

HOW TO GET STRENGTH

after any sickness is purely a matter of nourishment, whether the attack was an ordinary cold or severe illness, the weakened forces cannot repulse disease germs, and this is why a relapse is so often fatal or why chronic weakness often follows sickness.

Restoring strength to millions of people for forty years has proven the real need for taking Scott's Emulsion after any sickness, nothing equals it—nothing compares with it. Its pure, medicinal nourishment, free from alcohol or opiates, promptly creates rich blood, strengthens the nerves and lungs to avert tuberculosis.

THERE are too many wars.

NOBODY cares how much a cool wave runs ahead of its schedule.

EVERY stock exchange knows enough to come in out of the rain.

LOOKS as if those *ducks* of war were too hungry to be smothered with corn bread.

MILLIONAIRES are multiplying in the South. It is time to stop the hookworm treatment.

COL. ROOSEVELT seems to be more careful than formerly in the selection of his enemies.

EVERY time we begin to get ready to go to Europe something comes along to make us cancel the trip.

LOOKING upon the trouble of the other great powers, Uncle Sam finds that his own are trivial by comparison.

ONE good reason why Argentine land is experiencing a steady boom is that they plant crops and not citizens in that section.

ALL over the State counties and portions of counties which are without railroad transportation are agitating to get these facilities.

THE Chicago Herald says that divorce is not the only thing that ought to be made harder. "Making marriage harder for the immature," it thinks, "would also help a great deal."

APPALLING disaster waits through out the world if there is carried to a conclusion the gigantic war into which Europe seems determined to throw itself without apparently counting the cost.

A Knoxville preacher says that the plan of "eight hours of work and sixteen hours of rest has brought to America one of its supreme problems—how to spend the sixteen hours."

PRESIDENT WILSON has again endeared himself to the whole civilized world by rendering his good offices as a mediator to the warring powers. It is doubtful however, if anything can restore peace except the overwhelling and crushing of Germany, which seems to be the "fall" she has been playing for.

The special committee appointed by the Legislature to investigate the fire insurance rates in the State and report to the next Legislature met in Raleigh last week.

The committee agreed on its recommendations and placed the matter of drafting the report in the hands of Judge Manning, who in two or three weeks will submit the draft to the committee, which will go over it and get in final shape for report to the Legislature.

The members of the committee would give no inkling of their conclusions, but one of the members said that the report would be a surprise to the State and that he thought the recommendations would give relief.

LIFE WORK OF MRS. WOODROW WILSON COMES TO AN END.

Beloved Woman, First Lady of the Land, Gently Falls on Sleep at the White House—The resident Prostrated.

Washington, D. C., Aug. 6.—Mrs. Woodrow Wilson, wife of the President of the United States, died at the White House at 5 o'clock this afternoon. Death came after a brave struggle of months against bright's disease and other complications.

The President was completely unnerved by the shock, and his grief was heartrending. He bore up well under the strain, however, and devoted himself to his daughters.

The end came while Mrs. Wilson was unconscious. Her illness took a turn for the worse shortly before one o'clock this afternoon, and from then on she gradually grew weaker.

Kneeling at the bedside at the end were the President and their three daughters—Dr. Cary T. Grayson, U. S. N., and a nurse, were in the room, and just outside the door were Secretary McAdoo and Francis B. Sayre, Mr. Wilson's secretary, and Mr. Tamm, his secretary.

Both houses of Congress adjourned when Mrs. Wilson's death was announced, and for a brief time the whole of the government virtually stopped.

Mrs. Wilson was fifty years old, and when she came to the White House was in robust health.

Always a home lover, she nevertheless unflinchingly assumed the arduous duties of the wife of a President. She took an active interest in public affairs and frequently received delegations calling on the President when he was too busy with other matters.

Mrs. Wilson was Miss Ellen Louise Axson, daughter of a Presbyterian clergyman, and was born at Savannah, Ga. She was a student at the New York Art League when she met Mr. Wilson, who then was taking a post graduate course at John Hopkins. The President and Mrs. Wilson were married June 21, 1885. Mrs. Wilson was a sister of Prof. Stockton Axson, head of the Department of English Literature at Princeton, and of the wife of Dean Edward Elliott, of Princeton.

A special train bearing President Wilson and his dead wife left Washington Monday for Rome, Ga. President Wilson was sitting beside the casket as the train pulled out from Washington for the South. It was the saddest journey of his life. He was accompanied by his daughters and a few members of his own and his wife's families. The last simple ceremony of the funeral took place Tuesday afternoon in the quiet, wooded cemetery of the Georgia town and the body of the "first lady of the land" now rests by the side of her father and mother, and the President has returned to the burdens of his office in the White House.

And many a man's success is due to the fact that he got busy and answered a few of his own prayers.

LATE WAR NEWS.

No Great Battle Yet on Land or Sea in War of Seven Nations

An account of the press censorship established in Great Britain, the news from the scene of another among the European nations is hard to obtain.

The bread situation in Belgium is grave, and appeals have been made to exporters of the United States to let wheat come forward, and the Belgian government has offered to guarantee war risks.

Brussels is covered by a net work of German spies, and 600 have been arrested and 100 summarily executed.

The Austrian ambassador to France has demanded his passport which indicated that Austria-Hungary has broken diplomatic relations with France, and these two countries may as well be considered as being officially at war.

Americans in London are enabled to get all the money needed, and many have decided to remain there.

The situation at Liege remains the same, the Germans seem to have possession of the city, while the Belgians are holding the forts.

No great battle has yet been fought on land or sea in the war of seven nations, unless the German assaults upon the fortresses at Liege eventually assume the proportions of battle in history. Both combatants claim victory there, with the Belgians still holding the forts and the Germans occupying the city.

One of the most important developments in the eyes of experts is the general testimony that the German infantry formation is obsolete and ineffective against the weapons of today and means an enormous slaughter if retained.

France and Austria finally are officially at war, the ambassadors having left the respective capitals. The French government broke up diplomatic relations with Austria on the grounds that Austrian soldiers were reinforcing the Germans.

Austria appears to have abandoned the advance on Serbia for a time, and is apparently co-operating with Germany in the supposed strategy of attempting to crush France before Russia can mobilize.

HALIFAX ITEMS ROUTE 2

Halifax, N. C., Aug. 10.—Mr. and Mrs. J. B. Dickens visited friends and relatives near Essex last week.

Messrs. J. D. Dickens and L. B. Dickens went to Weldon last Friday night.

Misses Lillie Dickens, Mildred Hamill, and Pattie Carter, returned home from Greenville, where they have been attending the "East Carolina Teachers' Training School," last Saturday morning.

Mr. W. D. Dickens, of Tillery, spent the day with his mother, Mrs. M. Dickens, last Sunday.

Mr. and Mrs. J. W. Burn, from near Scotland Neck, are visiting friends and relatives in this community this week. We are indeed glad to have them with us.

Mr. and Mrs. W. A. Carter, of Weldon, are spending this week with their parents, Mr. and Mrs. R. W. Carter.

Tuesday evening about dark Mrs. W. M. Morecock went into the hen house to get some eggs. She thought she saw a large snake and sure enough the next morning Mr. Morecock took up the floor and discovered a snake seven feet long, which was promptly dispatched to the happy snake land of somewhere.

The protracted meeting began at Hawkin's Chapel last Sunday. We are sure that Brother Edwards and Brother Williams will have a grand meeting, as they are both good preachers, and hard workers for the Lord.

A Delightful Profession for Young Women

HERE is no occupation for a young woman that is more pleasant or congenial, more suited to her ability and nature, none that can give her more personal satisfaction, and if she be a thoroughly trained professional none that offers bigger rewards than that of music teaching. The supply of competent teachers of piano music is far short of the demand.

Has your daughter ever given this matter a thought; have you ever spoken to her about (some day becoming) a teacher of music? If so—buy her a

ACT QUICKLY

Delay Has Been Dangerous In Weldon.

Do the right thing at the right time.

Act quickly in the time of danger.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of Weldon evidence of their worth.

Mrs. H. P. Massengill, Sixth Street, Weldon, says: "About two years ago I suffered a lot from my kidneys. My back ached and I had pains across my loins. My head also ached, I had dizzy spells and my sight was blurred. The kidney secretions were unnatural. I tried different remedies, but without results and became worse all the time. I was told I would have to leave an operation. Friends advised me to try Doan's Kidney Pills and I did. I was relieved at once and continued to use them. The headache left, my sight became clear and the kidney secretions acted regularly."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Massengill had.
