The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it-no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health-in no other way can lasting benefit be obtained.

J. M. HORNER. Wi h such as detaut in requires as the exigencies of the School may require.

The chief work of the School is done by the senior Principal and his two soms. The less important work is given to assist instructors, who are selected with especial reference to their peculiar fluess for the duties assigned them and the number of students will not be instructed beyond the capacity of the Principals to take personal charge of all the classes in the classes in the leading branches taurit, and to supervise all the work of the school. The school has been under its present marrayement for more than thirty years, and in this sense, it is, we believe, the nadest school in the South. n the Nouth.
As several of the Calets will leave for Col-ege, there will be room next Session for about wenty new students. For catalogue apply to the Principals, J. H. & J. C. H. RNER.
