MEASURING MACHINE.

This represents a machine with which 100 yards
of fabric of any description can be measured, from
Cotton Bagging to Pinost Silk, in less than five
minutes, and with more accuracy than can be done
with the "Yard Stick." A boy seven years old can
do the work. These machines will soon be in every
Gin-house and Store in the South, and Carpet and
Bagging Manufacturers cannot do without it. They
are noted for their Rapidity and Accuracy of Work
and for their Cheapness. Manufacturers look to
the future and procure rights at once! Goods can
be measured from the loom and put in rolls of any
number of yards.
Two of these machines are now in successful
operation at the Mill of Mr. Noah Biggs and Mr.
M. D. Ashbrook, Scotland Neck, N. C. and give per-
fect satisfaction. For further information, terms
etc., Address

A HARD PARKING--WHY?
Come out in the garden and walk with me.
While the daisies whirl to that dreamy tune,
See the moonlight silver the sleeping dew,
And the world is fair as a night in June,
Let me hold your hand as I need to do;
This is the best, last love, you know,
For tomorrow a wiser man to be
And to wish you, though I love you so.
