WHY can't the doctors say "new places of infection" instead of "foet?"

THE dove of peace was in luck when it took Theodore Roosevelt as a partner.

THE report of the discovery of a well in Kansas that spouts hot air is not going to sprout any excitement. Hot air wells have been too common in Kansas in days of Lease, Simpson and Peffer et al.

A Florida paper publicly expresses the opinion that "there is nothing so un-American as baseball," from which one may infer that not much attention is given to "horse-racing" in the editorial sanctum.

A movement is on foot in North Carolina to abolish the handshaking as a form of greeting. When the pumphant handshaking leaves, it ought to take with it the snapping-turtle kiss women give each other when they meet.

YEARS ago, when Judge Cloud was holding court in North Carolina, it is related on one occasion a couple of performing bears were brought out to do stunts on the streets of the town where the judge was presiding at court, whereupon the court adjourned and went out to witness the performance. Among the spectators was a citizen who was "inhabited and in the juddering about he stepped upon the judge's corras, for which his honor reproved him. The inhibited citizen thereupon cursed the judge and was arrested and punished for contempt of court. The same defense was made for him that Major Guthrie made for Mc Cowen—that court not being in session the offense was not contempt but simply a small disturbance between citizens. But Judge Cloud held that he was the court, that the court was wherever he was in person and any offense against him was contempt of court. If Mr. Mc Cowen had been familiar with this ruling he would probably have kept his hands off Judge Ward.

Good advice to women. If you want a beautiful complexion, clear skin, bright eyes, red lips, good health, take Hollister's Rocky Mountain Tea. There is nothing like it. 35 cents, Tea or Tablets.

### HOME AND ITS QUEEN.

There is probably not an unperfected man or woman living, who does not feel that the sweetest consolations and best rewards of life are found in the loves and delights of home. There are very few who do not feel themselves indebted to the influences that clustered around their cradles for whatever good there may be in their characters and condition. Home, based upon Christian marriage, is so evident an institution of God that a man must become profane before he can deny it. Wherever it is pure and true to the Christian idea, there lives an institution conservative of all the nobler instincts of society.

Of this realm woman is the queen. I taken the cue from her. If she is in the best sense womanly—if she is true and tender, loving and heroic, patient and self-devoted—the consciously and unconsciously organizes and puts in operation a set of influences that do more to mould the destiny of the nation than any man, unenriched by power of eloquence, can possibly effect. The men of the nation are what mothers make them, as a rule; and the voice that those men speak in the expression of power is the voice of the woman who bore and bred them. There can be no substitute for this. There is no other possible way in which the women of the nation can organize their influence and power that will tell so beneficially upon society and the State. The candle that is extinguished will not singe the wings of the moth. Put out the flame and its temptation ceases. Sin is avoided by temptations removed but encouraged when they are spread on every hand. Evil cannot come from that which does not exist. The fire that is never started burns no dwelling. If we would get rid of the evils of the liquor traffic we must get rid of the traffic. To establish it by law is to multiply crime by statute. The bee seeks no honey at the flower that is dead and the boys will not be beguiled by saloons which have no existence. The liquor traffic is a system for making the ruin of young men easy and of old men complete.—Supt. of Literature and Press Work, Weldon W. C. T. U.

Death at the hands of a person unknown was the coroner's verdict at an inquest held on the body of James A. Daugherty, which was found in the hall of a boarding house in Asheville.

### A. C. HOUSE.

Weldon, N. C.

Dear Sir: Two years ago the estate of the late Congressman Scott, of Erie, Pa., painted 24 Rolling mill houses one coat of Devoe at a saving of 11 per cent. for paint (lead and oil was after the job).

That's how the tale reads. We infer what really happened.

The layer, as usual, went by the coat of paint, got bids. Lead-and-oil bid low and guessed the quantity low; the saving was only 11 per cent.

Nobody seems to have thought of this: the painting costs two or three times as much as the paint. How much did we save on the painting? Don't know.

The tale ends with this: We often refer inquirers to those houses, for wear of Devoe.

That's a good enough story, but nobody knows what it is. Our only difficulty is want of paint-intelligence.

Yours truly,  
F. W. DEVOS & Co.

TO  
E. Clark, Weldon and W. E. Bevaas, Kofield, sell our paint.

Near Wake Forest a team of mules attached to a wagon loaded with wood ran away. The driver, Will Yarborough colored, was thrown from the wagon and almost instantly killed.

### ANY CHURCH or parsonage or institution supported by voluntary contributions will be given a liberal quantity of the Longman & Martinez L. & M. Paint whenever they paint. 8 and 6 make 14, therefore when you want fourteen gallons of paint, buy only 8 of L. & M. and mix six gallons of pure Linseed Oil with it, making actual cost of paint about \$1.20 per gallon. Don't pay \$1.50 for Linseed Oil (worth 60 cents) which you do when you buy other paints in a can with a label on it. Many houses are well painted with four gallons of L. & M., and three gallons of Linseed Oil mixed therewith. Wears and covers like gold. These celebrated paints are sold by Welle D. Tillery, Roanoke Rapids, N. C. Are you lacking in strength and vigor? Are you weak? Are you in pain? Do you feel all run down? The blessing of health and strength come to all who use Hollister's Rocky Mountain Tea. 35 cents. W. M. Cohen, Weldon, N. C. J. N. Brown, Halifax, N. C.

There are now forty-three game wardens in North Carolina. The supervising warden, John W. Updegraff, of Raleigh, says the Audubon law is popular in North Carolina and is being very well enforced.

State Insurance Commissioner Young who has charge of building and loan association matters, says he is in receipt of a great number of inquiries regarding those associations and all information desired can be found in chapter 435 of the laws of 1905.

The whiskey question was presented in a new form at Fayetteville on Wednesday. Judge Fred Moore holding that under Cumberland's special prohibition act it is unlawful for a person to have more than two gallons of whiskey in his possession at one time.

J. C. King, Jack Pate, L. R. High and W. F. Durham, attendants at the State hospital for the insane, have been committed without bail, to Wake county jail, charged with cruelly beating and causing the death of Thomas H. Nail, who was attempting to escape.

The Supreme court, through Chief Justice Walter Clark, makes announcement of its decision in the contempt case of ex-mayor Moses McCowan, of Durham, who struck Judge Ward, of the Superior court, and who, by that judge, was sentenced for contempt to serve thirty days in jail and to pay a fine of \$200. The Supreme court affirms the action of Judge Ward. The opinion was oral and the chief justice announced that later there would be a written one filed.

Charlotte special to the Raleigh Post: According to reliable information, a genuine bull weevil has been discovered near Hickory Grove church in Crab Orchard township, the pastor of the church, Rev. Mr. Bradley, making the discovery. The insect was "compared with some dead specimens from Texas and was shown to a gentleman who has seen many of the weevils. There is no doubt as to the fact that it is a genuine specimen.

### NATURE'S HOME TREATMENT.

Dr. J. S. Pugh's Home Treatment has been greatly revised after many years hard study and practice in chronic diseases among men, women and children. After studying all the Home Treatments in print up to date, he is conscious of having the combination of methods and instructions that come closer to nature for curing disease than any known today. Therefore, he appeals to the good judgment of those who have failed to be cured by all other methods not to lose hope but give his method a trial and be convinced that they can be cured. Among his methods are: the Biochemical salts which are nature's remedies and an ideal home treatment. These new treatments for disease are based upon Biochemistry and are without a doubt the greatest discoveries of the age. Instructions in exercise, baths internal and external, what and when to eat, deep breathing, kinds and quantities of water to be taken daily are also given. This combination gives more information as to how to live than you can get from any other source. It tells you how to continue well after you are cured.

Write to-day and get his pamphlet free, which explains his method of treatment. ROOMS 208-10 & 11 COCKFIELD BLDG. Dallas, Texas.

It is suggested that, after Mr. Roosevelt retires from the presidency "he would make a mighty good man to appoint to the Hague tribunal." Mr. Roosevelt is already a tribunal that beats The Hague.
