An indignant Georgia editor says that if North Carolina will furnish the tar Georgia will foot the bill for the feathers for that celebrated English committee.

HON. CHAUNCEY M. DEWEY says that in less than two years the panic of 1893-94 will be forgotten and this country will be catering along on the broad road of prosperity.

The foreign missionaries in the Shing-King province in China are fleeing, fearing violence at the hands of Chinese soldiers, who, it is reported, are burning Christian chapels.

SENATOR BRICE, it is said, threatens to resign his seat and allow Governor McKinley to fill the vacancy in case the Democrats of Ohio should ensure him at the forthcoming meeting of the State convention.

The glibest old girl in America is Mrs. Plotter. She is 23 years old and a bicycle rider of vim and nerve. She recently challenged any woman of her age in the world to ride a bicycle race with her for a Bible.

GOVERNOR CARR says he will do everything he can to prevent lynching, and will recommend to the next legislature that each execution take place inside the penitentiary, that the criminal class may be more impressed than others.

MR. JOHN H. INMAN, of New York, who has made a trip through the Southern coal fields, says the South is on the eve of an era of great development. This opinion prevails every where, and it is well sustained by the many evidences of business revival.

The Thirtees in convention at Halifax last Friday made no nominations, but we learn that they will meet again in October on the same day the Republican convention is to be held. This looks very much like an acceptance of the old invitation of the spider to the fly.

BUTLER, Kitchin and Skinner, managers of the new consolidated Rep-Pop, aggregation of wonders will exhibit in North Carolina until November next. One ticket admits to the entire performance. Walk right in, gentlemen, and see the greatest ringstreaked and striped wonder of the nineteenth century.

The Washington Post has gone over the whole United States, state by state, and congressional district by congressional district, and has reached the conclusion that in the next house of representatives there will be 188 democrats, 154 republicans, and 14 populists, and in the next senate there will be 42 democrats, 37 republicans, 5 populists, and 4 doubtfuls.

The "green goods" shovers are trying a new dodge to catch gudgeons. In some of the circulars they send out they enclose a new one dollar bill as a sample of the stuff they sell. The bill is genuine. They take the chances on losing the dollar to catch a customer. They sent one to an Asheville man the other day who didn't bite and is therefore a dollar ahead.

A Chicago astronomer firmly believes he has discovered vegetation on the moon. He has constructed a telescope on a novel plan. Instead of a single object glass he uses a composite one built of seven lenses lying in the same plane. He was using the new telescope recently when he suddenly saw a spot of vivid green on the moon. Several other persons saw the spot. He estimates that it was forty by seventy miles in extent.

A good many of those people who rushed out to Oklahoma to be divorced and have since married will find themselves with two husbands or wives, as the case may be, since Oklahoma's divorcees have been declared illegal.

ORDINARILY the corn crop of the South is only a seventh of the whole crop in this country, but this year it is a fourth. As the cotton yield is very great, this section has no cause to complain of the present season.

ANOTHER Democratic pledge has been redeemed. The McKinley tariff law no longer lives to oppress the people and disgrace the statute books of the country. The Democrats promised its repeal and the promise has been kept. The new law may not be all that the people desired but it is a vast improvement on the McKinley act.

THE Wilmington Messenger has this to say of the work on which Captain W. R. Bond, of Scotland Neck, is now engaged: We learn that Capt. William R. Bond, of Halifax, is preparing a work in which "Four Famous Battles" will be written up elaborately and with great research. We are glad of this. He is fully competent to do the much needed work thoroughly well. Gettysburg will be one of the battles treated, and North Carolina will at last obtain her deserts.

SECRETARY SMITH, in his speech in Atlanta a few days ago, suggested several plans by which a greater use of silver can be brought about, but the one he preferred was the "repud of the tax on the issue of State banks and let us control our own banks," on which the gentleman from Georgia is eminently level-headed. The repud of this tax would go a long way in the solution of the financial problem.

It is well not to forget what the Democratic Congress has done, as recounted by Speaker Crisp in his Atlanta speech: We have repealed the McKinley law. We have greatly reduced taxation. We have made living cheaper. We have made all money taxable. We have taxed surplus incomes. We have restored freedom of elections. We have reduced public expenditures. We have declared undying hostility to all trusts and monopolies organized for the oppression of the people.

THE Democrats of Halifax county should not underestimate the strength of the Rep-Pop coalition. It is a dangerous conspiracy and only by a united effort can we hope to win in the approaching struggle. Let the white men of the county organize thoroughly, for the work. The old enemy's hopes are high, but Dr. Green is in the field and we all remember how he has led us on to victory in the past and he will do it again. Follow him, and victory will once more perch upon our banner.

COL. W. C. P. BRECKINRIDGE, the silver-tongued orator of Kentucky, has been defeated for renomination to Congress from the Ashland district, and Malvina Pollard has her revenge. Col. W. C. Owens has been nominated to succeed him.

It was a long and a bitter campaign. Breckinridge fought his battle with superb ability and splendid audacity. But his defeat was decreed from the first. After the shameful exposure of his conduct in the Pollard case all the best elements of society combined against him. The result shows that in this Christian land good men and good women are a power in politics. We congratulate Kentucky. She has nobly redeemed herself and Breckinridge's career is ended. He should spend his few remaining days in atoning for his past misdeeds.

"All run down" from weakening effects of warm weather, you need a good tonic and blood purifier like Hood's Sarsaparilla. Try it.

The farmers in North Carolina are curing some of the brightest tobacco they have had in several years. They anticipate fine prices. Though the crop is not so large as usual, the quality is better.

The Shelby Aurora says that the monazite business flourish in that section and bring shekels into the farmers pockets. It is being shipped to New Jersey, and over seven thousand dollars were paid to the people of Cleveland and surrounding counties during the month of August for this yellow sand.

A change it is believed, will soon be made whereby Paint Rock, once the terminus of two divisions of railroads, will be made a flag station, and Asheville will be made the dividing line between the two divisions. The change would be of considerable benefit to Asheville and give it more importance as a railroad center.
