTRUCTIVE WORK.

The A. N. Kellogg Newspaper Co.'s Office at Cleveland, Is Burned.

CLEVELAND, O., March 15.—The newspaper building on Ontario street occupied by the World, the A. N. Kellogg Newspaper Company and the office of the United Press, was completely destroyed by fire last evening. The fire started at 6 o'clock. The total loss was about \$150,000. It is thought that the fire started through the carelessness of a porter. The World sustains a loss of about \$75,000; the property here insured by the A. N. Kellogg Newspaper Company's loss is about \$25,000, and the building was valued at about \$50,000. B. F. Flower, the manager of the World, opened an emergency office in the Arcade building. R. E. Payne, the editor of the Press and the World in the afternoon field, tendered the use of the Press plant to the World company. Mr. Flower says the World will be published as usual Monday.
