DAVID LUBIN ADVOCATES RE-ELECTION OF WILSON

Father of American Rural Credits Another Leading Republican to Join President's Standard.

David Lubin, founder of the International Institute of Agriculture and father of the rural credit movement in America, has joined the list of prominent Republicans openly advocating the reelection of President Wilson. Within a fortnight Thomas A. Edison, Luther Burbank and Henry Ford, all Republicans and men of international fame, have made similar declarations.

David Lubin is a wealthy California farmer. His interest in securing a

square deal for the farmer led him to make research abroad and out of his efforts grew the International Institute of Agriculture at Rome. This institution does for the staples of agriculture of the world what the American Chamber of Commerce does for the products of the American manufacturer.

Through his connection with the International Institute of Agriculture Mr. Lubin became interested in the rural credit systems of Europe and led the movement which resulted in the passage of the Rural Credits by the Wilson Administration.

Just before departing for Italy, recently, Mr. Lubin authorized an interview of 4,000 words in which he gave his opinion of those acts of the Wilson Administration which directly affect the farmer, his home and his market. This interview has been furnished without cost to every leading farm paper in the United States. If the farmer does not read it in his farm paper it will probably be because the Editor does not care to use his columns for discussion of economic questions and government policies that stultify the interests of the farmer.

Mr. Lubin said: "In the application of business methods of distribution, America, until the present Administration, was about 150 years behind Germany and several decades behind the rest of Europe. And yet in the very thing in which America is backward, she should lead the world. She does not, because a clique of special interests deflected public opinion and controlled legislation through the bosses of the Republican party. So clever have they worked that the average man is hypnotized, his critical faculties dulled.

"President Wilson is neither fooled nor led by this crowd. He is fearless, patient, far-seeing. He has a historic sense of the past, a sympathetic sense of the present, and a prophetic spiritual sense of the future. While his head is above the clouds, his feet are always upon the earth. He is idealistic on the one side and the other practical. He is a real business man.

"He knows that good politics and good economics are the same thing. He is fearless in all my relations with him, direct or indirect. I fail to find anything or anybody he is afraid of."

When You Take Cold.

With the average man a cold is a serious matter and should not be trifled with, as some of the most dangerous diseases start with a common cold. Take Chamberlain's Cough Remedy and get rid of your cold as quickly as possible. You are not experimenting when you use this remedy, as it has been in use for many years and has an established reputation. It contains no opium or other narcotic.

Obtainable everywhere.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.

There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

A ROTTEN REPUBLICAN SHOW

—NEW YORK WORLD.

WHAT THE PRESIDENT ACTUALLY DID TO AVERT STRIKE DISASTER

Before I consulted with them (the railway executives and the representatives of the employees) I made myself acquainted with the points at controversy.

The first thing I told both sides was that I stood for the eight-hour day. We believe in the eight-hour day because a man does better work within eight hours than he does in a more extended day. I said to the railroad executives: "You are asking that the result of the eight-hour day be predicted and the prediction be arbitrated. The reasonable thing to do is to grant the eight-hour day not because the men demand it, but because it is right and let me get authority from Congress to appoint a commission to observe the results and report in order that justice may be done the railroads in respect of the cost of the experiment."

That was the proposal which they rejected and which Congress put into law, a proposal which I made to them before I conferred with it, which I urged upon them at every conference, and which when the one side rejected and the other accepted I went to Congress and asked Congress to enact. I did not ask either side whether it suited them, and I requested my friends in Congress not to ask either side whether it suited them. I learned before the controversy began that the whole temper of the legislative body was in favor of the eight-hour day.

In the House of Representatives the plan was passed, was sanctioned, by a vote which included seventy Republicans as against fifty-four Republicans. In the Senate the Republican members held a conference in which they determined to put no obstacle in the way of the passage of the bill. Now, this was because the proposal was reasonable and was based upon right.—From President Wilson's speech to New Jersey business men at Shadow Lawn, N. J., Sept. 23.

ROBINS DECLINES TO MEET MRS. FUNK IN DEBATE

Brilliant Woman Progressive Supporting Wilson Had Challenged Hughes Convert to Match Reasons.

Raymond Robins, who was elected one of the most progressive National Convention in Chicago, declined to meet Mrs. Antoinette Funk in debate in public places on the morning of the Progressive National Convention in Chicago. Mrs. Funk had challenged Mr. Robins to meet her in public places on the morning of the Progressive National Convention in Chicago. Mrs. Funk had challenged Mr. Robins to meet her in public places on the morning of the Progressive National Convention in Chicago.

Mrs. Funk has been in Chicago since she was one of the prominent members of the Progressive movement in the town of it. She and Mr. Robins fought side by side for Progressive principles and she was one of the most active campaigners for Mr. Robins in the recent campaign in Illinois two years ago.

Mrs. Funk was a member of the Executive Committee of Progressive National Campaign Committee. She has been a member of the Executive Committee of the Progressive National Campaign Committee since its organization in 1912. She has been a member of the Executive Committee of the Progressive National Campaign Committee since its organization in 1912.

In her letter to Mr. Robins, Mrs. Funk said:

"In 1912, endorsing the Progressive party with my whole heart, I left behind me a tradition of middle western and New England Republicanism and when the 2nd year in the Agriculture last June I followed Theodore Roosevelt as the host of the Progressive National Convention with both the Republican party of 1912 and the Progressive party of 1912 that he and you and I considered and I waited for a sign that would point the new way. It did not come, but events transpired in their impact did transpire and without my inclination and tradition and against

my inclination and prejudice, I was forced in honesty to myself to admit that Woodrow Wilson, greater than his party, a leader of his party, had in large measure kept for the Progressives their contract affirmed by them and entered into with the people.

"I am inviting you, Mr. Robins, to join me in a series of debates, the question to be proposed and the arrangements to be made through our respective committees, such debates to be held during the campaign, it being understood that the resolution of the question shall suspend all matters properly at issue in the minds of Progressives seeking their political affiliation for 1916."

WATCH THE EYE.

Deep blue eyes, the coquette, gray eyes, keen intelligence, green eyes, jealousy; black eyes, intensely loving nature, and brown eyes, a kind, happy temperament. Eyes, which appear impressive and interesting and suddenly flash forth into clear light, denote a loving nature and a deep understanding of trouble or sorrow. Eyes, which are always inquisitive, yet, when they look at a person, seem suddenly to become kind and warm, are not to be trusted too far.
