

**WILSON LOCALS.**

**NEWS BRIEFLY TOLD FOR BUSY READERS.**

Home Matters Picked up on Our Streets by our Reporter—What he Sees and Hears.

The W. L. I. will be out on dress parade tomorrow afternoon at 6.

We go to press too soon to give the scores in the Washington-Wilson games.

Don't forget the excursion to Wilmington next Thursday, June 25th. If you want to enjoy yourself go on it.

The appearance of the Primitive Baptist Church has been very much improved by a fresh coat of white paint.

Mrs. Bagley, of Raleigh, was in the city this week with her daughter, Mrs. Josephus Daniels, who is visiting here.

Presiding Elder Hall held services in the Methodist church last Sunday night. He preached a very forcible sermon.

J. H. Cheatham has put wire screen doors in his store to prevent the flies from entering to partake of his drinks.

We are now ready for the finest work in the State at our new gallery opposite Court House. Call and see us. ENGLE & LUND.

The fence around the jail has been completed. It is picketed on top so that is case any one attempts to get over he will find it an uncomfortable job.

Mrs. T. M. Anderson left yesterday to spend the summer in the mountains of Virginia. She was accompanied by her daughter, Miss Lizzie.

Hall's Vegetable Sicilian Hair Renewer promotes the growth of the hair and restores its natural color and beauty; frees the scalp of dandruff, tetter and all impurities.

There will be a Grand Athletic Exhibition in the Court House next Monday night, June 22nd, 1896. For full particulars see bills that are being distributed.

Dr. Blue Mountain Joe pitched his tent on Branch's cotton yard Friday and gave a performance that night and Saturday afternoon and night. He has a very creditable show.

The ladies of the Methodist church gave a lawn party on the Court House Green last Thursday night. It was a very enjoyable affair and well attended, from which a neat sum was realized.

Mr. Briggs has had the door of his sample room in the Briggs House changed so that there are side windows at the entrance which improves the looks of that portion of the building.

The Wilson Light Infantry about 30 strong, came out last Friday afternoon for a public drill on the vacant lot near the old depot. They marched around Nash street and thence to the armory. They made a fine appearance.

Rocky Mount and Wilmington played three games of ball at the latter place. Rocky Mount won the best two out of three. Two of the Wilson boys, Graham Woodard, and Jim Wilkins played with the "Queen City" boys.

We had very hard rains here Saturday night. The last one about 10:45 was accompanied by a great deal of wind, and it looked at one time as if some of the tin roofs would go. No damage was done by the wind in town. The rain came down in torrents and in some portions of the town the water was banked over the sidewalks.

Ladies' Hats, trimmed and untrimmed. M. T. Young's.

J. J. Faber wishes to inform his patrons that he will remain at his old stand on Nash St. next to Miss Bettie Lee's until June 27th, and will make cabinet photos at \$2.00 per dozen. Will positively close business on that day.

From the number of Tobacco flues we see the farmers carrying out every day there is hardly any doubt of our sales reaching 10,000,000 pounds of tobacco this season. With a new warehouse and another stemmery we are bound to hustle.

The preliminary trial of the parties engaged in the shooting scrape at Lucama was held in the Court House Monday. No evidence was brought out other than that given at the corner's inquest the day after the shooting. We sincerely hope that every man of this unlawful band may be caught and severe punishment administered. This is not the first time they have caused trouble in that neighborhood and if allowed to go free there is no telling how things will terminate.

Mr. J. L. Ludlow made the final examination of the sewer plant yesterday. He reports it in excellent shape and ready for service. Now comes the time when the citizens of the town should step forward and make the system an assured success. Every store in the business portion of the town should be connected with the sewer. The town authorities will eventually pass such ordinances as will make such connection compulsory but it is to be hoped that our merchants and property owners will not wait to be forced into an act that all must see is necessary to the preservation to the health of the town.

All the tobacco warehouses are being enlarged to prepare for the increased amount of tobacco that is expected to be handled here this season. The Centre Brick will be extended sixty feet. This will give the Centre 25,000 square feet of floor room—the largest in the State. The Woodard has been extended sixty feet, and the Planters will have added several feet on the side of that warehouse. With this increased amount of floor space and a new warehouse Wilson is prepared to handle tobacco with the most satisfactory results to the planter. Our sales have increased each year since the market was opened and this year's sales promise to exceed all others.

**Dwelling Burned.**  
Mr. Joseph Bynum, of Saratoga, was so unfortunate as to lose his dwelling and smoke house on Monday night last. The fire originated in the kitchen, and before help could reach him the house and smoke-house was burned. He succeeded in saving some furniture and clothing but lost everything in the way of provisions on the place. We are glad to know that his friends, both in Saratoga and Wilson, were prompt in subscribing to a purse to help him along in meeting immediate needs.

**A Valuable Prescription.**

Editor Morrison, of Worthington, Ind., "Sun," writes: "You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for Constipation, and Sick Headache, and as a general system tonic it has no equal... Mrs. Annie Steble, 2625 Cottage Grove Ave., Chicago, was all run down, could not eat or digest food, had a backache which never left her and felt tired and weary but six bottles of Electric Bitters restored her health and renewed her strength. Prices 50 cents and \$1.00. Get a bottle at B. W. Hargrave's Drug Store.

**A Runaway.**

Yesterday Judge Connor's horse was tied to the post in front of Stronach's, in some way he pulled the bridle off, and naturally commenced running. He turned the corner at the Court House, colliding with a wagon. After going around the square he was stopped in front of Oettinger's and in some way became entangled in the harness when he began kicking until he had freed himself. No damage was done to the buggy and very little to the harness.

**Gladness Comes**

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists. If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

"If all the bicycles in the world were brought to a central point and reconstructed into one giant machine," says one of the leading bicycle publications, "the result would be a machine six miles long and over four miles high, with wheels almost three miles in diameter. To construct such a monster would require about 15,000,000 cycles, and it built in proportion of weight and thickness the only available course over which some Atlas might hump his back and scorch would be on the boundless prairies of the west or in the heart of the Desert of Sahara. The average human mind cannot conceive of 15,000,000 modern bicycles all thrown into one mammoth machine, the wheels of which have a circumference of nine miles, nor more than the traveling capacity of such a wonderful thing could be even remotely conceived.
