William J. Bryan will pass through our town on Friday next. He speaks in Goldsboro in the morning and leaves on a special train at 10:30, arriving in Wilson at 11:30. His speech here will be about thirty minutes in length. Special trains will be run to Rocky Mount on the A. C. L. where he makes a long speech Friday evening.

Mr. Bryan will be met in Goldsboro by the following committee from Wilson: W. P. Wooten, F. W. Barnes, G. D. Green, A. B. Deans, J. R. Uzzell, J. S. Woodard, W. F. POLITICAL NOTES.

Mr. Bryan has been formally notified of his nomination by the National Silver Party. He accepted the nomination.

Governor Evans has been beaten for the Senate by General Earl, in South Carolina. His majority will be over 3,000.

Tammany leaders propose to make their ratification meeting of Sept. 29 one of the greatest political gatherings ever held in New York City.

Daniel S. Lamont, Secretary of War, after getting all out of Democrats possible has declared for the gold platform of Indianapolis. He has run his course and wants a climax.

John C. Black, nominee of the Gold Standard Democrats of Illinois, has declined to accept the nomination. He claims that the fight is between the free silver and the Republican candidates and that his acceptance will only hurt one of these and so declines. This is just what was wanted when he was nominated but their plans have been disturbed.

Three Steamships brought gold from Europe into the port of New York Saturday, making the aggregate of actual importations up to date \$7,020,300. The total amount of the yellow metal engaged for importation thus far, including the gold that has already arrived, is \$24,220,000. Nearly all of the banking houses in New York that do a foreign exchange business are now engaged in the importation of gold.

The cry has been that gold would certainly leave our shores until after the election seems to have proven on illusion.

Chairman Jones Estimate.

"If we carry South Dakota, Nebraska, and Kentucky we shall be within ten votes of an electoral majority, without having a single vote east of Nebraska or north of the Potomac river. That, you see, does not include Minnesota, Iowa, or Illinois.

"I regard Illinois and Kentucky as doubtful States, but think that we will have a very comfortable majority in Indiana. The reports from Wisconsin and Iowa show that we are in better shape there than I had supposed.

"Michigan, I think is safe, and I have strong hopes that we will carry Ohio. You can see that with the States west of Nebraska and south of the Potomac already assured to us, we are bound to carry enough electoral votes in the central battle-ground to win."—World.

Iowa is a Tie.

Des Moines, Ia., Sept. 9.—It may startle people in the East to know that as Iowa stands to-day the vote is about a tie.

The extraordinary strength of the silver sentiment here has been suddenly revealed to the Republican State Committee by the preliminary canvass of the counties.

Something like two-thirds of the districts have been heard from, and they show a Republican bolt of more than thirty thousand.

The Democratic defection is in the neighborhood of ten thousand. With the thirty two thousand and odd Populist votes joined to the Democratic strength Bryan would have a majority.

The Republicans do not attempt to conceal the facts. They frankly admit that the State is dangerously close. And the most remarkable thing about it is that Mr. Hanna has been looking for a Republican majority of fifty or seventy-five thousand in Iowa.—World.

What Free Coinage Means.

It means that the money of the people shall not be boycotted.

It means that greenbacks shall be redeemed with silver as well as gold.

It means that no more bonds shall be sold to buy greenbacks.

It means that silver shall continue to be a legal tender.

It would mean money enough in circulation to keep pace with the increase in population.

It would make silver bullion worth as much as if coined into dollars.

It would stop the redemption of greenbacks by money sharks who will not take silver for them.

It would guarantee stability to our currency. It would gradually raise the general level of prices.

It would mean better prices for wheat and corn.

It would mean more work and better pay for work.

The panic makers would go out of business.

We would have no more declarations from the White House that the government is bankrupt.

There would be no more syndicate bond purchasers at robbery rates of interests.

It would mean the payment of 100 cents on the dollar for indebtedness and no more.

Charlotte News.—Dr. Faville, the Government expert, has finished his examination into the trouble on McWatkins dairy farm, and has returned to his home. He found that the disease that has been raging there is Texas fever. It was either in some cattle that McWatkins purchased and brought here, or the locality itself is permanently infected. The cattle now remaining on the farm are safe from the infection. Dr. Faville says the disease is spread by the ordinary cow tick. A cow that is free of ticks put among an infected herd is safe from the disease. The ticks can be picked and scattered over a five acre lot, cows turned in and they will all take the disease. So long as a cow is free from ticks she is safe from infection.
