A reminiscence of Mr. Longfellow is related by Mr. G. W. Childs, who several years ago entertained the poet at dinner in Rome. He was walking to the dining room with Mr Childs, and on their way through the corribor of the hotel they passed a series of lighted war candles placed in a candelabra surrounded by flowers. Mr. Longfellow immediately shaded his face with his hand and begged his companion to hasten his footsteps. It was through the flame of a lighted candle, when in the set of melting some scaling wax, that Mrs. Longfellow was burnt to death.
