

Ayer's Hair Vigor

Falling hair means weak hair. Then strengthen your hair; feed it with the only hair food, Ayer's Hair Vigor. It checks falling hair, makes the hair grow completely cured dandruff. And it always restores color to gray hair, all the rich, dark color of early life.

My hair was falling out badly and I tried a number of remedies, but they did not help. I bought Ayer's Hair Vigor, and it cured my hair. It grew thick and dark again.

The State Temperance convention in Raleigh last week was a notable gathering. Representative men from all sections of the State were present and the ball was set in motion and plans mapped out for a vigorous campaign against the whiskey traffic. Mr. W. A. Dunn, of Scotland Neck, one of the leading temperance advocates of Eastern Carolina, was honored by the convention in being called to preside as temporary chairman.

On taking the chair Mr. Dunn made a strong speech in favor of temperance. Mr. E. E. Hilliard, of Scotland Neck, also made a good, strong temperance speech.

The people of North Carolina will applaud the spirit of the convention, and should the Legislature, in its wisdom, carry out the recommendations, it will have the approval of thousands of good men and women of the State.

The Supreme Court of the United States has rendered a most important decision that will probably have a bearing upon the anti-jug law and like police legislation. It upheld the Iowa Anti-Cigarette law, affirming the decision of the Supreme Court of Iowa. The cigarettes sold were shipped into the State in small pasteboard boxes, and the contention was made that in enforcing the law the State authorities were interfering with interstate commerce.

The opinion was delivered by Justice Brewer, who said:

"While this court has been alert to protect the rights of non-resident citizens, and has felt its duty, not always with the approbation of the State courts, to declare the invalidity of laws throwing obstacles in the way of free intercourse and communication between States, it will not lend its sanction to those who set out deliberately to debauch the public conscience and to trample upon the laws of a State.

"The power of Congress to regulate commerce is undoubtedly a beneficent one. The police laws of the State are usually so, and it is our duty to harmonize them. Undoubtedly a law may sometimes be successfully and legally avoided, if not evaded, but it behooves one who stakes his case upon the letter of the Constitution not to be wholly oblivious to its spirit. In this case we cannot hold that plaintiffs are entitled to its immunities without striking a serious blow at the rights of the States to administer their own internal affairs."
