THE UNION MARKET STORE,

Nash and Goldsboro Streets.

STOCK AND PRODUCE MARKETS.

Closing Quotations of the New York and Philadelphia Exchanges.

NEW YORK, Sept. 13.—The eccentricity movement which has nearly all of the week characterized the speculation in Wall street was again conspicuous today. The volume of the transactions in stocks exceeded the record of the previous day by 100,000 shares, and the distribution of the business was excellent. Closing bids:

To Meet Next in St. Paul.

LOUISVILLE, Sept. 13.—The thirtieth national encampment of the Grand Army of the Republic will be held in St. Paul in 1896, with Colonel I. N. Walker, of Indianapolis, as commander-in-chief. In the contest for senior vice commander General E. H. Hobson, of Kentucky, was elected. C. E. Cosgrove, of Washington, was elected vice commander.

Sacrificed a Peerage.

LONDON, Sept. 16.—Sir Edward Malet, the retiring ambassador to Germany, has declined a peerage because his wife would lose rank by his elevation. The wife of this diplomat now takes precedence of a countess and by virtue of being the daughter of a duke (Bedford), but if her husband should become a peer she would rank only as his wife.

ROBERT J.'S VICTORY.

The Great Son of Hartford Establishes a New Record.

LOUISVILLE, Sept. 13.—Not only the grand stand, but the standing room capacity of the Louisville Driving Fair association was taxed yesterday afternoon. A fast track and a bright sunshine favored the great pacing race which Robert J., John R. Gentry and Joe Patchen were to battle for supremacy.

At 2:30 o'clock, when the three horses scored for the opening heat, it is estimated nearly 10,000 people were on the grounds. Robert J., the great son of Hartford, came off victorious; but for the fact that Joe Patchen went into the air when within forty yards of the wire in the fourth heat there might have been another ending. Robert J., however, was as steady as a clock, and not once during the four heats did he go off his feet.

The fourth heat, which was paced in 2:04 1/2, establishes a new record, being the first fourth heat ever trotted by any horse in that time. There were seven races on the program, but it was necessary to carry both the 2:11 and 2:16 trots over until today, while the 2:24 trot was not reached. Navaradine died as a result of Wednesday's seven heats in the 2:17 trot, which was not decided. She was valued at \$2,500 and owned by J. Swathen, Jr., of Lynn, Ky.

Holmes Again Indicted.

PHILADELPHIA, Sept. 13.—H. H. Holmes, the murderer and insurance swindler, was indicted yesterday by the grand jury for the murder of F. F. Pitzel, whose mysterious death occurred here a year ago, and the subsequent collection of \$10,000 insurance on his life by Holmes led to the unveiling of the latter's remarkable criminal record. Indictments for murder have also been brought against Holmes in Toronto and Indianapolis, and proceedings are pending in Chicago.

New York Clubmen Go Dry.

NEW YORK, Sept. 13.—For the first time in the history of New York a drink could not be had at the bar of most of the principal clubs of this city yesterday. The action of President Roosevelt, and the police commissioners in deciding to stop, as far as they were able, the sale of intoxicating drinks in the clubs, in violation of the law, met with general success, as most of them through their board of governors instructed the employes not to open the bars.

Both Constable and Prisoner Dead.

SAN DIEGO, Cal., Sept. 16.—News has just been received that the posse which has been in pursuit of Isidore Renteria, who shot Ramon Ariza near San Luis Rey a few days ago, overtook the fugitive near Legrande, fifty miles northeast of this city, and a bloody encounter ensued, in which Renteria shot and killed a Mexican constable and was himself killed by Constable Ben Herbert, of Ocean Side, who was in charge of the posse.

CHOLERA IN HONOLULU. MEN BLOWN TO PIECES.

A Seaman on the Bennington a Victim of the Scourge

THIRTY-FIVE DEATHS REPORTED.

An Appropriation of \$10,000 Made to Stamp Out the Disease—Ex-Queen Lilloukalan and Other Political Offenders Pardoned.

SAN FRANCISCO, Sept. 13.—The steamer Australia arrived yesterday from Honolulu, bringing the following advices to the Associated Press:

HONOLULU, Sept. 5.—Forty one cases of cholera have been reported to date, with thirty-five deaths. The disease attacks only the natives. Every effort is being made to stamp it out. No island steamers are allowed to leave port without first remaining in quarantine for five days. Passengers must undergo the same ordeal.

The cholera, according to the general theory, was brought to Honolulu by the steamer Belgic, which arrived on the 9th of August with 536 Chinese immigrants on board. The vessel had a clean bill of health, but, following the custom, the Chinese were placed in quarantine. On the 18th of August it was learned that three of the immigrants had died, two from bowel complaint and the other from exhaustion. Physicians made a careful examination of the first cases, and declared that it was not cholera. More cases broke out soon, however. By this time the disease was declared to be genuine Asiatic cholera.

Up to Aug. 23 five cases of cholera had developed at Honolulu, with four deaths. On the evening of the 24th another case was reported. For five days there were no cases reported and people became easier, believing that the disease had been stamped out. But it was only a respite. On the 30th nine cases were reported, five of which proved fatal. One of the unfortunates was a seaman on the Bennington, named W. H. Goedel. He was taken ill while on board the vessel, and lived but a short time. He had bathed in the harbor and it is thought contracted the disease in this manner. On the following two days four cases were reported, and on the third seven cases developed.

With the exception of the Bennington sailor the scourge has attacked only natives, the chief difficulty in dealing with the cholera here being the ignorance and unclean habits of the natives and Chinese. The natives, of course, have no conception of the nature of the disease, its origin or the proper treatment of it. In this, as in all other respects, they are mere children and must be treated accordingly.

The physicians are gradually locating the germ centers, but new cases arise in unexpected quarters, and there has not been a sufficient number of facts to enable any safe generalization to be made.

The council of state held a meeting yesterday afternoon and evening, and after appropriating \$10,000 for the expenses incurred by the board of health, the matter of pardoning political prisoners came up for consideration. The executive recommended that Carl Widemann, the four Lane boys, Julius Kaao, Joe Widdlefield and thirty-nine others be pardoned. The council adopted the recommendation.

At the same meeting ex-Queen Lilloukalan was pardoned also, and the others will be liberated as soon as the pardons are made out.

The Cup Remains Here.

NEW YORK, Sept. 13.—The international series between Defender and Valkyrie for the America's cup is ended. The Defender won in a clean race on Saturday, on Tuesday last she crossed the line behind the English boat, but was awarded the race on a foul, and yesterday she had a walkover. Lord Dunraven had said Wednesday, and he said it most emphatically, that he would withdraw his boat on the morrow if an absolutely clear course was not provided. He claimed that during the previous race his boat had been greatly interfered with, and as everything depended upon the outcome of the third of the series he adhered to that decision so closely that Valkyrie merely crossed the starting line and then retired from the contest. By her three straight victories, Defender retains the historic cup for America.

Probably Fatally Shot by a Constable.

WILKESBARRE, Pa., Sept. 16.—Michael Dapsiges and John Bynae, two Polanders, of Edwardsville, were probably fatally shot at an early hour yesterday morning by Constable Wolf. Accompanied by another constable named Michael Judge he got into an altercation with the Polanders, when Wolf pulled out his revolver and fired six shots into the crowd. Dapsiges was shot in the neck and Bynae in the abdomen. Warrants were issued for the constables. Judge was taken into custody, but Wolf has not yet been found.

Captain Sumner's Sentence.

WASHINGTON, Sept. 14.—Secretary Herbert has announced the action taken in the case of Captain George W. Sumner, United States navy, recently tried by court martial for the careless docking of the cruiser Columbia at Southampton, England. Captain Sumner is suspended from duty for six months and given waiting orders pay during that period.

Bodies Taken from the Mine.

CALUMET, Mich., Sept. 13.—Shaft No. 4 of the Osceola mine was entered yesterday and the bodies of twenty-five of the miners who were imprisoned in the burning mine have been recovered. Five are yet missing.

Louisville Soldiers Killed by the Explosion of a Caisson.

SIX DEAD AND SEVERAL INJURED.

The Accident Occurred in the Residence Portion of the City, and the Victims Were Members of a Local Artillery Company—A Grand Stand Falls.

LOUISVILLE, Sept. 12.—A horrible accident, in the death of six and the wounding of several members of the Louisville Legion, occurred by the explosion of a caisson. The accident took place on Broadway between Third and Fourth streets, where the First Kentucky artillery were stationed for the purpose of firing a salute.

Two of the bodies were blown over the house tops, and were horribly mangled. The wounded have been removed to the hospitals. Two horses attached to the cannon were so horribly mangled that they will be put to death. All the killed were members of the First Kentucky artillery, of Louisville, which has always been considered the finest in the state.

Those killed are: Corporal Al Robinson, Privates Charles Oestrich, Charles Wood, Howard Irwin, McBride, Hutchins, and the driver, William Adams, colored.

The place where the accident occurred is one of the finest resident districts in the city. Fortunately, few people were on the street or the list of killed and injured would have undoubtedly been greatly increased. Every window in the block was blown out.

The body of the colored driver, mangled almost beyond recognition, fell on the front porch of a residence, fully 300 feet from the place where the explosion occurred. Just outside the fence and on the sidewalk was the body of Private Woods. Bits of flesh and pieces of bloody uniform were scattered all along the street, clinging to the tree tops and in the shattered windows. A leg and half a coat were found on Third street, one block south of where the explosion took place. They must have been blown clear over a three story and basement house. Several mangled legs and arms were found on the tops of adjacent houses.

It is believed that the body of Private Hutchins was blown to pieces, as it has not yet been found. The body of Howard Irwin was so badly mangled that it was almost impossible to gather it up without a shovel. It was found at the intersection of Broadway and Fourth streets, nearly a block away.

It is doubtful if anything ever occurred in this region that has caused such widespread sorrow. The regiment to which the young men belonged is made up of the pick and flower of Louisville. Many of them are society leaders and of wealthy families. Captain David Castleman, who was in charge, was riding at the side of the detail. He escaped injury.

The battery was on its way to Phoenix hill for the purpose of firing a salute of forty-four guns. There were sixty-six pounds of powder in the caisson.

THE GRAND STAND FELL.

Many Injured While Witnessing a Pyrotechnic Display at Louisville.

LOUISVILLE, Sept. 13.—While 100,000 persons were watching Paine's fireworks display along the river front at 10 o'clock last night a portion of the grand stand on which were seated at least 10,000 people gave way and many were injured. No fatalities are reported.

The grand stand which fell was about 400 feet long and sixty feet wide. It was the lower part and only elevated about two feet. Immediately beyond this part, on an elevation of eight to ten feet, there were 50,000. That no one was killed is one of the marvels. The platform on which the seats were placed swerved to the rear and then settled to the ground with a crash. As it careened, the planks of which the seats were made were forced together and the feet and legs of hundreds of the spectators were caught, as in a huge trap.

A number of G. A. R. veterans who were witnesses of the accident said they aided a large number of people who had been bruised and injured about the legs to carriages and sent them to hotels or their homes. They did not stop in the excitement to get their names.

Killed by a Pin.

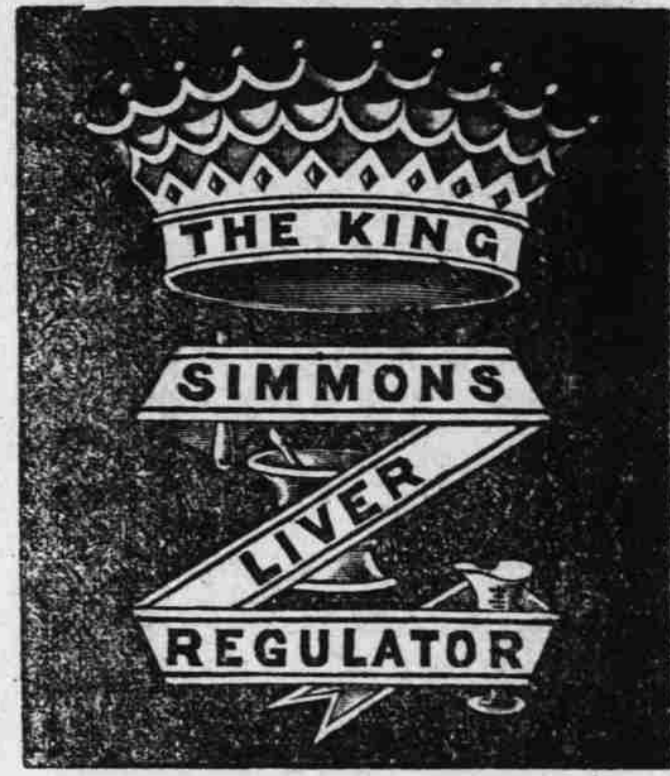

NEW YORK, Sept. 16.—Coroner's Physician Donlin made his report on the autopsy in the case of Mrs. Julia Albert, who was killed by lightning at her home at Highland Island, near City Island. He found that the lightning had been attracted by a pin which Mrs. Albert wore in the neck of her dress. The lightning struck the head of the pin, melted it and drove it through her dress, embedding it in the flesh on her breast. The skin around the pin was scorched. There were no other marks on the body. The pin contained a large percentage of copper.

A Desperate Lover.

HOUSTON, Tex., Sept. 16.—Near Black's mill, sixteen miles west of Giddings, Oscar Henningan blew out Martha Bradley's brains because she rejected his suit. He also tried to assassinate William Bradley, her father, but the gun failed to explode. He was arrested.

Ice and Heavy Frost in New York.

GENESEE, N. Y., Sept. 16.—A cold wave struck the valley, resulting in a heavy frost Saturday night, which destroyed the few grapes and other crops not yet harvested. The thermometer registered 39 degs. At Gloversville the mercury registered 20 degs., and ice formed.

Are you taking SIMMONS LIVER REGULATOR, the "KING OF LIVER MEDICINES?" That is what our readers want, and nothing but that. It is the same old friend to which the old folks pinned their faith and were never disappointed. But another good recommendation for it is, that it is BETTER THAN PILLS, never gripes, never weakens, but works in such an easy and natural way, just like nature itself, that relief comes quick and sure, and one feels new all over. It never fails. Everybody needs take a liver remedy, and everyone should take only Simmons Liver Regulator.

Be sure you get it. The Red Z is on the wrapper. J. H. Zeilin & Co., Philadelphia.

AN AMERICAN THEIR VICTIM.

Details of an Outrage Perpetrated by Spanish Officials.

BRIDGEPORT, Conn., Sept. 16.—Facts about an outrage perpetrated on an American citizen by the Spanish officials of Havana, Cuba, have been made public through letters received in this city by Frederick R. Swift, editor of The Herald.

John Repko, a citizen of the United States, has for eight years been the proprietor of the Grand Hotel Roma. The Spanish government, under a pretense of some new tax amounting to \$800, seized the hotel at midnight and turned Mr. Repko and his family out of doors. His business, he says, was worth \$20,000 at the time. He will appeal to the president of the United States to assist him in getting redress.

Mr. Repko is in Florida, but will come north in a short time and lay the facts in the case before the state department. It is claimed that Spanish soldiers quartered themselves in the hotel until their bills amounted to \$12,000, which they refused to pay, and finally seized the place on a claim that by some old title it belonged to the government.

Fell from a Window to Death.

DELAWARE WATER GAP, Pa., Sept. 16.—Horace N. Kates, a prominent retired merchant of Philadelphia, a guest of the Water Gap House, fell from the window of his room on the third floor and was fatally injured. He lived but a few hours. Mr. Kates had been shaving himself, and he is supposed to have gone to the window to open the shutter to get more light. While there he was taken with a fainting fit, and fell a distance of about fifty feet. He was picked up unconscious, but soon regained his senses. When examined by Drs. Shaw, of this place, and Greene, of Easton, his injuries were found to consist of five broken ribs, dislocated shoulder and one arm broken in five places.

The Mora Claim.

WASHINGTON, Sept. 14.—The details for the payment of the Mora claim have been definitely arranged, and the draft prepared for transfer today. It calls for the equivalent in English pounds sterling of \$1,449,000, signed by Senor Dupuy de Lome as Spanish minister, payable to Mr. Olney as secretary of state, and drawn upon Spain's financial agent in London. Senor de Lome in person will hand the note to Acting Secretary Adee, who, as such, will have authority to indorse the draft in the absence of Mr. Olney. The loss of \$51,000 from the amount of \$1,500,000 originally agreed upon is due to the difference between the value of the Spanish peso and the American gold dollar.

Ex-Mayor Tyson's Suicide.

READING, Pa., Sept. 16.—Ex-Mayor Henry A. Tyson died at his residence, 313 Franklin street, shortly after midnight from the effects of a self inflicted pistol wound in his right temple. Temporary insanity is said to have been the cause of suicide. Mr. Tyson was about sixty years of age and was district deputy grand master of the Masonic fraternity of this district for ten years. He was connected with the freight department of the Pennsylvania and Schuylkill Valley railroad for a number of years as collector. He only returned to his duties a few days ago after a recent illness.

Fatal Explosion at Powder Works.

SANTA CRUZ, Cal., Sept. 16.—An explosion in the smokeless department at the powder works killed Maxie Grimm and fatally burned James Howard. About 650 pounds of powder, being made for the Hotchkiss guns on the cruiser Boston, exploded.

Death of Mrs. Hannah G. Gerry.

NEW YORK, Sept. 16.—Mrs. Hannah G. Gerry, mother of Elbridge T. Gerry and widow of Thomas R. Gerry, died at her home, No. 890 Broadway. She had been ill for seven weeks.
