### THE VALUE OF PAIN.

It Calls Attention to The Fact That Disease Exists.

Pain is not disease; it is a symptom calling attention to the fact that disease exists. We do not remove the disease by stopping the pain.

Headaches usually arise from disturbances in digestion, due to overeating, eating freely of salt foods, too much of a variety of meals, etc. Fermentation and decay of the foods with the formation of poisons and irritants result. The danger is reported at headquarters. The thing to do is to heed the voice of the faithful sentinel, assist nature to get rid of the impurities generated, either by washing out the stomach, drinking freely of water, fasting for a day, by vigorous exercise or eliminative baths. See gaze to the pain the voice of a friend calling attention to the fact that we have done wrong and resolve never to violate the laws of health on the point again. In a day or so the transgressor would feel well and would be able to keep from getting into the same or a worse condition by avoiding the cause.

This is not the way these symptoms are usually treated. Pain is looked upon as an enemy, not as the voice of a friend. The sick one goes to a physician and demands something that will stupefy or paralyze the nerves—the pain must stop at once. He is given an opiate; the pain stops; the food still keeps on decaying in the stomach; he imagines he is well. The disease still exists; the symptom alone has been removed. The faithful sentinel has been knocked down. The means of telegraphic communication to headquarters have been severed. The enemy has his own way and is able to go ahead undisturbed in his destructive work. The enemy enters the camp. Poisons that are generated in the stomach through errors in diet overwork and irritate the liver, the lungs and kidneys, through which they are eliminated, and finally result in Bright's disease, or the lungs, being weakened, are not able to resist the germs of disease that are inhaled. He falls a victim to tuberculosis and is now in a serious, if not an incurable condition.

The only safe way is to study the human body and become familiar with the laws upon which health, happiness and life depend. Prevent pain, and its sickness by avoiding their cause.—Life and Health.

### GOLD HOARDED BY MISERS.

Millions in Yellow Coin Disappear Annually From Circulation.

The world is full of millions and millions of lost sovereigns. A competent authority has just completed some investigations which, he declares, show that in three years the Bank of England has lost trace of no fewer than 20,000,000 golden coins of the realm. This wholesale disappearance of the elusive sovereign has been going on for years. A river of gold has flowed unceasingly from Threadneedle street to all parts of the world, but it has come back only as a tiny yellow streamlet. What has become of the surplus in its wanderings? "Miseria" is the unpoetical explanation for a great part of this disappearance. There still exist in this and other countries people who are unbusinesslike enough to hoard up gold and keep it lying idle by them for the sole pleasure of knowing it is there and occasionally counting it.

The people of India appear to be particularly addicted to a habit that is more reminiscent of medieval times than of an age when money is generally saved so that more can be made with it. In the regency of Bombay it is estimated that 12,000,000 golden sovereigns are hoarded. If that is the record of Bombay alone, what is the full tale for the whole country? China, too, absorbs a vast amount of gold that never sees the light again. As a matter of fact, while the whole world is searching for and trying to acquire gold, a goodly part of it appears to be engaged in the less thrilling pastime of hiding it.

Great Britain is not guiltless of this commercial sin. Dotted all over the kingdom are graveyards of gold which if discovered and opened might restore to circulation a vast amount of wealth at present absolutely useless. At a spot about two miles from Herefordshire beacon a treasure chest is recorded in the local history as having been buried by a great family once resident in the district. But the money cannot be found. There is a similar record in connection with Hains castle, formerly a seat of a branch of the Prestwich family. Somewhere near Sinessey castle, Shropshire, there is believed to be hidden a great treasure chest filled with gold coins, but up to the present all efforts to find it have ended in failure.—London Mail.

## Eczema, Psoriasis, Salt Rheum, Tetter and Acne

Belong to that class of inflammatory and disfiguring skin eruptions that cause more genuine bodily discomfort and worry than all other known diseases. The impurities or sediments which collect in the system because of poor digestion, inactive kidneys and other organs of elimination are taken up by the blood, saturating the system with acid poisons and fluids that ooze out through the glands and pores of the skin, producing an indescribable itching and burning, and "I can cheerfully endorse your S. S. S. as a cure for Eczema. I was troubled with it for 25 years and tried many remedies with no good effects, but after using a few bottles of S. S. S. I was entirely relieved." Wm. Campbell, 815 W. Central St., Wichita, Kan.

Write us about your case and our physicians will advise without charge. We have a handsomely illustrated book on skin diseases, which will be sent free to all who wish it. THE SWIFT SPECIFIC CO., Atlanta, Ga.
