THE ADVANCE, Wilson, N. C.

In the death of Henry George, of New York, the country has lost one of its greatest reform leaders. Although many of his ideas were extreme, yet he seemed to always have the true interest of the people at heart.

Last week the first issue of a new paper reached us. "Our Southern Home" will be devoted to the interest of the State in general. Its chief efforts will be to induce immigration to the Old North State. We wish its editors much success.

The "Pender Star" has ceased to shed its radiance across the southern horizon. It has been absorbed by the Clinton Democrat, a bright newsy weekly issued in the adjoining county, Sampson. The people of both counties are to be congratulated, as the consolidation will doubtless strengthen a paper that was already strong.

On our fourth page we print this week a very interesting and instructive article from a farmer, advising other farmers to stick to the ship. There is much to be gained by a careful study of his "bill of fare." Too many of our farmer friends are wont to think that the town bred man has all the advantages. Such however is far from being the case. We of the town are here, not so much from choice as, because we were born to this estate and are not prepared to cope with the problems that daily confront those whose lot in life has been cast on other, and pleasanter, lines. We don't expect that many farmers will agree with us, for we are painfully aware of that, ever present dissatisfaction with anything or place that is ours, 'tis only that which is just beyond our reach that seems worth having. Take the advice of the farmer, writing for the Home and Farm, and "stick to the farm if you would be happy."

WORD comes that a new political party is organizing to enter the national field. It has been an open secret that many of the strongest adherents of the free silver theory were at heart nothing more than Greenbackers and believers in absolute fiatism, and that they considered free silver but a half-way house to a complete paper system. The new party calls itself the National Paper Money party, and pledges devotion to the currency question exclusively. Silver is denounced, and "No metallic basis of currency and no redemption" is its motto. No gold and no silver is to be coined, but only national paper money issued by Congress and not redeemable. All money now in circulation is to be worth its face value, but no more of the same kind is to be issued. A Chicago paper quotes ex-Governor Altgeld as saying of the new movement: "Agitation in the paper money direction is good, and it may only take a spark to cause the tide to turn, but I believe that it will take a long time to educate the people to adopt the correct system." This statement is significant as coming from one of the strongest disciples of free silver of last year. But what can an honest and sane man think of such sayings and principles? As a first step, he is told that he must cast away gold as a measure of value, for free silver means silver monomet-

allism, and next that he must drop all metallic money of any form and do business with irredeemable government paper.

—According to a celebrated anatomist there are upward 5,000,000 little glands in the human stomach. These glands pour out the digestive juices which dissolve or digest the food. Indigestion is want of juice, weakness of glands, need of help to restore these organs. The best and most natural health is that given by Shaker Digestive Cordial. Natural, because it supplies the materials needed by the glands and the stomach, until they are able to do their work alone. Shaker Digestive Cordial cures indigestion certainly and permanently. It does so by natural means, and therein lies the secret of its wonderful and unvaried success.

BEACURATE.

In our last issue (under the above caption) we called the attention of the Times to their practice of printing notices, supposed to be, taken from this paper and made the statement that should they persist in such practice we should be forced to brand them "liars."

In reply they in part retract their former assertion and wind up with what they are pleased to term a warning and a reference as to what constitutes gentlemanly action. All we have to say is, that when the editors of the Times act as gentlemen they will be treated as such, but when they stoop to the underhand and dishonorable practice of blackguards they should not feel surprised to find that they are treated accordingly.

We do not fear to have them reprint any article, or comment upon any article, that we may publish, but they must not "handle the truth carelessly" and expect to have us pass it over it over without notice.

If they wish to comment upon an article in our columns we would suggest that it was proper that our article be reproduced, together with their criticism, then the public could read both sides and be in a position to draw their own conclusions.

In the case at issue the Times first stated positively "according to the ADVANCE thus and so." When called to account they explain that "they so read" our article, but still do not substantiate either of their claims by producing the offending composition. This would appear to point to but one conclusion. THEY CANNOT PROVE THEIR CHARGE. Now when a man makes a charge that is not sustained by proof what is he usually called? We pause for reply.

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflated you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, toe hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE ELECTION NEWS.

New York, November 3.—Following is the grand total of the votes received by the three leading candidates for mayor in Greater New York, complete returns having been received from all of the districts: VanWyck, 235,181; Low, 148,513; Tracy, 101,823. VanWyck's plurality over Low, 86,668.

The indications are the Democrats have a small majority of the members of the State Assembly.

NEW JERSEY.

New York, November 3.—The vote in New Jersey to day was light. The Democrats made gains in almost every county and the Republicans retain control of the State Assembly by a narrow margin.

MARYLAND.

Baltimore, Nov. 3, 2 a. m.—A conservative estimate of the Maryland Legislature, based upon partial returns indicate that the Democrats will have sixty votes on joint ballot while Republicans will have fifty-seven.

NEBRASKA.

Omaha, November 2.—From Fusion head quarters the following statement was given out at midnight: We have carried Nebraska for the Fusion ticket by a plurality of from 20,000 to 25,000. Together with the magnificent victory for the State ticket, we have carried a majority of the county tickets. The cause leading to the result is a determination on the part of people of Nebraska to demand better money through the unlimited coinage of gold and silver.

OHIO.

Columbus, Nov. 3.—The result in Ohio is so close that it may require the official count to determine the result, especially on the political complexion of the Legislature. The Republicans and the Democrats are both claiming the State and the Legislature with such persistence that it will require the official count at least to get one or the other to concede defeat. Incomplete returns indicate the election of the Republican State ticket by ten to twelve thousand but the result on the Legislature is so close that no definite figures can be out to night. The Democrats claim confidently a majority in both of the Legislative branches, but give no figures on the number of Representatives and Senators. The Republicans claim fifty-four Representatives and seventeen Senators sure, or seventy-one votes on joint ballot, seven being necessary to elect a Senator. They also claim all of the twelve representatives whose counties have not been definitely heard from, and all of which are in the doubtful list.

VIRGINIA.

Richmond, Nov. 2.—The election story in Virginia is briefly told. Although there was unusual apathy, it is estimated that the Democratic State ticket is elected by about 55,000 or 60,000 majority, and the Democrats have two-thirds of the House of Delegates and four fifths of the Senate.

KENTUCKY.

Louisville, Nov. 2.—A conservative estimate at 11 o'clock to-night places the majority of Charles P. Weaver, Democratic candidate for mayor, over Geo. D. Todd, the present incumbent, at from 3,000 to 3,500. The returns from the State are meagre and unofficial at this hour. According to these, Shackelford, Silver Democrat, is leading Baily, Republican, by about 5,000 votes.

RHODE ISLAND.

Providence, Nov. 2.—The municipal election to day resulted in the election of William C. Baker, Democrat, by over 1,500 plurality. The vote was the smallest in years, the heavy rain preventing a large poll.

THE first campaign of the Greater New York is fully described in the American Monthly Review of Reviews for November. The story is worth reading. No such contest as this has been known before in municipal politics. The issues involved are tremendous, and the personnel of the leaders has a unique interest. The editorial comment in the Review's "Progress of the World," illumines the whole situation, and the subject is further enlivened by a selection of the most striking cartoons from the daily press.

At Wilmington at 1 o'clock Sunday morning a German sailor was killed by Giles Anderson. He was shot through the heart. Anderson was arrested. He acknowledges the killing, but pleads self defence. It is said he was drunk and attempted to kill another sailor at the same time.

There is fresh complication at Asheville. Magistrate Deaver issued a warrant against the Southern Railway Company for issuing free passes and cited Judge Ewart, of the Western Criminal Circuit, as a witness. The Judge denounced Deaver and Deaver served a rule on him to show cause why he should not be punished for contempt of Deaver's court. Deaver, who, Ewart says, is a discharged employee of the Southern Railway, is under indictment in four cases in Ewart's court for embezzlement of public funds and was convicted in one case, the maximum punishment for which is five years.
