# DEPUTIES TO BE TRIED.

Martin and His Men Must Answer a Charge of Murder.

THE WORK OF INCENDIARIES.

Destruction of a Valuable Breaker at Beaver Meadow. Presumably by Strikers or Sympathizers-Work Resumed in All the Mines.

Wilkesbarre, Pa., Sept. 23.-The hearing in the case of Sheriff Martin and his deputies, charged with murder in the killing of 24 marching strikers at Lattimer recently, has been concluded, and the accused men must stand trial.

After all the important testimony had been presented yesterday the judges had a conference, and Judge Lynch asked Fell what he wished done. Mr. Fell said: "Under the evidence I think these deputies should be held for court." The judge then asked why the other deputies were not arrested, and Senator Kline said some of them went away after the shooting and have not been seen or heard of since. The names of the deputies were called, and to the roll call 73 answered and 12 did not. All those who answered to their names stepped forward and delivered themselves up on a charge of murder.

Joseph A. Sinn, representing the City Trust Safe Deposit and Surety company, of Philadelphia, advanced and became surety in the sum of \$5,000 bail for each of the deputies for their appearance at the next term of criminal court to answer the charge of murder. Each of the defendants, through their bondsman, Mr. Sinn, also gave \$1,000 bail on an additional charge of felonious wounding. The men then repaired to court room No. 2, where they signed their names to the bail pieces, and the preliminary hearing came to an end.

The amount of bail for the 73 deputies at \$5,000 for murder and \$1,000 for felonious wounding amounts to \$438,-000. If the other 12 deputies come in and give similar bail the total would reach over \$500,000.

The preliminary hearing was begun on Tuesday. John M. Garman opened for the prosecution, stating that he was employed to investigate the shooting and inquire if the sheriff and his deputies were justified in killing 24 men. He referred to "Dictator Gobin," who had refused to allow deputies to be arrested, and spoke of Coroner McKee being a major in the Ninth regiment. He made a motion that the original warrants of arrest, issued by 'Squire Gorman, be given the preference, and the motion was supported by Attorney John McGahren. The motion was denied, and Attorneys Garman and Mc-Gahren announced their withdrawal

from the case. The testimony at the hearing was merely a repetition of the statements already published. Only one witness declared that Sheriff Martin gave the order to fire, while the others could not tell where the order came from. It was sworn to that Deputy Rought deliberately shot a fleeing striker fully five minutes after the fatal volley.

The inquest into the deaths of the Lattimer victims was begun at Hazleton today by Coroner McKee. There were a number of attorneys present, including District Attorney Fell, H. A. Fuller, who appeared for the coroner, Messrs. Garman, McGahren and Loughran, for the prosecution, and G. H. Troutman, for the deputies. Dr. Thodorovitch and Attorney Coxe, representing the Austrian consulate in Philadelphia, were also present. All the mines have resumed operations, and comparatively few men are still out.

The strike situation remains unchanged, except for the return to work yesterday of those Harwood miners who were afraid to go back on Wednesday. Every colliery in the region worked, and there was not the slightest disorder anywhere.

The Evans breaker of A. S. Van Winkle & Co., operated by Kennedy & Warner, at Beaver Meadow, four miles from Hazleton, was burned to the ground Tuesday night. The operators are convinced that it was incendiary. The loss will be about \$50,000. The breaker has been idle since noon last Tuesday, not as a consequence of the strike, but on account of a lack of water. Tapping for water was to have begun today, and the breaker would have resumed work immediately. It is asserted that women had a hand in the fire, one having been heard to remark: "If we can't get the men out we'll fix

it so they can't get in." General Gobin knew none of the details of the fire until told by a newspaper correspondent. He said: "If they are beginning to apply the torch the situation is grave indeed. They are doing the very thing that will prevent them working or obtaining the redress they are asking. The troops cannot be moved while they are burning break-

Kennedy & Warner, the operators of the Evans breaker at Beaver Meadow, which was burned Tuesday night, are satisfied that the blaze was of incendiary origin, and so is Mine Inspector | called in Pittsylvania county court, at Davis, of this district, who has made a thorough investigation.

The peace of the anthracite district was disturbed by only one outbreak yesterday. When the men at Pardee's Harwood colliery reported for work Masonic hall every 4th Monday night a crowd of strikers, led by a woman, assembled about the mine, and their Nov. 3. threats of violence to the would-be workers were so menacing that troops were asked for. A detachment of cavalry was sent over and remained during the greater part of the day. There

was no further trouble. Hazleton, Pa., Sept. 27 .- The failure of the coroner's jury to arrive at a verdict in the Lattimer shooting affair | tering his brains all over the shop. Should Spain Reject the Offers of Mediation Diplomatic Relations May Be Suspended - Minister Woodford-

Anticipates a Favorable Solution. Madrid, Sept. 27.-The arrival of United States Minister Woodford from San Sebastian has made a sensation. The program of the United States has been ascertained. This does not contemplate a declaration of war if Spain rejects mediation, but, according to report, an "ostentatious proclamation to the world of disapproved of the Cuban regime by suspending diplomatic relations with Spain and withdrawing the United States minister."

General Woodford has declined to be interviewed on the subject further than to say that his conference with the

STEWART L. WOODFORD. Duke of Tetuan, the foreign minister, was of the most satisfactory character. The unexpected bitterness of the press and of public opinion has painfully impressed him, but he hopes this will soon be allayed, as he believes his mission favorable to Spanish interests, and cannot comprehend that Spain could reject mediation designed to end an impoverishing war. He has not named a time at which the war must be terminated, but he hopes, as the result of his tenders, that it will be ended quickly. He believes the war is inflicting incalculable losses upon the United States, and that it is impossible to prevent the organization of filibustering

Unusual measures were taken to protect Minister Woodford on his journey from San Sabastian to this city, but the trip was quite uneventful. A party of gendarmes, commanded by a sublieutenant, guarded the southern express on which he was a passenger. Secret police were posted at the station, and the prefect of police was in waiting to escort him to his hotel. The drive through the streets was marked by no special incident, though several people saiuted him, receiving a bow in return. Some comment has been caused by the fact that Minister Woodford's family has not accompanie. him, but remains behind the French frontier. Minister Woodford explains that his party is a large one, requiring a commodious home, and prefers spending a pleasant October at Biarritz until a suitable residence can be secured here. The legation cannot be used as a residence. General Woodford has already engaged a box at the Royal Opera House and has purchased horses.

In the midst of the excitement a terrible explosion occurred in the drug store, and Mr. Beardsley, who was inside endeavoring to save some property, lost his life. ## PEARY AT BOSTON.

The Monster Meteorite to Be Removed at Brooklyn Navy Yard. Boston, Sept. 27.-The steam whaling bark Hope, Captain John Bartlett, which had just returned from the Arctic, arrived here yesterday from Sydney, C. B. In conversation with a representative Lieutenant Peary

"The 100 ton meteorite in the hold of the Hope fell from the skies hundreds of years ago and has been the source of iron supplies of the Esquimaux. I discovered it in May, 1894, and since that time have been trying to secure it and bring it to America. We have on board six Esquimaux. The oldest of these is Nook-Tak, 40 years old, the son of the old chief Kooloatoonah, who plotted to murder Dr. Hayes and some of his companions. With him is his wife, Ah Tung Ah Nak Soah, 45 years old, and their daughter, Ah Wee Ah, 12 years old. The others are Ke Suh, 35 years old, with his 9-year-old boy, Mee Ni, and a young man. Wee Shak Up Si, 21 years old. They will remain with me here this winter to arrange the ethnological specimens and will return to the north next summer with me. These people belong to the tribe from which I shall select my colony next year." In speaking of the last expedition

Lieutenant Peary said: "I consider the chief things ac complished were the arrangements with the Esquimaux for my next year's journey. From this time out they will be securing furs and other skins for clothing, and have all in readiness for me next year, so that within 24 hours after my arrival there I shall be ready to embrace the first opportunity to push forward for the point I wish to

reach. "The statements appearing in the papers that we had discovered some gruesome things about the hut of the Greely expedition is all nonsense. We

found no 'graveyard' belongings. "The Hope will make for the Brooklyn navyyard, where I have permission from the authorities to use the 100-ton crane to hoist the meteorite from the hold."

Train Robbers Fooled Themselves.

Moorhead, Minn., Sept. 27 .- The westbound passenger train on the Northern Pacific railway was held up three miles east of here at an early hour in the morning. It is said that the express car carried a large sum of money which the robbers failed to secure owing to a blunder in cutting off the cars. One man climbed over the tank, and at the point of a pistol compelled Engineer Hoover to apply the brakes. Three other robbers then came forward, bringing along the conductor and brakemen. All mounted the engine, which was again started west. The robbers sat on the tank and ordered the engineer to "keep her moving." When the train reached Moorhoead the robbers discovered that only the engiles and mail car had been cut off from the balance of the train, leaving the express safes behind. They rapidly despoiled the crew of watches and money and made their escape.

# AN AUTHORIZED DUEL.

Austria's Emperor Encouraged Premier Badeni to Fight.

THE PREMIER BADLY WOUNDED.

Shot in the Arm, and It May Be Necessary to Have the Member Amputated-The Premier the Challenging

Vienna, Sept. 27.-The flerce political agitation in the Austrian house recently had almost a tragic climax Saturday, when Count Casimir Badeni, Austria's prime minister, was shot in a duel with Dr. Wolff, the German Nationalist leader and member of the it is important for this reason that imreichsrath.

The meeting on the field of honor was the direct result of a personal altercation between the premier and Dr. Wolff, during which the latter characterized Count Badeni as a blackguard, and accused him of rascality.

The combatants selected pistols as the weapons, and the meeting took place in a secluded suburban section. attended by seconds and doctors, after the accustomed regulations observed in such cases. One builet from the weapon of Dr. Wolff struck the premier in the arm,

the ball plowing its way through the limb and passing out above the wrist. The services of a physician were immediately availed of on the field, and after the premier's wound had been dressed the dueling party hastened from the scene. The wound does not prevent the

count from transacting business, but it is said that his arm may have to be amputated. The emperor has telegraphed expres!

sions of warmest sympathy, and has requested hourly information concerning the condition of the wounded man. The duel has caused the wildest sensation throughout Austria. It arose out of the riotous scenes at the opening of the reishrath, when Count Badeni, with arms crossed and head on his breast, listened unmoved by the clamor and esticulations of the German party. His attitude was most irritating. The around him, conspicuous among them being the great lean face of Wolff, as he pressed forward and thrust his fist into Count Badeni's face, saying: "If this is your policy, it is misserable chicanery." Some declare that Dr. Wolff called him a "Polish pig." He was pulled bask by his colleagues, but

continued uttering menaces. Early on Friday Count Badeni sent his seconds to Dr. Wolff, who accepted the challenge. The premier sent a telegram to the emperor asking permission to fight the duel, and at the same time tendering his resignation. In reply he received not only permission to fight, but also the imperial approval. Count Badeni then made his will, after which he spent the evening at the Jockey club and a pleasure resort. His wife and family knew nothing about the affair until the duel was over. The combatants met at the military

riding school. Count Badeni's seconds were Marshal Count Uexkull-Gyllanband, commanding the Vienna garrison, and Colonel Resch, a former adjutant of the emperor. Dr. Wolff's seconds were two German deputies. The conditions of the duel were three shots at 25 paces. At the first discharge the premier's ball struck the ground 15 paces from his antagonist. The latter's ball struck Count Badeni in the right arm. He staggered back to his chair, and was then taken home, where the

bullet was extracted. It is thought that, as the premier has set the example with the emperor's approval, there will be a serious epidemic of duelling. The Arbeiter Zeitung points out that Count Badeni is liable to imprisonment for from one to five

Hawesville, Ky., Sept. 27 .- Raymond Bushrod, the negro who on Saturday assaulted 14-year-old Maggie Roberts, was lynched yesterday morning by a mob of about 800 people. The lynching occurred in the courthouse square, and the body was left hanging to the limb of a shade tree. There was no attempt at disguise on the part of the lynchers, not a mask being seen in the crowd. Early in the day they came, trains. Bushrod was captured while men, who cheered as his body was strung up.

Richmond, Sept. 22.-The fact of Colonel James Lyons, the former chief of Governor O'Ferrall's staff, heading the delegation of Lamb Republicans to the Lynchburg convention causes considerable surprise here. Colonel Lyons has been a Democrat all his life, and is one of the most popular and promising young lawyers here. He bolted the Democratic ticket last year, and, unlike many other members of the party in Virginia who refused to support the platform, he went over, bag and baggage, into the Republican camp. He is now acting with the Lamb faction of his new party, and is against the wing headed by the United States collectors.

Johnson's Chill and Fever Tonic is a ONE-DAY Cure. It cures the most stubborn case of Fever in 24 Hours.

Inherited blood diseases are much more difficult to cure than those which are acquired. One of the most common hereditary diseases is Scrofula, which the medical profession admit is most obstinate and deepseated, and their efforts to cure it meet with little success. A child afflicted with Scrofula is always puny and sickly, and can never grow into healthy manhood until the disease is eliminated. Scrofula leads into consumption nine times out of ten, so that mediate attention be given to all chil-dren who inherit the slightest taint. Mrs. S. S. Mabry, 360 Elm St., Macon.

"My boy, Charlie, inherited a scrofu-lous blood taint, and from infancy was covered with terrible sores, his sufferings being such that it was impossible to dress him for three years.

His head and body were a mass of sores, and his nose was swollen to several times its natural size; to add to him almost deaf, and his eyesight also whole left formed a threatening group became affected. No treatment was spared that we thought would relieve him, but he grew worse until his condition was indeed pitiable. A dozen blood remedies were given him by the wholesale, but they did not the slightest good. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S.S.S. (Swift's Specific), and at first the inflammation seemed to increase, but as this is the way the remedy gets rid of the poison, by forcing it out of the system, we were encouraged and continued the medicine. A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him.
