In the death of Henry George, of New York, the country has lost one of its greatest reform leaders.

Last week the first issue of a new paper reached us. "Our Southern Home" will be devoted to the interest of the State in general.

The "Pender Star" has ceased to shed its radiance across the southern horizon. It has been absorbed by the Clinton Democrat, a bright newsy weekly issued in the adjoining county, Sampson.

On our fourth page we print this week a very interesting and instructive article from a farmer, advising other farmers to stick to the ship.

Word comes that a new political party is organizing to enter the national field. It has been an open secret that many of the strongest adherents of the free silver theory were at heart nothing more than Greenbackers and believers in absolute fiatism.

allism, and next that he must drop all metallic money of any form and do business with irredemable government paper.

According to a celebrated anatomist there are upward 5,000,000 little glands in the human stomach. These glands pour out the digestive juices which dissolve or digest the food.

BEACURATE.

In our last issue (under the above caption) we called the attention of the Times to their practice of printing notices, supposed to be, taken from this paper and made the statement that should they persist in such practice we should be forced to brand them "liars."

In reply they in part retract their former assertion and wind up with what they are pleased to term a warning and a reference as to what constitutes gentlemanly action.

We do not fear to have them reprint any article, or comment upon any article, that we may publish, but they must not "handle the truth carelessly," and expect to have us pass it over it over without notice.

If they wish to comment upon an article in our columns we would suggest that it was proper that our article be reproduced, together with their criticism, then the public could read both sides and be in a position to draw their own conclusions.

In the case at issue the Times first stated positively "according to the ADVANCE thus and so." When called to account they explain that "they so read" our article, but still do not substantiate either of their claims by producing the offending composition.

We pause for reply.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube.

Among the topics discussed by the editor of the American Monthly Review of Reviews in the November number of that periodical are the Greater New York political campaign, other municipal elections, the "Referendum" in American elections, the foreclosure of the Union Pacific, the crisis in Spain, recent events in Cuba, England's attitude towards bimetalism, the proposed international scaling conference, politics in Eastern Europe, Australian federation, and the careers of Charles A. Dana, George M. Pullman and Neal Dow.

THE ELECTION NEWS.

New York, November 3.—Following is the grand total of the votes received by the three leading candidates for mayor in Greater New York, complete returns having been received from all of the districts: VanWyck, 235,181; Low, 148,513; Tracy, 101,825. VanWyck's plurality over Low, 86,668.

The indications are the Democrats have a small majority of the members of the State Assembly.

NEW JERSEY. New York, November 3.—The vote in New Jersey to day was light. The Democrats made gains in almost every county and the Republicans retain control of the State Assembly by a narrow margin.

MARYLAND. Baltimore, Nov. 3, 2 a. m.—A conservative estimate of the Maryland Legislature, based upon partial returns indicate that the Democrats will have sixty votes on joint ballot while Republicans will have fifty-seven.

NEBRASKA. Omaha, November 2.—From Fusion headquarters the following statement was given out at midnight: We have carried Nebraska for the Fusion ticket by a plurality of from 20,000 to 25,000. Together with the magnificent victory for the State ticket, we have carried a majority of the county tickets. The cause leading to the result is a determination on the part of people of Nebraska to demand better money through the unlimited coinage of gold and silver.

OHIO. Columbus, Nov. 3.—The result in Ohio is so close that it may require the official count to determine the result, especially on the political complexion of the Legislature. The Republicans and the Democrats are both claiming the State and the Legislature with such persistence that it will require the official count at least to get one or the other to concede defeat. Incomplete returns indicate the election of the Republican State ticket by ten to twelve thousand but the result on the Legislature is so close that no definite figures can be out to night. The Democrats claim confidently a majority in both of the Legislative branches, but give no figures on the number of Representatives and Senators. The Republicans claim fifty-four Representatives and seventeen Senators sure, or seventy-one votes on joint ballot, seven being necessary to elect a Senator. They also claim all of the twelve representatives whose counties have not been definitely heard from, and all of which are in the doubtful list.

VIRGINIA. Richmond, Nov. 2.—The election story in Virginia is briefly told. Although there was unusual apathy, it is estimated that the Democratic State ticket is elected by about 55,000 or 60,000 majority, and the Democrats have two-thirds of the House of Delegates and four-fifths of the Senate.

KENTUCKY. Louisville, Nov. 2.—A conservative estimate at 11 o'clock to-night places the majority of Charles P. Weaver, Democratic candidate for mayor, over Geo. D. Todd, the present incumbent, at from 3,500 to 3,500. The returns from the State are meagre and unofficial at this hour. According to these, Shackelford, Silver Democrat, is leading Bailly, Republican, by about 5,000 votes.

RHODE ISLAND. Providence, Nov. 2.—The municipal election to day resulted in the election of William C. Baker, Democrat, by over 1,500 plurality. The vote was the smallest in years, the heavy rain preventing a large poll.

The first campaign of the Greater New York is fully described in the American Monthly Review of Reviews for November. The story is worth reading. No such contest as this has been known before in municipal politics. The issues involved are tremendous, and the personnel of the leaders has a unique interest. The editorial comment in the Review's "Progress of the World," illumines the whole situation, and the subject is further enlivened by a selection of the most striking cartoons from the daily press.
