Cleveland, Carli-le & Wilson,

John G. Carlisle, Secretary of the Treasury, is at the Fifth Avenue Hotel. It said the olject of his visit is to meet the members of a wellknown law firm in this city, who have made overtures looking toward his joining the firm. Two months ago it was stated in the Sun on the highest authority that Mr. Carlisle was to open a law office in New York city after March 4th. Since that it has been known that Postmaster General Wilson, the author of the Wilson tariff bill, also thinks of coming to New York to open a law office.

In fact, it was all over town last night that the new firm is to be Cleveland, Carlisle & Wilson.—New York Sun.

How to Saye our Ships.

Some great fortunes we've expended just to keep our cruisers mended, since this mania for striking rocks began. Cotton-wool is not expensive, and its properties defensive, recommended as it is the fittest for our plan. Let us take each cruiser gently where its safest evidently; take it inland, say 1 000 miles or more, where no jagged reefs can reach it, and no Captain e'er can beach it in a surf that pounds along a rocky shore. There, on car springs firmly founded and with cotton wool surrounded, every cruiser we can contemplate with pride. With the stuff we could enwreath it, up above it and beneath it, and could put great wads of wool along its side - Boston Advertiser.

## True, Even if not Scriptural.

My son, follow not in the foot steps of a loater, and make no example of him who is born tired, for verily, I say unto you, business is overstocked, the seats on the corners are all taken, and the whittling places are all occupied. It is better to saw wood at two bits a cord than to whittle in a loating match and cuss the government. My son while thou hast left in thy skull the sense of a jay bird, break away from the cigarette habit, for thy breath stinketh like a glue factory, and thy whole appearance is less intelligent than a store dummy.

# Made Bald by the X Rays.

The location of a bullet in a Bellevue Hospital patient's head was recently found by means of the X rays and the bullet was extracted. The patient has recovered, but the side of his head which was exposed to the rays is now as bald as the proverbial billiard ball.-New York Sun.

# THE CRETAN CONFLIC

The Grecian Government Assumes N. C. Full Responsibility

FOR THE THREATENED INVASION.

Prince Georgi Berovitch, Governor of Crete, Sends In His Resignation and Departs Without the Consent of the Sultan. Greeks Eager for a Conflict.

Athens, Feb. 15,-It is evident that the Grecian government has taken a serious step in sending troops to Crete for the purpose of protecting the Christians. A force consisting of a regiment of infantry, battery and artillery embarked at Piraeus Laturday on board three steamers. There was a scene of great enthusiasm before the departure of the troops. Crown Prince Constantine, the Duke of Sparta, reviewed the men, and addressing them said: "Officers and men, remember where you are going, and that you are Hellenes."

The troops then marched past in the presence of the queen, the crown princess and an immense crowd. The crown prince, with his staff, was at the head of the men, and conducted them to the railway station at Athens, en route for the port of Piraeus, the populace meanwhile cheering for Crete, the army and the royal family. Similar scenes of enthusiasm were also witnessed during the embarkation of the soldiers.

Grecian officers starting for Crete who, having been recalled at the last! moment and ordered to rejoin their regiments, have resigned their commissions and issued a manifesto explaining that they are leaving the army in order to fight for the freedom of their | brethren in Crete.

#### CRETE'S GOVERNOR HAS RESIGNED. Belleved to Have Left His Post Without the Sultan's Permission.

London, Feb. 15 .- A dispatch to The Times from Canea says that the resignation of Prince George Berovitch, governor of Crete, had already been accepted, and he departed yesterday afternoon on board the Austrian Lloyd steamer for Trieste. Despite the official statements, there is reason to believe that he left his post without the sultan's rermission. In his letter to the consuls representing the powers he only stated that he had tendered his resignation.

Although well intentioned, Berovitch Pasha has shown a lamentable lack of courage during the recent troubles, according to the Canca correspondent of The Times. He practically abandoned the direction of affairs at a critical moment. It must, in all fairness, be said that the task imposed upon him was one of extraordinary difficulty. Without gendarmerie, without law courts, opposed by military subordinates, thwarted in Constantinople and harassed by his administrative council he had no means to make his authority respected. It must also be borne in mind that the sudden disappearance of Turkish officials is often due to occult influences. The position of the next governor will not be enviable.

According to another dispatch from Canea the Greek consul, with his staff, boarded the Greek ironclad Hydra, after placing the refugees at the consulate under the protection of the British consul who told them to board the Greek warships. Up to the present time, however, the refugees remain at the British consulate. The closing of the Greek consular offices seems to indicate a definite rupture of the relations between Greece and Turkey.

### A WARNING TO GREECE. She Cannot Count on the Support of the l'owers-Gladstone's Hope.

London, Feb. 15.-The Times, in an editorial, warns Greece that that coun try must not think that it can count on the support of the powers to wage war. With her limited liability, her dependence on the powers makes it nec essary for her to follow their advice and avoid provoking a conflict that she is incapable of sustaining alone. The decision of the powers to accept responsibility by their occupation of Canea, Retimo and Heraklion should induce Greece to countermand her military expedition.

In response to a request from the editors of The Chronicle, asking him to send a message of hope to Greece, Gladstone has wired The Chronicle from Cannes as follows:

"I dare not stimulate Greece when we cannot help her, but I shall profoundly rejoice in her success. I hope the powers will recollect that they have their own character to redeem.

# President Magowan Deposed.

Trenten, Feb. 15 .- Ex-Mayor Frank A. Magowan has been deposed from the presidency of two of the companies of which he was the head. General William H. Skirm was elected to succeed him as president of the Umpire Rubber company, and George R. Cook was made the head of the Trenton Oil Cloth company in Magowan's stead. Both changes were made by the respective boards of directors of the companies. In each instance the old board was re-elected, including Mr. Magowan. The Eastern and Trenton Rubber companies, in both of whom Magowan is president, have not yet held their election, owing, it is understood, to the inability of the directors to get Magowan to call a meeting.

# Mrs. Besant Coming Over.

New York, Feb. 15.-Mrs. Annie Besant, the theosophist, will arrive in New York early in March. She will remain in this country six months, during which time she will visit all the larger cities. Her lectures will be devoted to the exposition of theosophy, and some of her experiences in her journey through India, from where she is now returning, will be told.
