THE SKAGUAY TRAIL

tion For Pushing the Work, and the Malcontents Must Submit-Canadian Police Promise Regular Mails.

Seattle, Sept. 6 .- The following has been received from Skaguay, Alaska. dated Aug. 28: Sylvester Scovel, of the New York World, landed yesterday morning at Skaguay by a specially chartered tug from Juneau, with two tons of blasting powder and the necessary tools to equip seven complete crews for rock work on the Skaguay trail, and as fast as horses and men could get at it it was started to the front.

In the evening there was a meeting at the foot of the first hill, attended by over 500 miners, who organized for the work in front of them and elected an executive committee, consisting of James Christie of Portland, president; Philip Adams, secretary; C. A. Cramer of Seattie, Mr. Heacock and Mr. Day, superintendents, who selected experienced men for the work on the rock hills and veteran loggers for the work

of corduroying the muddy places. There were 30 Canadian mounted police also on the trail. They heve pitched in with a good will, and say that the building of this trail will enable them to get in the 70 tons of provisions in

Nack Declares That HIS Wife Made a Living Through Child Murder, Charges Several Physicians and Undertakers With Aiding Her.

New York, Sept. 3 .- District Attorney Olcotf made public yesterday a remarkable statement made by Herman Nack, the husband of Mrs. Augusta Nack, who, with Martin Thorn, is charged with the murder of William Guldensuppe. In the statement Nack says that his wife has been illegally killing children for a number of years. He gives the whole career of himself and his wife during their married life from 1886 to the time he left her in October, 1896.

Nack states that his wife made a living through illegal operations involving the murder of children. He said that she was a so-called midwife,

MAY BRING PERFECT HARMONY.

A Resumption of Work Expected in All the Mines This Week as a Result of the Convention to Be Held in Columbus on Wednesday.

Columbus, O., Sept. 4 .- The end of the creat miners' strike is in sight. Yesterday afternoon the national executive board of the United Mine Workers agreed to recommend to the miners a proposition from the Pittsburg operators for a straight price of 65 cents a ten, to continue in force until the end of the year. A delegate convention of all miners who have suspended work has been called to meet in Columbus Sept. 8 at 10 a. m., to act upon the recommendation. President Ratchford and other members of the board say there is not the slightest doubt that the miners will approve the recommendation. The proposition does not involve arbitration, and in effect provides for an immediate settlement of the strike.

Pittsburg, Sept. 6 .- Expectations are high in coal mining circles over the probable resumption of work in the mines throughout the country. In anticipation of a settlement at Columbus next Wednesday another plan has been suggested by a representative of one of the largest operators which will be agitated immediately after the men return to work. It will be formulated and submitted to the joint convention of operators and miners, which it is proposed to hold next December.

In order to come to an understanding on all questions at issue separate wage scales are to be formulated for each mine. The scale is to provide for the rate to be paid for the entire year, and any special concessions that are to be starvation, the strikers have returned made are to be agreed upon by the miners and operators, and so specified in the scale. The scale is to be an adjunct to the uniformity agreement which is expected to be in force. The proposition will be made by the operators in the hope of getting all the safeguards possible against a probable

committees of the Citizens' union. He was notified of his nomination by J. C. Clark, a special messenger of the Citizens' union. In reply Mr. Low read a prepared statement, in substance as follows:

"As soon as I can I shall prepare a letter formally accepting the nomination for mayor of New York offered me by the Citizens' union, acting on be-t half of its own membership of 25,000 citizens, and also on behalf of 102,000 other citizens, who, without regard to party affiliations, have expressed over their own signatures the desire that I

should be nominated and eleceted. "In my view, the nomination has thus been virtually already made by the people. No patriot, under such circumstances, could decline to stand unless he were prepared to discourage, even in local matters, all spontaneous movements by the people outside of the limitations of party.

"I am not so vain as to believe that the unprecedented expression of ular confidence is in any overwhelming sense a personal tribute only. I thing it rather means that the people are deeply moved by the desire that, when the great city begins its new career, it shall do so with a mandate from the voters to the officials of the city that the welfare of the city, not of any party, is to be their first concern. For that principle I am known to stand. For it I shall contend in the coming campaign, with such allies as time may bring: but for it I shall stand, be my friends, few or many."
