OTHERS OF DELICATE CHILDREN

ould Read the Following Letter—Mrs. Slack's Story About Her Child's Recovery Is Entirely Reliable.

Palmyra, Pa.—"Three years ago my little girl had black measles which left her with a chronic cough and so awfully in you could count all her ribs, and she weighed so much she had no appetite. Nothing we gave her seemed to help her at all until one day Mrs. Neilbert told me how much good Vinol had done her little girl, so I decided to try it for little one, and it has done her so much good she is hungry all the time, her cough is gone, she is stouter and more healthy in color and this is the first winter she has been able to play out in the snow, coasting and snow-balling without any ill effects."—Mrs. ALFRED SLACK, Palmyra, Pa.

We know Vinol will build up your little ones and make them healthy, strong and robust, therefore we advise parents of every frail and sickly child this vicinity to try a bottle of Vinol, a delicious cod liver and iron tonic about all.

If we can induce you to try a bottle of Vinol as a body-builder and strength-giver for your child, and you do not mind it is all we claim, we will return your money on demand.

This is a Bad Month
The end-of-life of winter, with lack of outdoor exercise, puts a heavy load on the kidneys. Nearly everybody suffers from rheumatism, backache, pain in sides and back, kidney and bladder ailments. A backache may not mean anything serious, but it certainly does not mean anything good. It's better to be on the safe side and take Foley Kidney Pills to strengthen and invigorate the kidneys and help them to do their work. They help rid the blood of acids and poisons.

A BOOST FOR OUR TOWN.

The Mid-Winter Chautauqua Festival Feb. 1, 2, and 3rd, 1915.

There is a new spirit abroad in the land. It is the spirit of democracy, the spirit of getting together, the spirit of co-operation. This spirit is finding expression in small groups, in clubs and lodges, in unions and federations and in a growing spirit of unity among the churches. It is beginning to seek embodiment in terms of a civic consciousness, in better national unities and in world policies.

The old method of improving a town was to get some man of wealth and public spirit to give it a fountain, donate a monument or put up a library.

The first problem of these smaller towns is to see themselves and their needs clearly. The greatest object of their citizens should not be to get as many dollars as they can and to keep them as long as they can, but to build the best town they can and to produce the best type of boys and girls, men and women, the best churches and schools, the best forms of amusements and recreation and to boost with enthusiasm anything that will give an opportunity for community expression, to things making for the common good.

The mid-winter chautauqua festival that is to be given in our town during the days beginning Feb. 1, 2 and 3rd, affords just such an opportunity and channel of expression. It should have the co-operation of every citizen of our town.

There will be discussed and set forth in this program the great constructive forces of civilization, the great achievements that the human race has made up to the present time and some of the great problems that are now before the world for solution.

It will do our town much good. It will give us larger visions and higher ideals. It ought to make for cleaner streets and yards, better sanitation, the development of more beauty spots in our town and a wide-awake spirit.

How to Cure a La Grippe Cough
"Coughs that hang on" demand treatment. Stop and think! Reason and common sense tell you that it is folly to "grin and bear it." Those racking la grippe coughs that wrench the body and cause soreness and pains in the lungs yield more quickly to Foley's Honey and Tar than to any other treatment. Forty years record of successes proves this. For coughs, colds, croup and other distressing ailments of throat, chest, lungs, larynx and bronchial tubes, you can find nothing that will compare with this reliable remedy.

SOUTH WELDON POINTS.

Interesting News Notes Gathered For This Paper.

The month of January has been exceedingly mild, and we all have reason to rejoice that our fuel bill has been moderate. Rain is plentiful and the school children are having a damp time getting back and forth to school. Side walks are badly needed for the school children as well as all pedestrians.

Will not some large-hearted, public spirited person start a subscription (to which every one who loves the welfare of children will contribute) to build side walks in South Weldon? Who will be the first to volunteer.

The cotton mill has been running at night to make up lost time. The employees are highly favored, while so many industries are at a stand-still, the cotton mills are kept running.

Several have reported on the sick list, but health is unusually good for this season of the year.

The merchants are undergoing the usual "dull business" in January, but business along all lines is expected to improve as spring approaches. Now is the time to practice economy, and spend carefully. Not denying the body wholesome food and sufficient clothing, but a strict denial of things harmful, viz: patent medicines, cold drinks, tobacco, snuff, cheap jewelry and common shows, all of which can be done without successfully.

It was painful to realize before Christmas and during the holidays how much money was being wasted on fire works, especially by those not financially able to tide over a severe winter.

Rev. J. A. Hornaday preached at the chapel Sunday afternoon and administered communion. The Sunday school continues fairly good but is much in need of teachers. We regret very much the removal of Mr. and Mrs. Gay from our midst.

Edgar Bounds and Robert Musgrove spent Saturday rabbit hunting out near Aurelian Springs.

Mrs. Sallie Brickell is visiting at the home of Mr. J. A. Johnston.

Mrs. C. E. Allen left Tuesday for Belhaven to visit her mother.

The next meeting of the Friday Afternoon Club will be held with Mrs. J. L. Shepherd next Friday afternoon. These meetings are intended to enhance the social life of our women, making us congenial, willing to receive as well as impart instruction in the arts of housekeeping, fancy work, etc.

More in the future. KATE.

George C. Friend, who went to the Klondyke country and made a fortune in gold mining, was here last week the guest of Mr. and Mrs. A. L. Stainback.
